American Campaigns Matthew Forney Steele,1909

The Maryland Campaign of September 1862, Volume I Ezra Carman,2010-05-20 The definitive soldier's-eye view of the Battle of Antietam—the bloodiest day in American history. A veteran of the Battle of Antietam, Ezra A. Carman served as a colonel of the 13th New Jersey Infantry. After the horrific fighting of September 17, 1862, he recorded in his diary that he was preparing “a good map of the Antietam battle and a full account of the action.” Unbeknownst to the young officer, the project would become the most significant work of his life. Appointed as the “Historical Expert” to the Antietam Battlefield Board in 1894, Carman solicited accounts from hundreds of veterans, scoured through thousands of letters and maps, and assimilated the material into the hundreds of cast iron tablets that still mark the field today. Carman also wrote an 1,800-page manuscript on the campaign. Although it remained unpublished for more than a century, many historians and students of the war consider it to be the best overall treatment of the campaign ever written. Dr. Thomas G. Clemens, recognized internationally as one of the foremost historians of the Maryland Campaign, has spent more than two decades studying Antietam and editing and richly

annotating Carman's exhaustively written manuscript. The result is *The Maryland Campaign of September 1862*, Carman's magisterial account published for the first time in two volumes. Jammed with firsthand accounts, personal anecdotes, maps, photos, a biographical dictionary, and a database of veterans' accounts of the fighting, this long-awaited study will be read and appreciated as battle history at its finest.

The War of the Rebellion: v. 1-53 [serial no. 1-111] Formal reports, both Union and Confederate, of the first seizures of United States property in the southern states, and of all military operations in the field, with the correspondence, order and returns relating specially thereto. 1880-1898. 111 v United States. All Roads Led to Gettysburg Troy D. Harman, 2022-08-15 It has long been a trope of Civil War history that Gettysburg was an accidental battlefield. General Lee, the old story goes, marched blindly into Pennsylvania while his chief cavalryman Jeb Stuart rode and raided incommunicado. Meanwhile, General Meade, in command only a few days, gave uncertain chase to an enemy whose exact positions he did not know. And so these ignorant armies clashed by first light at Gettysburg on July 1, 1863. In the spirit of his iconoclastic *Lee's Real Plan at Gettysburg*, Troy D. Harman argues

for a new interpretation: once Lee invaded Pennsylvania and the Union army pursued, a battle at Gettysburg was entirely predictable, perhaps inevitable. Most Civil War battles took place along major roads, railroads, and waterways; the armies needed to move men and equipment, and they needed water for men, horses, and artillery. And yet this perspective hasn't been fully explored when it comes to Gettysburg. Look at an 1863 map, says Harman: look at the area framed in the north by the Susquehanna River and in the south by the Potomac, in the east by the Northern Central Railroad and in the west by the Cumberland Valley Railroad. This is where the armies played a high-stakes game of chess in late June 1863. Their movements were guided by strategies of caution and constrained by roads, railroads, mountains and mountain passes, rivers and creeks, all of which led the armies to Gettysburg. It's true that Lee was disadvantaged by Stuart's roaming and Meade by his newness to command, which led both to default to the old strategic and logistical bedrocks they learned at West Point—and these instincts helped reinforce the magnetic pull toward Gettysburg. Moreover, once the battle started, Harman argues, the blue and gray fought tactically for the two creeks—Marsh and Rock, essential for watering men and horses and sponging artillery—that mark the battlefield in the east and the west as well as for the roadways that led to Gettysburg from all points of the compass. This is a perspective often overlooked in many accounts of the battle, which focus on the high ground—the Round Tops, Cemetery Hill—as key tactical objectives. Gettysburg Ranger and historian Troy Harman draws on a lifetime of researching the Civil War and more than thirty years of studying the terrain of Gettysburg and south-central Pennsylvania and northern Maryland to reframe the story of the Battle of Gettysburg. In the process he shows there's still much to say about one of history's most written-about battles. This is revisionism of the best kind.
