Right of Way Angie Schmitt, 2020-08-27 The face of the pedestrian safety crisis looks a lot like Ignacio Duarte-Rodriguez. The 77-year old grandfather was struck in a hit-and-run crash while trying to cross a high-speed, six-lane road without crosswalks near his son's home in Phoenix, Arizona. He was one of the more than 6,000 people killed while walking in America in 2018. In the last ten years, there has been a 50 percent increase in pedestrian deaths. The tragedy of traffic violence has barely registered with the media and wider culture. Disproportionately the victims are like Duarte-Rodriguez—immigrants, the poor, and people of color. They have largely been blamed and forgotten. In Right of Way, journalist Angie Schmitt shows us that deaths like Duarte-Rodriguez's are not unavoidable "accidents." They don't happen because of jaywalking or distracted walking. They are predictable, occurring in stark geographic patterns that tell a story about systemic inequality. These deaths are the forgotten faces of an increasingly urgent public-health crisis that we have the tools, but not the will, to solve. Schmitt examines the possible causes of the increase in pedestrian deaths as well as programs and movements that are beginning to respond to the epidemic.

Her investigation unveils why pedestrians are dying—and she demands action. *Right of Way* is a call to reframe the problem, acknowledge the role of racism and classism in the public response to these deaths, and energize advocacy around road safety. Ultimately, Schmitt argues that we need improvements in infrastructure and changes to policy to save lives. *Right of Way* unveils a crisis that is rooted in both inequality and the undeterred reign of the automobile in our cities. It challenges us to imagine and demand safer and more equitable cities, where no one is expendable.

*Death in Paradise* J.E. Trent, 2018-03-17 They say blood is thicker than water, but for Jessica Kealoha, blood has only brought war to paradise. Hawai'i Regional Cuisine Samuel Hideo Yamashita, 2019-05-31 Samuel H. Yamashita's Hawai'i Regional Cuisine: The Food Movement That Changed the Way Hawai'i Eats is the first in-depth study on the origins, philosophy, development, and legacy of Hawai'i Regional Cuisine (HRC). The book is based on interviews with thirty-six chefs, farmers, retailers, culinary arts educators, and food writers, as well as on nearly everything written about the HRC chefs in the national and local media. Yamashita follows the history of this important regional movement from its origins in 1991 through the following decades, offering a boldly original analysis of its cuisine and impact on the islands. The founding group of twelve chefs—Sam Choy, Roger Dikon, Mark Ellman, Amy Ferguson Ota, Beverly Gannon, Jean-Marie Josselin, George Mavrothalassitis, Peter Merriman, Philippe Padovani, Gary Strehl, Alan Wong, and Roy Yamaguchi—grandly announced in August 1991 the establishment of

what they called Hawai'i Regional Cuisine. At the time, they had no idea how dramatically they would change the food scene in the islands. While they each had their own style, their common commitment to using fresh, locally sourced ingredients of the highest quality at their restaurants quickly attracted the interest of journalists writing for national newspapers and magazines. The final chapters close with a discussion of the leading chefs of the next generation and an assessment of HRC's impact on farming, fishing, ranching, aquaculture, and culinary education in the islands. Hawai'i Regional Cuisine will satisfy those who are passionate about food and intrigued by changes in local foodways.

**The Young Warriors** Victor Stafford Reid, 2021-02-26 In 1735, five Maroon boys are ready to be initiated as warriors. They have prepared long and hard for this day, and must now pass a sequence of tests. How the boys approach this, the most important day of their lives, says much about how they will respond to the challenges ahead. When they encounter a Redcoat troop in the forest near their village, the defence of the village and surrounding Maroon communities will depend on these boys, their training, courage, and intelligence. On this occasion, their community depends on them for its survival, but their initiation as warriors also teaches them lifelong lessons about loyalty, responsibility, trustworthiness and friendship.

**Late Victorian Holocausts** Mike Davis, 2002-06-17 This global environmental and political history "will redefine the way we think about the European colonial project" (Observer). " . . . sets the triumph of the late 19th-

century Western imperialism in the context of catastrophic El Niño weather patterns at that time . . . groundbreaking, mind-stretching.” –The Independent Examining a series of El Niño-induced droughts and the famines that they spawned around the globe in the last third of the 19th century, Mike Davis discloses the intimate, baleful relationship between imperial arrogance and natural incident that combined to produce some of the worst tragedies in human history. *Late Victorian Holocausts* focuses on three zones of drought and subsequent famine: India, Northern China; and Northeastern Brazil. All were affected by the same global climatic factors that caused massive crop failures, and all experienced brutal famines that decimated local populations. But the effects of drought were magnified in each case because of singularly destructive policies promulgated by different ruling elites. Davis argues that the seeds of underdevelopment in what later became known as the Third World were sown in this era of High Imperialism, as the price for capitalist modernization was paid in the currency of millions of peasants’ lives.

