Your Money, Your Goals Consumer Financial Protection Bureau, 2015-03-18
Welcome to the Consumer Financial Protection Bureau's Your Money, Your Goals: A financial empowerment toolkit for social services programs! If you're reading this, you are probably a case manager, or you work with case managers. Finances affect nearly every aspect of life in the United States. But many people feel overwhelmed by their financial situations, and they don't know where to go for help. As a case manager, you're in a unique position to provide that help. Clients already know you and trust you, and in many cases, they're already sharing financial and other personal information with you. The financial stresses your clients face may interfere with their progress toward other goals, and providing financial empowerment information and tools is a natural extension of what you are already doing. What is financial empowerment and how is it different from financial education or financial literacy? Financial education is a strategy that provides people with financial knowledge, skills, and resources so they can get, manage, and use their money to achieve their goals. Financial education is about building an individual's knowledge, skills, and capacity to use resources and tools,

including financial products and services. Financial education leads to financial literacy. Financial empowerment includes financial education and financial literacy, but it is focused both on building the ability of individuals to manage money and use financial services and on providing access to products that work for them. Financially empowered individuals are informed and skilled; they know where to get help with their financial challenges. This sense of empowerment can build confidence that they can effectively use their financial knowledge, skills, and resources to reach their goals. We designed this toolkit to help you help your clients become financially empowered consumers. This financial empowerment toolkit is different from a financial education curriculum. With a curriculum, you are generally expected to work through most or all of the material in the order presented to achieve a specific set of objectives. This toolkit is a collection of important financial empowerment information and tools you can access as needed based on the client's goals. In other words, the aim is not to cover all of the information and tools in the toolkit - it is to identify and use the information and tools that are best suited to help your clients reach their goals.

and no matter how rocky the market might be—by the inspiring and savvy “Budgetnista.” “No matter where you stand in your money journey, Get Good with Money has a lesson or two for you!”—Erin Lowry, bestselling author of the Broke Millennial series Tiffany Aliche was a successful pre-school teacher with a healthy nest egg when a recession and advice from a shady advisor put her out of a job and into a huge financial hole. As she began to chart the path to her own financial rescue, the outline of her ten-step formula for attaining both financial security and peace of mind began to take shape. These principles have now helped more than one million women worldwide save and pay off millions in debt, and begin planning for a richer life. Revealing this practical ten-step process for the first time in its entirety, Get Good with Money introduces the powerful concept of building wealth through financial wholeness: a realistic, achievable, and energizing alternative to get-rich-quick and over-complicated money management systems. With helpful checklists, worksheets, a tool kit of resources, and advanced advice from experts who Tiffany herself relies on (her “Budgetnista Boosters”), Get Good with Money gets crystal clear on the short-term actions that lead to long-term goals, including:

- A simple technique to determine your baseline or “noodle budget,” examine and systemize your expenses, and lay out a plan that allows you to say yes to your dreams.
- An assessment tool that helps you understand whether you have a “don't make enough” problem or a “spend too much” issue—as well as ways to fix both.
- Best practices for saving for

a rainy day (aka job loss), a big-ticket item (a house, a trip, a car), and money that can be invested for your future. • Detailed advice and action steps for taking charge of your credit score, maximizing bill-paying automation, savings and investing, and calculating your life, disability, and property insurance needs. • Ways to protect your beneficiaries' future, and ensure that your financial wishes will stand the test of time. An invaluable guide to cultivating good financial habits and making your money work for you, *Get Good with Money* will help you build a solid foundation for your life (and legacy) that's rich in every way.
