Museum of Modern Art (New York, N.Y.)

Modern Women: Women Artists at The Museum of Modern Art ,

Modern in the Making Austin Porter, Sandra Zalman, 2020-10-29 Today the Museum of Modern Art is widely recognized for establishing the canon of modern art; yet in its early years, the museum considered modern art part of a still unfolding experiment in contemporary visual production. By bracketing MoMA's early history from its later reputation, this book explores the ways the Museum acted as a laboratory to set an ambitious agenda for the exhibition of a multidisciplinary idea of modern art. Between its founding in 1929 and its 20th anniversary in 1949, MoMA created the first museum departments of architecture and design, film, and photography in the country, marshaled modern art as a political tool, and brought consumer culture into a versatile yet institutional context. Encompassing 14 essays that investigate the diversity of modern art, this volume demonstrates how MoMA's programming shaped a version of modern art that was not elitist but fundamentally intertwined with all levels of cultural production.

Among Others Darby English, Charlotte Barat, 2019-08-20 *Among Others: Blackness at MoMA* begins with an essay that provides a rigorous and in-depth analysis of MoMA's history regarding racial issues. It also calls for further developments, leaving space for other scholars to draw on particular moments of that history. It takes an integrated approach to the study of racial blackness and its representation: the book

stresses inclusion and, as such, the plate section, rather than isolating black artists, features works by non-black artists dealing with race and race-related subjects. As a collection book, the volume provides scholars and curators with information about the Museum's holdings, at times disclosing works that have been little documented or exhibited. The numerous and high-quality illustrations will appeal to anyone interested in art made by black artists, or in modern art in general.

MoMA Masterpieces Ann Temkin, 2015 Since its founding in 1929, The Museum of Modern Art in New York has brought the history of modern and contemporary art to vivid life through its extraordinary holdings. *MoMA Masterpieces* provides a fresh look at the Museum's exceptional collection as it stands today. Ann Temkin's introduction addresses the historical construction of the Museum's collection and explores the shifting issues that have guided its acquisitions, while the thoughtful selection of reproduced works highlights the range of artworks and ideas that constitute the evolving foundation of the Museum's collection. With 126 years spanning the distance between the works on the first and last pages of this book, *MoMA Masterpieces* offers an unparalleled opportunity to immerse oneself in the multitude of artistic approaches encompassed under the banner of modern art.

Eye on Europe Deborah Wye, Wendy Weitman, 2006 An intriguing and vibrant study of an innovative and lesser-known facet of contemporary art. Identifies significant strategies exploited by European

artists to extend their aesthetic vision within the mediums of prints, books and multiples. Exploring commercial techniques, confrontational approaches and language and the expressionist impulse. Showcases the creativity being channelled into printed art by today's generation.

MoMA Highlights Museum of Modern Art (New York, N.Y.), 2013-06-01 This new edition of MoMA Highlights is a fresh consideration of the Museum's superlative collection of modern and contemporary art. It presents a rich chronological overview of the most significant artworks from each of MoMA's curatorial departments—painting and sculpture, drawings, prints and illustrated books, photography, architecture and design, film, and media and performance art—with each work represented by a vibrant image and a short informative text. This redesigned volume features 115 new works since the previous edition, many of them recent acquisitions, ranging from typefaces to sculptures to conceptual performances that reflect the Museum's ongoing dedication to the art of our time. MoMA Highlights is an indispensable resource for exploring one of the premier art collections in the world.

Counter Space Juliet Kinchin, Aidan O'Connor, 2011 Catalog of an exhibition held at the Museum of Modern Art, New York, Sept. 15, 2010-May 2, 2011.

Nothing in MoMA. Abraham Adams, 2018 Nothing in MoMA is a series of photographs captured in areas of Manhattan museums in which there are no artworks, written words, or people. Addressing the grammar that organizes and secures our scene of looking, in the words of art historian David

Joselit's introduction, the book imagines a composite empty museum or a narrative of marginal attention. Originally displayed in partial prototype as a children's board book at Artists Space in 2015, *Nothing in MoMA* is here collected for the first time in the series' entirety. Evoking the history of indeterminacy as much as that of institutional critique, the deadpan composition of Adams's photographs likewise recalls François Jullien's theory of bland aesthetics, in a playful reductio of socio-institutional space to a bare literality. Both a visual essay on museum phenomenology and a performance document, *Nothing in MoMA* describes a choreography of avoidance, in which a conceptual constraint becomes a means of seeing and navigating concrete space.

