Cornering the Market Susan V. Spellman, 2016-03-15 In popular stereotypes, local grocers were avuncular men who spent their days in pickle-barrel conversations and checkers games; they were backward small-town merchants resistant to modernizing impulses. *Cornering the Market* challenges these conventions to demonstrate that nineteenth- and early-twentieth-century grocers were important but unsung innovators of business models and retail technologies that fostered the rise of contemporary retailing. Small grocery owners revolutionized business practices from the bottom by becoming the first retailers to own and operate cash registers, develop new distribution paths, and engage in transforming the grocery trade from local enterprises to a nationwide industry. Drawing on storekeepers' diaries, business ledgers and documents, and the letters of merchants, wholesalers, traveling men, and consumers, Susan V. Spellman details the remarkable achievements of American small businessmen, and their major contributions to the making of modern enterprise in the United States. The development of mass production, distribution, and marketing, the growth of regional and national markets, and the introduction of new organizational and business methods fundamentally changed the structures of American capitalism. Within the walls of their stores, proprietors confronted these changes by crafting solutions centered on notions of efficiency, scale, and price control. Without abandoning local ties, they turned social concepts of community into commercial profitability. It was a powerful combination that businesses from chain stores to Walmart continue to exploit today.

The Market-Place Harold Frederic, 2012-11-19 The market-place (1899). This book, *The market-place*, by Harold Frederic, is a replication of a book originally published before 1899. It has been restored by human beings, page by page, so that you may enjoy it in a form as close to the original as possible.

Rob Pruitt's EBay Flea Market Rob Pruitt,2015 ... an unconventional autobiography. It retraces one year in the life of Rob Pruitt through the quotidian objects that the artist once loved, consumed, then felt he didn't need anymore. An extension of the real-world flea markets, that he has been organizing since the early 1990s, this particular collection of belongings sold on eBay from September 23, 2013 to September 23, 2014 unearths precious fragments of Pruitt's life while revealing his most material desires.

The Art of Buying and Selling at Flea Markets Barry Berg,2013-03-04 Flea Markets are considered one of the most democratic institutions around. This guide is for all collectors and dealers who want to gain access to the universe of antiques and collectibles sold at flea markets, antique malls, or on the Internet. Author Barry Berg discusses what it really means to sell and buy in this arena. He provides tips on making the most of your efforts whether you are a collector or dealer. This handy resource guide gives advice and useful tips to beginners wanting to start a collection or a business dealing with collectibles. A Buyer's Market, 1983

Gulf War and Health Institute of Medicine, Board on

Population Health and Public Health Practice, Committee on Gulf War and Health: Physiologic, Psychologic, and Psychosocial Effects of Deployment-Related Stress, 2008-03-25 The sixth in a series of congressionally mandated reports on Gulf War veterans' health, this volume evaluates the health effects associated with stress. Since the launch of Operation Desert Storm in 1991, there has been growing concern about the physical and psychological health of Gulf War and other veterans. In the late 1990s, Congress responded by asking the National Academy of Sciences (NAS) to review and evaluate the scientific and medical literature regarding associations between illness and exposure to toxic agents, environmental or wartime hazards, and preventive medicines or vaccines in members of the armed forces who were

exposed to such agents. Deployment to a war zone has a profound impact on the lives of troops and on their family members. There are a plethora of stressors associated with deployment, including constant vigilance against unexpected attack, difficulty distinguishing enemy combatants from civilians, concerns about survival, caring for the badly injured, and witnessing the death of a person. Less traumatic but more pervasive stressors include anxiety about home life, such as loss of a job and income, impacts on relationships, and absence from family. The focus of this report, by the Institute of Medicine (IOM) Committee on Gulf War and Health: Physiologic, and Psychosocial Effects of Deployment-Related Stress, is the long-term effects of deployment-related stress. Gulf War and Health: Volume 6. Physiologic, and Psychosocial Effects of Development Related Stress evaluates the scientific literature regarding association between deployment-related stressors and health effects, and provides meaningful recommendations to remedy this problem.

Increasing Capacity for Stewardship of Oceans and Coasts National Research Council, Division on Earth and Life Studies, Ocean Studies Board, Committee on International Capacity-Building for the Protection and Sustainable Use of Oceans and Coasts, 2008-02-04 Marine environments support the livelihoods, economies, and quality of life for communities around the world. But growth of coastal populations and increasing demands on marine resources are putting the future of ocean and coastal resources at risk through impacts such as overfishing, wetland drainage, climate change, and pollution of coastal waters. Given these demands, it is vital to build capacity—the people, the institutions, and technology and tools—needed to manage ocean resources. Unfortunately, many capacity building efforts focus on specific projects rather than on capacity building as goal unto itself, resulting in activities that are not funded or sustained past the typically short project lifetime. This book finds that the most successful capacity-building efforts meet the needs

of a specific locale or region based on periodic assessments and include plans to maintain and expand capacity after the project ends. The report recommends ways that governments and organizations can help strengthen marine protection and management capacity, including conducting periodic program assessments, making plans to sustain funding, and developing leadership and political will. The book was produced at the request of Gordon and Betty Moore Foundation, the President's Circle of the National Academies, the David and Lucile Packard Foundation, the National Oceanic and Atmospheric Administration, the National Science Foundation, the Marisla Foundation, and the Curtis and Edith Munson Foundation.