**Hacking Politics** David Moon,Patrick Ruffini,David Segal,2013-05-01 Hacking Politics is a firsthand account of how a ragtag band of activists and technologists overcame a \$90 million lobbying machine to defeat the most serious threat to Internet freedom in memory. The book is a revealing look at how Washington works today – and how citizens successfully fought back. Written by the core Internet figures – video gamers, Tea Partiers, tech titans, lefty activists and ordinary Americans among them – who defeated a pair of special interest bills called SOPA (“Stop Online Piracy Act”) and PIPA (“Protect IP Act”), Hacking Politics provides the first detailed account of the glorious, grand chaos that led to the demise of that legislation and helped foster an Internet-based network of amateur activists. Included are more than thirty original contributions from across the political spectrum, featuring writing by Internet freedom activist Aaron Swartz; Lawrence Lessig of Harvard Law School; novelist Cory Doctorow; Rep. Zoe Lofgren (D-CA.); Jamie Laurie (of the alt-rock/hip-hop group The Flobots); Ron Paul; Mike Masnick, CEO and founder of Techdirt; Kim Dotcom, internet entrepreneur; Tiffinij Cheng, co-founder and co-director of Fight for the Future; Alexis

*A People's Curriculum for the Earth* Bill Bigelow, Tim Swinehart, 2014-11-14 *A People's Curriculum for the Earth* is a collection of articles, role plays, simulations, stories, poems, and graphics to help breathe life into teaching about the environmental crisis. The book features some of the best articles

from Rethinking Schools magazine alongside classroom-friendly readings on climate change, energy, water, food, and pollution—as well as on people who are working to make things better. A People's Curriculum for the Earth has the breadth and depth of Rethinking Globalization: Teaching for Justice in an Unjust World, one of the most popular books we've published. At a time when it's becoming increasingly obvious that life on Earth is at risk, here is a resource that helps students see what's wrong and imagine solutions. Praise for A People's Curriculum for the Earth To really confront the climate crisis, we need to think differently, build differently, and teach differently. A People's Curriculum for the Earth is an educator's toolkit for our times. — Naomi Klein, author of The Shock Doctrine and This Changes Everything: Capitalism vs. the Climate This volume is a marvelous example of justice in ALL facets of our lives—civil, social, educational, economic, and yes, environmental. Bravo to the Rethinking Schools team for pulling this collection together and making us think more holistically about what we mean when we talk about justice. — Gloria Ladson-Billings, Kellner Family Chair in Urban Education, University of Wisconsin-Madison Bigelow and Swinehart have created a critical resource for today's young people about humanity's responsibility for the Earth. This book can engender the shift in perspective so needed at this point on the clock of the universe. — Gregory Smith, Professor of Education, Lewis & Clark College, co-author with David Sobel of Place- and Community-based Education in Schools

**A Killing in Amish Country** Gregg Olsen, Rebecca Morris, 2016-07-05 At just 30 years old, with dark-blond hair and freckles, Barbara Weaver was as pretty as the women depicted on the covers of her favorite bonnet stories - romance novels set in Amish America. Barbara had everything she'd ever wanted: five beautiful children, a home, her faith, and a husband named Eli. But while Barbara was happy to live as the Amish have for centuries - without modern conveniences, Eli was tempted by technology: cell phones, the Internet, and sexting. Online he called himself Amish Stud and found no shortage of English women looking for love and sex. Twice he left Barbara and their children, was shunned, begged for forgiveness, and had been welcomed back to the church. Barb Raber was raised Amish, but is now a Conservative Mennonite. She drove Eli to appointments in her car, and she gave him what he wanted when he wanted: a cell phone, a laptop, rides to his favorite fishing and hunting places, and, most importantly, sex. When Eli starts asking people to kill his wife for him, Barb offers to help. One night, just after Eli had hitched a ride with a group of men to go fishing in the hours before dawn, Barb Raber entered the Weaver house and shot Barbara Weaver in the chest at close range. It was only the third murder in hundreds of years of Amish life in America, and it fell to Edna Boyle, a young assistant prosecutor to seek justice for Barbara Weaver.
