Gao Village Mobo C. F. Gao, 1999-01-01 This book is about Gao Village, in Jiangxi province, where the author was born and brought up, leaving when he was twenty-one to study English at Xiamen University. Since emigrating to Australia in 1990, he has returned every year to Gao Village, where his brother still lives. Several accounts of village life in China have been published, but all have been by Western or urban Chinese scholars. Mobo Gao's account is in every sense one from the inside. Though written as an academic work, it does not eschew personal stories and experiences relevant to the themes addressed. These cover a forty-year period and fall into four distinct themes; the village before and after land reform; the commune system; the dismantling of the communes; and the unfolding impact of the market economy, including increased migration to urban areas, from the late 1980s onwards.

The Battle for China's Past Mobo Gao, 2008-02-20 Mao and his policies have long been demonized in the West, with the Cultural Revolution considered a fundamental violation of human rights. As China embraces capitalism, the Mao era is being denigrated by the Chinese political and intellectual elite. This book tackles the extremely negative depiction of China under Mao in recent publications and argues that most people in China, including the rural poor and the urban working class, actually benefited from Mao's policies. Under Mao there was a comprehensive welfare system for the urban poor and basic health and education provision in rural areas. These policies are being reversed in the current rush towards capitalism. Offering a critical analysis of mainstream accounts of the Mao era and the Cultural Revolution, this book sets the record straight, making a convincing argument for the positive effects of Mao's policies on the well-being of the Chinese people.

Contractually Married Jaycelle Anne Rodriguez, Mobo Reader, 2019-12-05 As they openly say, 'life isn't fair!' Well for me, that's exactly the definition of my own life. Not until I reached the age of 18, where I signed the most stupid arrangement and contract in my life. Do you know what consist of that so called arrangement? Well, let me tell you... it's just me and my name who and which is going to be tied 'contractually' by the end of the name of my 'jerk' (so called) of a husband. You heard that? Contractually? Yes. We're just going to be 'contractually married' for five years... for five long years. And since it's only for five years, we don't need to act like those typical husband and wife or a lovey-dovey-couple that you can see everywhere, holding each other's hands while walking, hugging, kissing.. and ohh.. eating each other's face, because that's exactly the opposite situation of our marriage. He hates me with all his guts and same with me.. although I don't know the reason why and where his hates coming from. So here I am, Arrianna Angela Kelley-Smith, married to Alexander Jonathan Smith who is known to be one of the successful and richest bachelor --slash--womanizer in the whole business state of California. Hmmp! Little did they know, he was already married to me four years ago... Next book: Taming Mr. Cold and Arrogant

He Only Married Me To Show Her That He Already Moved On 1 Jaycelle Rodriguez, Mobo Reader, 2019-12-05 He has all the traits that you wished for your dream man to have. Power, money, perfection, handsomeness and a body like a Greek God. But he's inlove. He's inlove with her. For him, she was the completion of his dream, a perfect wife and a mother to be with his children. He would give her everything including his own life. He would sacrifice his world for her. But she left him. She betrayed him. She broke his heart into pieces. And he turned into a cold, heartless, rude and an arrogant billionaire, who would do everything to show her that she's no longer important into his life. Even though the truth is the opposite of what he is doing. His heart still aching for her. And that's when he met me. I applied as his Personal Assistant to fulfill my bucket list of dreams. To explore my life and experience everything. He offered me a deal. He asked me to marry him just to show his ex that he already moved on.*****She's pregnant. He blurted out and I almost stumbled on where I am standing. I just gripped the backrest of the couch to support my weight. The pain creeping in my heart is unbearable but I managed to stay calm. Wow! Congratulations! I said faking my excitement as I remembered him saying... -cheating would not be the reason to break our marriage- of course I couldn't accuse him of this as 'cheating' because she was the real reason why we are pretending as a couple. He still love her. He's still inlove with her. And that's when I made the biggest decision in my life. Taking all my strength and a piece of my heart that still hanging on a thin rope... I left him. Taking also my biggest secret in me... that I've already fallen inlove with him. And somehow I learned a lesson; 'Loving someone who doesn't love you back isn't as hard as loving someone who still inlove with his ex and who only uses you to get her back again into his life..'

Mao's Last Revolution Roderick MACFARQUHAR,Michael Schoenhals,2009-06-30 The Cultural Revolution was a watershed event in the history of the People's Republic of China, the defining decade of half a century of communist rule. Before 1966, China was a typical communist state, with a command economy and a powerful party able to keep the population under control. But during the Cultural Revolution, in a move unprecedented in any communist country, Mao unleashed the Red Guards against the party. Tens of thousands of officials were humiliated, tortured, and even killed. Order had to be restored by the military, whose methods were often equally brutal. In a masterly book, Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution, and show his Machiavellian role in masterminding it (which Chinese publications conceal). In often horrifying detail, they document the Hobbesian state that ensued. The movement veered out of control and terror paralyzed the country. Power struggles raged among Lin Biao, Zhou Enlai, Deng Xiaoping, and Jiang Qing--Mao's wife and leader of the Gang of Four--while Mao often played one against the other. After Mao's death, in reaction to the killing and the chaos, Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority. In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil, Mao's Last Revolution offers the most authoritative and compelling account to date of this seminal event in the history of China.
