Mid-Century Modern Interiors Lucinda Kaukas Havenhand, 2019-01-24 Mid-Century Modern Interiors explores the history of interior design during arguably its most iconic and influential period. The 1930s to the 1960s in the United States was a key moment for interior design. It not only saw the emergence of some of interior design's most globally-important designers, it also saw the field of interior design emerge at last as a profession in its own right. Through a series of detailed case studies this book introduces the key practitioners of the period - world-renowned designers including Ray and Charles Eames, Richard Neutra, and George Nelson - and examines how they developed new approaches by applying systematic and rational principles to the creation of interior spaces. It takes us into the mind of the designer to show how they each used interior design to express their varied theoretical interests, and reveals how the principles they developed have become embodied in the way interior design is practiced today. This focus on unearthing the underlying ideas and concepts behind their designs rather than on the finished results creates a richer, more conceptual understanding of this pivotal period in modernist design history. With an extended introduction setting the case studies within the broader context of twentieth-century design and architectural history, this book provides both an introduction and an in-depth analysis for students and scholars of interior design, architecture and design history.

Designing the Modern Interior Penny Sparke, 2009-06 Presents a history of interior design from the late 19th to the 21st centuries, and examines particular characteristics that are consistent across this period.

Old World Interiors David Naylor, 2008 Interior

designer David Naylor embraces the broad range of possibilities presented by a world of materials old and new, of objects both found and manufactured. He calls his approach infusion design, by which he means capturing the ideas of the Old World without forgetting about the present, stirring melting pots of cultures and allowing opposites to coexist, and pulling together objects from around the world. The timelessness, natural warmth, and adaptability of the popular Southwesternstyle aesthetic provide an appealing backdrop for his interpretations, which eschew the clichés while retaining the essence. The architectural elements of the region-round beams, adobe walls, natural wood finishes-create a versatile aesthetic that can embrace an infinite variety of designs, while the nomadic nature of Americans generally, who move freely about the country bringing their favorite decor items with them, makes for limitless opportunities to infuse designs with intriguing juxtapositions and unexpected placements. Chapters include: Old World, New World Luxe Americana Contemporary Comfort Mixing It Up Trained as a painter and visual artist, David Naylor turned to furniture and interior design and has opened his own workrooms and showroom to feature pieces that he incorporates into his design commissions. He has studied at Philadelphia College of Art and later the Pennsylvania Academy of Fine Arts. His designstudio, Visions Design Group, is located in Santa Fe, NM.

The Modern Interior Penny Sparke, 2008-09-15
Today's home is filled with pieces from Pottery Barn, IKEA, and Crate & Barrel, and we pore over glossy catalogs in hopes of achieving the "modern interior." This idealized aesthetic is the subject of Penny Sparke's study, as she explores the style in both its absolute form and the diverse decorating approaches seen in the contemporary

home. The shift from Victorian to modern style, The Modern Interior reveals, was not as simple and smooth as it is often perceived and the book probes the complicated history behind that transition. Sparke examines the work of such designers as Marcel Breuer, Frank Lloyd Wright, Charles and Ray Eames, and Mies van der Rohe, and draws upon design examples from the United States and Europe to reveal that, unlike the designed exteriors of buildings and institutions, the idea of the "interior" has been a largely abstract conception promoted through exhibitions, retail stores, and mass media. A comprehensive and in-depth investigation of the design environments we live and play in, The Modern Interior will be essential reading for all scholars and interested observers of architecture and modern design culture.

Designing the French Interior Anca I.

Lasc, Georgina Downey, Mark Taylor, 2015-10-22

Designing the French Interior traces France's central role in the development of the modern domestic interior, from the pre-revolutionary period to the 1970s, and addresses the importance of various media, including drawings, prints, pattern books, illustrated magazines, department store catalogs, photographs, guidebooks, and films, in representing and promoting French interior design to a wider audience. Contributors to this original volume identify and historicize the singularity of the modern French domestic interior as a generator of reproducible images, a site for display of both highly crafted and mass-produced objects, and the direct result of widely-circulated imagery in its own right. This important volume enables an invaluable new understanding of the relationship between architecture, interior spaces, material cultures, mass media and modernity.

American Modern Thomas Obrien, 2018-06-05 "One of

those designers whose interior and furniture designs look discovered, not created . . . both comfortable and exquisite, calm and eclectic.” –Apartment Therapy Designer and merchant, collector and tastemaker, Thomas O’Brien has made a career of translating cool notions of modernism into an easy and generous array of modern styles that anyone can attain. Now he introduces readers to a range of those styles—from casual to formal, vintage to urban—alongside stunning photography and charming design stories. O’Brien carefully describes the design process of his chosen projects, including a downtown New York City loft, a traditional Connecticut estate, and a converted schoolhouse in eastern Long Island. Each home explores a view on the modern design spectrum he has created, as well as the individual choices that make the design unique and its mix essentially American. He explains not only what was at work to create a given style, but how readers can import those practices to their own homes and personal design sensibilities. Important design principles such as architectural authenticity, color relationships, correctness of scale, and informed collecting are threaded through a practical narrative that reads like a master class in interior design. American Modern is an inspiring design volume that will redefine the way readers think about modern interiors. “O’Brien carefully describes the design process of his chosen projects. Beautiful imagery and a unique layout describe his approach to design in a new and innovative way.” –LIFEMSTYLE “It’s like getting a glimpse into the studio paintings of a great master . . . I especially love how all of his spaces feel so gender neutral, the perfect balance.” –Cottage Farm

