**John McCardell**

**The Rough Guide to Comedy Movies** Bob McCabe, 2005 This guide discusses laughter in the cinema, from Airplane! to Withnail and I and from John Belushi to Billy Wilder.

**Resilience Engineering** David D. Woods, 2017-11-01 For Resilience Engineering, 'failure' is the result of the adaptations necessary to cope with the complexity of the real world, rather than a breakdown or malfunction. The performance of individuals and organizations must continually adjust to current conditions and, because resources and time are finite, such adjustments are always approximate. This definitive new book explores this groundbreaking new development in safety and risk management, where 'success' is based on the ability of organizations, groups and individuals to anticipate the changing shape of risk before failures and harm occur. Featuring contributions from many of the world's leading figures in the fields of human factors and safety, Resilience Engineering provides thought-provoking insights into system safety as an aggregate of its various components, subsystems, software, organizations, human behaviours, and the way in which they interact. The book provides an introduction to Resilience Engineering of systems, covering both the theoretical and practical aspects. It is written for those responsible for system safety on managerial or operational levels alike, including safety managers and engineers (line and maintenance), security experts, risk and safety consultants, human factors professionals and accident investigators.

**The North Korea Crisis and Regional Responses** Utpal Vyas, Ching-Chang Chen, Denny Roy, 2015-02-26 Postwar East Asia has seen astonishing economic dynamism in Japan, South Korea, China, and Taiwan as well as a transformation of authoritarian regimes into vibrant democracies in South Korea and Taiwan. Neither of these trends has taken hold in the Democratic People's Republic of Korea (DPRK), which remains the worst kind of historical anachronism: a hereditary monarchy with

the modern trappings of totalitarianism and a centrally mismanaged economy. Insecure both internally and externally, and ruthless in its pursuit of regime survival, the DPRK government has spawned two crises. The first is a domestic humanitarian disaster, caused by the government's massive failure to protect the human rights of its people. The second is a regional strategic crisis caused by North Korea's development of nuclear weapons along with the ballistic missiles that might deliver them. Governments in the region recognize that the DPRK's prison labor camps are a moral outrage. They are also united in their opposition to North Korea's nuclear weapons program, although they perceive differing levels and types of threats from these weapons. There is a basis for coordinated action against a North Korean state that is extraordinarily weak in economic and diplomatic terms. Such action, however, has not succeeded in solving either the humanitarian or the nuclear weapons crisis. Nor is any breakthrough expected in the foreseeable future. The explanation is found in the differing agenda of the frontline states, which includes resident Asian power the United States. This book delineates the twin crises and analyzes the relevant interests and positions of other major states in the region, assembling a broad picture of the overall lack of policy convergence beyond agreement on a few general principles. This volume is unusual in its collection of a variety of national viewpoints on a single major international issue. It provides valuable insight into the ongoing problem of managing a recalcitrant North Korea within an otherwise modern and globalizing region.

**Teaching and Language Corpora** Anne Wichmann, Steven Fligelstone, 2014-06-11 Corpora are well-established as a resource for language research; they are now also increasingly being used for teaching purposes. This book is the first of its kind to deal explicitly and in a wide-ranging way with the use of corpora in teaching. It contains an extensive collection of articles by corpus linguists and practising teachers, covering not only the use of data to inform and create teaching materials but also

the direct exploitation of corpora by students, both in the study of linguistics in general and in the acquisition of proficiency in individual languages, including English, Welsh, German, French and Italian. In addition, the book offers practical information on the sources of corpora and concordances, including those suitable for work on non-roman scripts such as Greek and Cyrillic.

Genders, Transgenders and Sexualities in Japan Mark McLelland, Romit Dasgupta, 2005-12-20  
Incorporating Japanese language materials and field-based research, this compelling collection of essays takes a comparative look at the changing notions of gender and sexual diversity in Japan, considering both heterosexual and non-heterosexual histories, lifestyles and identities. Written by key Japanese authors and Western scholars the volume examines how non-conformist individuals have questioned received notions and challenged social norms relating to sex and gender. The chapters depict the plurality of gender positions; from housewives opposed to gender roles within marriage to heterosexual men wishing to be more involved in family life. Including material not previously published in English, this volume gives an overview of the important changes taking place in gender and sexuality studies within Japanese scholarship.

