Permission to Feel Marc Brackett, Ph.D.,2019-09-03 The mental well-being of children and adults is shockingly poor. Marc Brackett, author of *Permission to Feel*, knows why. And he knows what we can do. We have a crisis on our hands, and its victims are our children. Marc Brackett is a professor in Yale University's Child Study Center and founding director of the Yale Center for Emotional Intelligence. In his 25 years as an emotion scientist, he has developed a remarkably effective plan to improve the lives of children and adults – a blueprint for understanding our emotions and using them wisely so that they help, rather than hinder, our success and well-being. The core of his approach is a legacy from his childhood, from an astute uncle who gave him permission to feel. He was the first adult who managed to see Marc, listen to him, and recognize the suffering, bullying, and abuse he'd endured. And that was the beginning of Marc's awareness that what he was going through was temporary. He wasn't alone, he wasn't stuck on a timeline, and he wasn't "wrong" to feel scared, isolated, and angry. Now, best of all, he could do something about it. In the decades since, Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional well-being. His prescription for healthy children (and their parents, teachers, and schools) is a system called RULER, a high-impact and fast-effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it. RULER has been proven to reduce stress and burnout, improve school climate, and enhance academic achievement. This book is the culmination of Marc's development of RULER and his way to share the strategies and skills with readers around the world. It is tested, and it works. This book combines rigor, science, passion and inspiration in equal parts. Too many children and adults are suffering; they are ashamed of their feelings and emotionally unskilled, but they don't have to be. Marc Brackett's life mission is to reverse this course, and this book can show you how.

Implementing Social and Emotional Learning (SEL) in Classrooms and Schools Marc A. Brackett,Robin S. Stern,Dena N. Simmons,Nicole A. Elbertson,2019-02-15 Social and Emotional Learning (SEL) is the process through which children and adults acquire and effectively apply the knowledge, attitudes, and skills necessary to understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions. Research shows that social and emotional skills are prerequisite to the thinking and learning skills that comprise the time-honored academic focus of education. A study published in 2015 found significant correlations between SEL skills of children in kindergarten and important outcomes when these kindergartners became young adults, including differences in mental health, substance abuse, criminal activity, education, and employment. This 6-page, quick-reference laminated guide by Marc Brackett and colleagues at the Yale Center for Emotional Intelligence, provides educators with an introduction to SEL, guidelines for effective implementation of SEL in your classroom and school, an introduction to the RULER approach to SEL, strategies to promote your own social and emotional wellbeing, and a classroom SEL evaluation tool.

Today I Feel Silly & Other Moods That Make My Day Jamie Lee Curtis,1998-09-10 Today I feel silly. Mom says it's the heat. I put rouge on the cat and gloves on my feet. I ate noodles for breakfast and pancakes at night. I dressed like a star and was quite a sight. Today I am sad, my mood's heavy and gray. There's a frown on my face and it's been there all day. My best friend and I had a really big fight. She said that I tattled and I know that she's right. Silly, cranky, excited, or sad--everyone has moods that can change each day. Jamie Lee Curtis's zany and touching verse, paired with Laura Cornell's whimsical and original illustrations, helps kids explore, identify, and, even have fun with their ever-changing moods. Here's another inspired picture book from the bestselling author-illustrator team of Tell Me Again About the Night I Was Born and When I Was Little: A Four-Year-Old's Memoir of Her Youth.

Mood Matters John L. Casti,2010-06-25 Mood Matters makes the radical assertion that all social events ranging from fashions in music and art to the rise and fall of civilizations are biased by the attitudes a society holds toward the future. When the social mood is positive and people look forward to the future, events of an entirely different character tend to occur than when society is pessimistic. The book presents many examples from every walk of life in support of this argument. In addition, methods are given to actually measure the social mood and to project it into the future in order to forecast what's likely or not over varying periods of time. Casti's writing is a pleasure to read and its contents an eye-opener. They [the chapters] tell an engrossing story, and the mystery heightens as it goes. . . . it's chatty and knowing. Greg Benford, Physicist and science-fiction writer, author of Timescape and Deep Time I am struck by how thought-provoking it all is. I am sure that your book will draw a lot of attention Tor Norretranders, Science writer, author of The Generous Man and The User Illusion.
