Monster Hunters Tea Krulos, 2015-06-01 Do ghosts exist?

What about the Bigfoot, or Skinwalkers? And how will we ever know? Journalist Tea Krulos spent over a year travelling nationwide to meet individuals who have made it their life's passion to hunt down evidence of entities that they believe exist, but that others might shrug off as nothing more than myths, fairytales, or overactive imaginations. Without taking sides in the debate, Krulos joins these believers in the field, exploring haunted houses, trekking through creepy forests, and scanning skies and lakes as they collect data on the unknown—poltergeists, chupacabras, Skunk Apes (Bigfoot's stinky cousins), and West Virginia's Mothman. He even attends an attempted exorcism. Along the way, he meets a diverse cast of characters—true believers, skeptics, and hoaxers, from the credible to the quirky. It is hard not to be swept up in the investigators' never-wavering enthusiasm, and Krulos has a couple of hair-raising encounters along the way, ones that make him second-guess his own beliefs. Yet in the end, he leaves it to the reader to decide: are these people onto something, or are they tilting at supernatural windmills? Tea Krulos is a freelance journalist and author of *Heroes in the Night* and the blog of the same name.

He lives in Milwaukee, Wisconsin.

A Hypocritical Reader Rosie Snajdr, 2018-02-28 Splicing the Choose Your Own Adventure format, sci-fi, metafiction, absurdism

and social critique, Rosie Snajdr A Hypocritical Reader is experimental fiction at its most animated and innovative. This is the future literature we need but haven't seen. You read it here first. - Isabel Waidner A warping, wending, distending, distressing, flaming lightening strike of a book--Snajdr summons forces to be reckoned with. -Eley Williams A Hypocritical Reader is your emancipation, reader. Want to lose yourself in your favourite genre? This book is for you. Want to question the influence of modernist experimentalism on the short story form? This book is also for you. Want to explore that unspeakable Barthesian dictum? Okay? You want to psychoanalyse the (female) writer? Hmmm. Follow the book's emotional arc, or pick your own path by choosing which pages to turn to. Hell, you can even clip out the individual words and collage your way into exciting new worlds. Just don't tell the author. This book is Calvino, with an attitude.
