The Moon Chaser Alexa Kang, 2019-07-25 In one night, Yuan Wen-Ying can take down the Japanese commander who slaughtered masses in Nanking. Can she set the plan in motion if she has to destroy the unrequited love of the only one remaining by her side? Shanghai, 1944. After seven years of Japanese occupation, the once glamorous metropolis now lies in ruin. Sirens of air raids haunt the sky. Illnesses, starvation, and death plague every corner. With only faint hope, Yuan Wen-Ying pledges her allegiance to the Heaven and Earth Society, Shanghai's most notorious underground resistance group. Once the daughter of a wealthy and prominent family, she now moves from one dingy hideout to the next, aiding the group in their lethal plots. Japan, she swore, would be her enemy in this life and beyond. A chance has come for her to strike back against a Japanese commander who led the massacre in Nanking. The stake surges when the plan gives her a way to reclaim her ancestral home and avenge against the traitors who destroyed her family. By her side, Masao Takeda, her group's covert agent, promises to help her succeed. Could she step up and seize the day? And will she heed the call of her heart, even if the blood of the enemy runs in the man she loves? ---The Moon Chaser was first published as part of the USA Today Bestselling anthology *The Darkest Hour: Tales of WWII Resistance*. It is a spin-off novella from the WWII trilogy *Shanghai Story*, and can be read as a standalone.

Moon Chaser's Quest Rose Robinson, 2014-05-10 Maxima Brockett is put up for adoption without her mother's knowledge and consent. As she grows older, she has recurring dreams about her past, and always on a full moon. When she turns fifteen she is beset by an overwhelming fear that her soul is dying, and thus begins her spiral descent into hell. To set herself free, she must delve into her past. Four generations of women are bound by an extraordinary chain - the beautiful and enchanting Luna, her daughter Iris, her granddaughter Abigail, and Abigail's lost daughter Max. They are four women who share the same face - the Witch's Face - who live in different eras, yet Luna reaches out across time and death to touch her daughters' lives. Their fates are defined by brushes with dreams and forsaken hope. This is a story of lost loves and betrayal, of tragedy and the extraordinary ties that bind four women, a bond that transcends even death.

Eclipse Chaser Ilima Loomis, 2019 The August 2017 solar eclipse is the chance of a lifetime for astronomer Shadia Habbal--years of planning come down to one moment of totality. Will everything go off as planned? On August 21, 2017, much of America stood still and looked up as a wide swath of the country experienced totality--a full solar eclipse. Even in areas outside the path of totality, people watched in awe as the moon cast its shadow on the sun. For most, this was simply a once-in-a-lifetime experience. Not so for Shadia Habbal, who travels the world in search of solar eclipses in order to study the sun's corona. Solar wind and storms originating in the corona can have big effects on our planet. They can disrupt technology, expose aircraft to radiation, and even influence global climate change. In the months leading up to the 2017 eclipse, Shadia assembles a team of scientists to set up camp with her in Mitchell, Oregon. Years earlier, a long, expensive trip to Indonesia to study an eclipse failed when the skies remained too cloudy to see it. Shadia is determined to have the 2017 eclipse be a success. Will the computers fail? Will smoke from nearby fires change direction? Will the cloudy skies clear in time? Readers will be on the edge of their seats as they count down the months, days, hours, and finally minutes until totality.

A Soul So Wicked Sharie Kohler, 2012-12-26 Sharie Kohler continues her popular Moon Chaser series with a fantastical tale about a lycan and a demon witch who join forces to search for love and redemption. In the dark world of the Moon Chasers, love and evil are separated by only a heartbeat as an undying lycan searches for the demon witch who cursed him. For generations, the immortal Darius, doomed to roam the Earth as a lycan, has hunted the one responsible for his terrible fate. He is determined to exact revenge for the untold suffering Tresa has unleashed upon the world, but when the two finally come face-to-face, Darius discovers that she is not the purely evil creature he expected, but rather a tantalizing woman. Determined to avoid causing further harm, Tresa has spent numberless centuries fleeing the demon who enslaved her. Tormented by the devastating mistakes of her past, she feels she has condemned herself to suffering. Certainly she does not deserve to find

passion. . . . Yet it may be that only by becoming lovers will Darius and Tresa find a power that burns brighter than the dark forces arrayed against them, a love pure enough to at last bring them both the redemption that they crave.

In the Shadow of the Moon Anthony Aveni, 2017-04-25 From an award-winning author, astronomer, and anthropologist, an exploration of the scientific and cultural significance of the mesmerizing cosmic display. Since the first humans looked up and saw the sun swallowed by darkness, our species has been captivated by solar eclipses. Astronomer and anthropologist Anthony Aveni explains the history and culture surrounding solar eclipses, from prehistoric Stonehenge to Babylonian creation myths, to a confirmation of Einstein’s theory of general relativity, to a spectacle that left New York City in the moon’s shadow, to future eclipses that will capture human imaginations. In one accessible and engaging read, Aveni explains the science behind the phenomenon, tracks eclipses across the ancient world, and examines the roles of solar eclipses in modern times to reveal the profound effects these cosmic events have had on human history. Colored by his own experiences—Aveni has witnessed eight total solar eclipses in his lifetime—his account of astronomy’s most storied phenomenon will enthrall anyone who has looked up at the sky with wonder. “Aveni’s authoritative but accessible text is the clearest statement of the way our perception of eclipses has changed over the centuries.” —Stuart Clark, *New Scientist* “Authoritative and engaging.” —Marcelo Gleiser, NPR’s 13.7 “A recommended way to share the spirit of the occasion.” —Laurence A. Marschall, *Natural History* magazine “Everything you need to enjoy a solar eclipse—and even predict one, just like the Babylonians did! Aveni’s entertaining explorations show the very different impacts eclipses have had on past and present cultures.” —David DeVorkin, National Air and Space Museum, Smithsonian Institution

His mind screamed for a warmth not to be found, knowing his only chance for survival was to keep moving forward, he slowly trudged on into the icy teeth of hells frozen maw. Blowing great plumes of laboring breath that left his face covered with a stinging icy sheen, he plunged forward on legs of stone, his vision started to blur by the sheer force of his efforts. This was a battle no man could win. His mind started to reel with an agonizing pain as death started to close in its icy grip. Trying to will himself past the threshold of mortal man he managed just a few more faltering steps before his frozen body fell to the ground slipping into the sweet black oblivion. Feeling a sudden sharp pain he moaned helplessly feeling himself being slowly lifted into the heavens, before the final crushing embrace a voice pierced the darkness uttering but one single word Forgiveness. His last vision that of the world slowly gliding by.