Object:photo Mitra Abbaspour, Lee Ann Daffner, Maria Morris Hambourg, 2014 **OBJECT:PHOTO** shifts the dialogue about modernist photography from an emphasis on the subject and the image to the actual photographic object, created by a certain artist at a particular time and present today in its unique physicality. This shift is especially significant for a study of the period during which photography developed a distinctive formal language. A growing awareness of the rarity of images made between the two world wars has altered historians' considerations, encouraging new approaches privileging the originality of each work and the density of references each contains. This richly illustrated publication culminates a four-year collaborative research endeavor between The Museum of Modern Art's Departments of

Photography and Conservation, and nearly 30 visiting scholars, on the material and aesthetic evolution of avant-garde photography in the early twentieth century. The 341 modernist photographs known as The Thomas Walther Collection, a major museum acquisition made in 2001, is presented in its entirety, establishing a new standard of depth for the medium. Essays by curators, researchers, and conservators consider the history of collecting from this era to the present and how deepening knowledge has shifted the perspective on the medium; the material facts of the Walther pictures as a baseline for understanding the development of photographic materials in this era; and how the intellectual formation of the writers of critical photographic publications of the era and the societal and cultural pressures of that historical moment inflected the photography's sense of its own history. Together with thematic, object-based case studies of groups of pictures that demonstrate new approaches in specific, divergent examples, these contributions reanimate the dialogue on this formative era in photography.

MoMA Highlights, 2019-10-10 This newly revised deluxe edition of MoMA Highlights celebrates the 90th anniversary of the Museum MoMA Highlights presents a chronological overview of some of the most significant modern and contemporary artworks through superb high-resolution images and short texts by MoMA curators. MoMA Highlights interweaves works from each of the Museum's curatorial departments - painting and sculpture, drawings, prints and illustrated books, photography, architecture and design, film, and

media and performance art - to provide a look at one of the premiere art collections in the world. This anniversary book is almost 50% larger than the standard edition.

Art Making with MoMA Cari Frisch, Elizabeth Margulies, 2018-11-13 Inspired by the authors' experiences of looking at and making art with kids and families at the Museum of Modern Art, and designed to get both children and adults to start thinking like artists, this volume presents an array of projects that use easy-to-find materials and encourage hours of imaging, designing, experimenting, constructing, creating, tinkering, and play.

American Design Russell Flinchum, Museum of Modern Art (New York, N.Y.), 2008 The story of American design, told through works selected from the collection of the Museum of Modern Art, New York -- from back cover.

Spirit of the Place Péter György, 2008-10-01 These essays are case-studies, the cases unraveling our cultural roots, memory itself. If a museum is the subject, then for instance the way the museum changes face, function, its manner of speech; how, a repository of collections and the cultural memory of humankind itself turns into one of the objects, memories, a custodian and exponent of its own history, or the opposite: how it connects with its modernized environs and changing audience: us. How has, or might the sanctum be transformed into a public venue, go from an inward looking, reverential enclosure to a space full of life. In other studies included here the author speaks of spatial and incarnate remembrance: the

radical difference between a monument and a memorial. The duality of “always remembering” and “never forgetting”: a past depersonalized and dehistoricized as it was seized and processed. Of the layers of meaning attached to concentration camps, transmuting essence of artworks, and the difficult, the contradictory but inescapable processing of history and the past, of self-identical existence in history. So that we know we are alive. And how that is so.

MoMA Highlights Museum of Modern Art (New York, N.Y.),1999 What is The Museum of Modern Art? For some it is a cherished sanctuary, for others an idea concretized through the art it has collected and exhibited, and for others still an educational laboratory where challenging and difficult art is confronted, measured, and understood. Founded in 1929 in small temporary quarters at 730 Fifth Avenue and now housed in a building that occupies almost half a city block at 11 West 53rd Street, The Museum of Modern Art, New York is on the cusp of a massive renovation and expansion that will see it into the 21st century. The Museum is a repository of masterpieces of modern and contemporary art, 325 of the best of which are reproduced here, accompanied by short, incisive, and intelligent texts.--Amazon.ca

The New Museum of Modern Art Glenn D. Lowry, Terence Riley, 2005 For the past few years, The Museum of Modern Art has been in the midst of the largest building project in its history. Designed by Yoshio Taniguchi, the new museum will open in midtown Manhattan in November 2004 - 2005 to coincide with MoMA's 75th anniversary. The 630,000-square-foot complex is nearly twice the size of the former facility, with dramatically expanded and redesigned spaces for exhibitions, public programming, educational outreach, and scholarly research. In his initial proposal, Taniguchi explained that his goal was to create an ideal environment for art and people through the imaginative and disciplined use of light, materials, and space. His stated vision of a museum that preserves and reinforces MoMA's unique character as the repository of an incomparable collection of modern and contemporary art, as a pioneer of museums of modern art with a unique historical inheritance, and as an urban institution in a midtown Manhattan location has been resoundingly implemented. The New Museum of

Modern Art offers an affordable, concise overview of the new building and its master architect by Glenn D. Lowry, Director of The Museum of Modern Art.