**A Chinese-English Dictionary** Herbert Allen Giles, 1892

**Male Homosexuality in Modern Japan** Mark J. McLelland, 2005-07-08 This book is the first to look at the wide range of contrasting images of the gay male body in Japanese popular culture, both mainstream and gay, and relate these images to the experience of an interview sample of Japanese gay men. In so doing, it touches on a number of important issues, including whether there can be a universal 'gay identity' and whether or not strategies developed for increasing gay and lesbian

visibility in western countries are appropriate to the social situation in Japan

**The Routledge Companion to Gender and Japanese Culture** Jennifer Coates, Lucy Fraser, Mark Pendleton, 2019-12-06 This Companion is a comprehensive examination of the varied ways in which gender issues manifest throughout culture in Japan, using a range of international perspectives to examine private and public constructions of identity, as well as gender- and sexuality-inflected cultural production. The Routledge Companion to Gender and Japanese Culture features both new work and updated accounts of classic scholarship, providing a go-to reference work for contemporary scholarship on gender in Japanese culture. The volume is interdisciplinary in scope, with chapters drawing from a range of perspectives, fields, and disciplines, including anthropology, art history, history, law, linguistics, literature, media and cultural studies, politics, and sociology. This reflects the fundamentally interdisciplinary nature of the dual focal points of this volume—gender and culture—and the ways in which these themes infuse a range of disciplines and subfields. In this volume, Jennifer Coates, Lucy Fraser, and Mark Pendleton have brought together an essential guide to experiences of gender in Japanese culture today—perfect for students, scholars, and anyone else interested in Japan, culture, gender studies, and beyond.

**Narratives Unfolding** Martha Langford, 2017-07-18 Somewhere between global and local, the nation still lingers as a concept. National art histories continue to be written – some for the first time – while innovative methods and practices redraw the boundaries of these imagined communities. *Narratives Unfolding* considers the mobility of ideas, transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were

designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. *Narratives Unfolding* is both a survey of current art historical approaches and their connection to the source: art-making and art experience happening somewhere.

*The Lexical Syllabus* Dave Willis, 1990 Describes a new approach to language learning and teaching. Derived from the COBUILD project, the syllabus has been shaped by extensive evidence of what is important in modern English. It documents the useful words and patterns of the language, providing insight into language use.

**Warhol-isms** Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." *Warhol-isms* separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere

gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

**The 2000 Year Old Man in the Year 2000** Mel Brooks, Carl Reiner, 1998-10-07 In a millennial update of the comedy classic, the legendary team of Mel Brooks and Carl Reiner revive the 2000-Year-Old Man, who is raring to give his take on the issues of our time.

Chinese Views Scott Snyder, 2007

**The Idea of a Southern Nation** John McCardell, 1981 As the nineteenth century began, the United States was a country in search of definition, of national character. Like other Americans, Southerners found the process of national self-definition urgent and exhilarating.

**Happiness 6** Shuzo Oshimi, 2017-12-19 A supernatural story of sexual awakening, growing up, and suburban vampirism, Happiness follows a dorky boy who is attacked by a girl in an alley. She sucks his blood and gives him a choice: life or death. He chooses life, but finds himself nearly overwhelmed by a new thirst and a fascination with the necks of his classmates... Praise for Flowers of Evil: A shockingly readable story that vividly--one might even say queasily--evokes the fear and confusion of discovering one's own sexuality. Recommended. -The Manga Critic A page-turning tale of sordid middle school blackmail. -Otaku USA Magazine By loving this manga I recognize what a sick and twisted individual I have become. While I can still say that I am not truly deviant, Flowers of Evil is

a great reminder of my own thirst for power and my own personal corruption. -Otaku Champloo

**Uniforms Exposed** Jennifer Craik, 2005-06 Uniforms are perhaps the most widely worn garments in the world. Craik looks at the meaning of uniforms as well as how they have influenced fashion, and shows the centrality of uniforms to cultural politics. She draws on historical and contemporary examples of uniforms across different cultures.
