Web of Debt Ellen Hodgson Brown, 2007 This book exposes important, often obscured truths about our money system and our economic past and future. Our money is not what we have been led to believe. The creation of money has been privatized, or taken over by a private money cartel. It is all done by sleight of hand, concealed by economic double-speak. Web of Debt unravels the deception and presents a crystal clear picture of the financial abyss towards which we are heading, pointing out all the signposts. Then it explores a workable alternative, one that was tested in colonial America and is grounded

in the best of American economic thought, including the writings of Benjamin Franklin, Thomas Jefferson and Abraham Lincoln. If you care about financial security, your own or the nation's, you should read this book. Ellen Brown has applied her training as a litigating attorney, researcher and writer to the monetary field, unearthing facts that even the majority of banking and financial experts ignore: ranging from the privatization of money creation, to the Plunge Protection Team, to the Federal Reserve's 'Helicopter Money. Read it; you'll get information you need in order to understand what is going on in our financial markets today. Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as

for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.
