My First Model United Nations Conference Vivian Armitage, 2016-03-17 Do you like public speaking? Do you like learning about countries, cultures, and the issues facing our world? Do you like meeting interesting people? If you answered yes to any of these questions, then Model United Nations is for you! Pick up this book and start reading. Seriously, stop skimming the synopsis and dive right into the good stuff. Model United Nations is one of my favorite activities for a myriad of reasons, but I will not bore you by listing all the aspects I love about Model UN, I will just highlight my top four. First of all, attending a conference is a great way to meet people just like you, meaning it is a great way to make new friends! Secondly, participating in Model UN will build your public speaking skills, which are especially important to develop as you move into high school and college. Third of all, learning about current events makes you an engaged American citizen, and also means you can show off your knowledge to parents, friends, teachers, and the like. Finally, practicing parliamentary procedure and learning about decorum will provide insight into the workings of the United Nations, the world's most important agency for keeping peace. Hopefully, after you read this book, you will feel comfortable enough to participate in a conference. I hope this will be an informative and enjoyable read, and that after learning about Model UN, you will love this awesome activity as much as I do!

Engaging the United Nations Brian Dille, 2017-05-01 *Engaging the United Nations* is an accessible introduction to the UN and a guide to prepare for a Model UN simulation. Each chapter is introduced by a comic that relates the parallel stories of two young women, one a refugee on the receiving end of international institutions, and the other a recent college graduate whose work shows the bureaucratic side of the UN. Each chapter has three sections: Content, which discusses theory, history, and facts like a standard textbook; Skills, which focuses on the essential skills of research, writing, effective communication, and diplomacy needed to excel as a delegate to a Model UN conference; and Exercises, which explores these skills in a classroom setting. The plight of refugees is central to the narrative of the comic portion of the text, and a portion of the proceeds of this book will be given to refugee assistance efforts.

Mun-E Eugene Geis, Eugene J Geis Ph D, Anthony White, 2012-10-08 The world's most globally informative activity, Model UN [MUN], is more than 50 years old, yet there has never been a book or reference written to explain the process of MUN in a clear and concise fashion, readable for a high school student, until NOW... It is called MUN-E (pronounced money) and it is a strategy guide for Model UN, educating students on how to portray true value to a room of strangers (other delegates) who are seeking a strong leader to show them what to agree on. After coaching and advising a public high school into Best Delegate's national rankings for multiple consecutive years, Eugene Geis and Anthony White had met enough fresh, new advisors and delegates seeking guidance to master this academic competition. Their book is already in more than 10 countries, proving that leadership can be taught, and it is not merely a result of knowledgeable students promoting consistent international policy. It is rather a combination of a strong, charismatic presence, confidence in one's own ability to communicate, and a personality that exudes tendencies towards rapport, compromise, and effectiveness. This is the true power behind the Diplomat. This book first breaks down the technique for developing a strong presence in and out of committee. It is called Social Intelligence. Second, they deconstruct the types of delegates encountered at a typical Model UN conference, from the newbie to the gavel hunter. Each type of delegate has positive and negative consequences that require a competitor's attention when forming new alliances. Next, MUN-E shows the reader the philosophical background of arguments, creating a structure that allows a delegate to sculpt any disagreement into a compromise. The sixth chapter shows how to apply these arguments to any of TWELVE award-winning strategies that can be used to solidify a delegate's leadership in any committee! These strategies are drawn from more than 40 years of experience in Model UN competitions. Chapter 7 is a short treatise that breaks down the controversial rules of dress code, demystifying the all-too-common issues resulting from teenagers attempting to dress professionally. In chapter 8 the fine art of writing position papers and resolutions is presented, using persuasive writing techniques not normally taught in an English classroom. Chapter 9 is the only full discussion of Crisis Committees that can be found printed. Eugene and Anthony's high school delegates were extremely successful in these high-caliber, fiercely competitive situations. Every delegate wishes for a strong introduction to a crisis committee, but usually ends up being chewed up and demoralized in their first experience. This book sets up a framework for preventing such an event. The tenth chapter gives a strong set of tools for developing relationships with other students using the flexible rules of social engineering. This material is not for the beginner and holds severe social consequences if used improperly. Keeping ahead of the times, there is a full chapter on creating a FREE wordpress website for a MUN club's management platform. It demonstrates how to integrate it with an existing

facebook group and twitter account, maximizing your club's exposure and social media footprint! Finally, the appendices include empirical recipes for research, the full protocol of parliamentary procedures, and a discussion of management techniques for advisors. Model UN is the most difficult liberal arts academic club in high school and the skills that can be learned through Model UN are useful in the broader context of negotiation, social parlance, interviewing, and even collaborative productivity. It should be noted that some of the most successful people in media, business, and leadership have experience competing in Model United Nations. It is one of a few activities that offer full character development along with a global education. This book is, by far, the best primer on this academic a