Artfully Modern Richard Mishaan, Judith Nasatir, 2014-11-04 Interior designer Richard Mishaan believes that all furniture and decorative accessories with inherently good form can be combined successfully regardless of style, period, or price. He creates exuberant, bold, glamorous spaces known for their masterful use of art that are nevertheless comfortable above all. In his work, every room is treated to at least one small luxury: bespoke embroidery on a wall covering, a shimmery midcentury Murano-glass chandelier, or a screen covered in wallpaper patterned like malachite. Mishaan believes that the best interiors are layered and rich. He skillfully brings together furnishings and objects from myriad eras—Italian neoclassic, seventeenth-century French, African tribal, Art Deco, Biedermeier—in a contemporary fusion style that has become his signature. This volume covers Mishaan's best work since 2009 and includes a dozen spaces of every scale, from gemlike city apartments to Hamptons estates and the presidential suite at the St. Regis Hotel. Throughout, he weaves tips on how to live well in any size dwelling; full-color photography illustrates his ideas for truly personalizing

spaces and for injecting areas devoted completely to comfort in every room.

The New Interior, Modern Decorations for the Modern Home Hazel Hyman Adler, 1916

New England Modern Jaci Conry, 2020-07-21 Melding the region's time-honored architecture with a multi-faceted design sensibility. The past is everywhere in New England, especially in the architecture. Surrounded by all this history, is it challenging to create forward-thinking interior spaces? For a long time that was the case. But not anymore. Residents now want their interiors to exude an innovative, worldly flair. They want

their spaces to embody progress and technology, to exude a cosmopolitan spirit. Big sideboards and heavy chairs have been swapped out for elements that resonate with a cleaner décor. Formal rooms have been obviated with open floor plans. Punches of unexpected color, bold patterns, and layers of textural elements abound. While New Englanders previously clung to style selections that were safe and understated, interiors now feature dramatic elements, reflecting a curated mix of furnishings, modern assemblages of leather, glass, and steel, and other statement-making contrasting materials. New England Modern highlights interiors created by ten New England designers that are bold and vibrant, with a modern feel and flow just right for today's homeowners. Jaci Conry has been covering home design for more than fifteen years. She has written for countless publications including the Boston Globe, Better Homes & Gardens, Domino, Dwell, Design New England, and Boston Home. In late 2017, she became editor-in-chief of a new shelter magazine, Interiors Boston. She and her family live in Falmouth, on Cape Cod. Michael J. Lee is a Boston-based architectural photographer with a combined twenty-eight years of interior design and photography experience. He has shot more than fifty print magazine and book covers, and is a recipient of awards from The Room to Dream Foundation, The Boston Architectural College, and The American Society of Interior Designers.

"Biography, Identity and the Modern Interior "

Penny Sparke, 2017-07-05 Through a series of case studies from the mid-eighteenth century to the start of the twenty-first, this collection of essays considers the historical insights that ethno/auto/biographical investigations into the lives of individuals, groups and interiors can offer design and architectural historians. Established scholars and emerging researchers shed

light on the methodological issues that arise from the use of these sources to explore the history of the interior as a site in which everyday life is experienced and performed, and the ways in which contemporary architects and interior designers draw on personal and collective histories in their practice. Historians and theorists working within a range of disciplinary contexts and historiographical traditions are turning to biography as means of exploring and accounting for social, cultural and material change – and this volume reflects that turn, representing the fields of architectural and design history, social history, literary history, creative writing and design practice. Topics include masters and servants in eighteenth-century English kitchens; the lost interiors of Oscar Wilde's 'House Beautiful'; Elsa Schiaparelli's Surrealist spaces; Jean Genet, outlaws, and the interiors of marginality; and architect Lina Bo Bardi's 'Glass House', S?Paulo, Brazil.

Selling Good Design Marilyn F. Friedman, 2003
Designers now have at their fingertips an invaluable reference: an illustrated history of modern furnishings and interior design from period rooms of the early twentieth century. Ikea, eat your heart out: Macy's, Lord & Taylor and others designed exhibits in the 1920s with mock living rooms, bedrooms, and even kitchens to display and sell modern furnishings and decorative objects. Marilyn Friedman's text and accompanying period photographs describe in detail the exhibits held by Macys, Lord & Taylor, B. Altman, and Wanamaker's to popularize modern design. Macy's, in particular, worked closely with the Metropolitan Museum of Art to select designers and display works of modern design by Gio Ponti, William Lescaze, and Paul Frankel as part of the exhibits. More than 120 photographs illustrate period furnishings and decorative objects by European and American designers, providing a

visual feast for interior designers, art lovers, and collectors.
