Rose & Poe Jack Todd,2017-10-17 ÒPowerful . . . Todd's vivid language is perfectly suited to the epic sweep of his narrative.Ó Ñ Publishers Weekly, starred review of *Rain Falls Like Mercy* Set in mythical Belle Coeur County in a time not too far from our own, *Rose & Poe* gloriously re-imagines Shakespeare's *The Tempest* from the point of view of Caliban and his mother. Rose and her giant, simple son, Poe, live quietly on the fringes of their town Ñ tending their goats and working at odd jobs. Prosper Thorne, banished from his big-city law practice and worrying about his fading memory, obsessively watches over his beloved daughter Miranda. When Poe erupts from the forest one day carrying Miranda's bruised and bloody body, he is arrested, despite his protestations of get help-get help-get help. Overnight, Rose and Poe find themselves pariahs in the county where they have lived all their lives. In the face of bitter hatred and threats from her neighbours, the implacable Rose devotes all her strength to proving Poe's innocence and saving him from prison or worse. *Rose & Poe* is a tale of a mother's boundless love for an apparently unlovable child, and a stunning fable for our own troubled times. It will stick in your memory like sweet wild honey.

A Pastor's Devotion Francis Mason, 2022-07-06 These devotions were written by a Pastor to his congregation during the time of pandemic restrictions when sanctuary doors were closed to any desiring to worship or pray or just needing a spiritual boost. Aiming for encouragement, these short devotions are an uplifting and interesting source of inspiration. They certainly lived up to their intended purpose of creating a bridge between the pulpit and pew during a long and hurtful silence from the traditionally comfortable environment of the sanctuary. Their content is chock full of true-to-life illustrations. You'll find many of them written directly for your need. A variety of styles are used to convey Christian principles and truths in a

very upbeat format--sometimes humorous, sometimes serious; intellectual without being stodgy; often country colloquial in portraying real-life stories; always focusing on revealing more of the Christ of Calvary. Got about five minutes? Read one of these devotions. But look out! You might find yourself hooked into reading more than one or two...or more!

Lasers, Clocks and Drag-Free Control Hansjörg Dittus, Claus Lämmerzahl, Slava G. Turyshev, 2009-09-02 Written by international experts, this book explores the possibilities for the next 20 years in conducting gravitational experiments in space that would make the most of the new and much-improved existing capabilities. They start from the premise that over the next decade the gravitational physics community will benefit from dramatic improvements in many technologies critical to the tests of gravity. This volume contains a comprehensive presentation of the theory, technology, missions and projects on relativistic gravity in space.

From Clocks to Chaos Leon Glass, Michael C. Mackey, 1988-07-21 In an important new contribution to the literature of chaos, two distinguished researchers in the field of physiology probe central theoretical questions

about physiological rhythms. Topics discussed include: How are rhythms generated? How do they start and stop? What are the effects of perturbation of the rhythms? How are oscillations organized in space? Leon Glass and Michael Mackey address an audience of biological scientists, physicians, physical scientists, and mathematicians, but the work assumes no knowledge of advanced mathematics. Variation of rhythms outside normal limits, or appearance of new rhythms where none existed previously, are associated with disease. One of the most interesting features of the book is that it makes a start at explaining dynamical diseases that are not the result of infection by pathogens but that stem from abnormalities in the timing of essential functions. From Clocks to Chaos provides a firm foundation for understanding dynamic processes in physiology.

The Flagler Legacy David Forster Parker, 2017-04-21 Rick O'Grady returned to his hometown of Jacksonville, Florida with his new Harvard Law degree, eager to pass the Florida Bar and join his father's law firm. The O'Shea Family Trust Fund, originally established by the wealthy Henry M. Flagler in 1897, was funded annually by Flagler's company, Florida East Coast Railway (FECR), to the oldest living namesake of Patrick Michael O'Shea. In 1976, the Trust had been declared invalid by the Florida Supreme Court, upon the litigation of the chairman of FECR, Edward Ball, brother-in-law of the now-deceased millionaire, Alfred DuPont, and then reputed to be the most powerful man in Florida. Rick's goal, once he passed the Bar, was to find the means to have

this judgment reversed and restore the annual payment to his family Trust Fund. At the age of 26, this tall, handsome new graduate was not considered a threat by Mr. Ball. After Rick settled into his new apartment, he was awakened by an enormous explosion near his new home. The FECR Broward Yard had been blown up, raising fears that the multi-year battle between Ball and his employees over wages had been renewed, despite recent court decisions and jail terms to the contrary. Investigations soon proved that the O'Shea family was not involved, but rather an unidentified foreign national was threatening to purchase the FECR or destroy it if refused. In the interim, the eightieth birthday party of Rick's grandfather, Patrick Michael O'Shea, Junior, gave Rick an opportunity to meet the beautiful Chandra Jones, a popular television news reporter and prominent young African-American personality. She invited him to lunch the following week, where she revealed her research on the O'Shea family and sought his cooperation in pursuing their joint interests in legal research on the dispute with FECR. He agreed, and the two young people began a research quest starting with local newspaper files and continuing into other cities in pursuit of the mysterious rich foreigner behind a terrorist plot to blow up the centers of five large American cities.
