The Pull of the Moon Elizabeth Berg, 2010-03-23 "This is not a novel about a woman leaving home but rather about a human being finding her way back."—Chicago Tribune In the middle of her life, Nan decides to leave her husband at home and begin an impromptu trek across the country, carrying with her a turquoise leather journal she intends to fill. The Pull of the Moon is a novel about a woman coming to terms with issues of importance to all women. In her journal, Nan addresses the thorniness—and the allure—of marriage, the sweet ties to children, and the gifts and lessons that come from random encounters with strangers, including a handsome man appearing out of the woods and a lonely housewife sitting on her front porch steps. Most of all, Nan writes about the need for the self to stay alive. In this luminous and exquisitely written novel, Elizabeth Berg shows how sometimes you have to leave your life behind in order to find it. the pull of the moon BONUS: This edition contains an excerpt from Elizabeth Berg's Once Upon a Time, There Was You. Praise for The Pull of the Moon "Breathtaking . . . [Berg] writes with wry wit and aching lyricism, painting her characters as vividly as anyone writing today."—The Charlotte Observer "When was the last time you thought about running away? . . . In The Pull of the Moon, Berg shares her strength, the wonderful widening of her soul so that we, too, can take the journey in the ease of our chair."—Greensboro News & Record "Berg's gift as a storyteller lies most powerfully in her ability to find the extraordinary in the ordinary, the remarkable in the everyday."—The Boston Globe "Reading The Pull of the Moon is like sitting down for a long, satisfying chat with a best girlfriend. . . . [It] pleasantly encourages readers to recover a little life-embracing enthusiasm themselves."—Orlando Sentinel

Gardens of the Moon Steven Erikson, 2004-06-01 Vast legions of gods, mages, humans, dragons and all manner of creatures play out the fate of the Malazan Empire in this first book in a major epic fantasy series from Steven Erikson. The Malazan Empire simmers with discontent, bled dry by interminable warfare, bitter infighting and bloody confrontations with the formidable Anomander Rake and his Tiste Andii, ancient and implacable sorcerers. Even the imperial legions, long inured to the bloodshed, yearn for some respite. Yet Empress Laseen's rule remains absolute, enforced by her dread Claw assassins. For Sergeant Whiskeyjack and his squad of Bridgeburners, and for Tattersail, surviving cadre mage of the Second Legion, the aftermath of the siege of Pale should have been a time to mourn the many dead. But Darujhistan, last of the Free Cities of Genabackis, yet holds out. It is to this ancient citadel that Laseen turns her predatory gaze. However, it would appear that the Empire is not alone in this great game. Sinister, shadowbound forces are gathering as

the gods themselves prepare to play their hand... Conceived and written on a panoramic scale, Gardens of the Moon is epic fantasy of the highest order--an enthralling adventure by an outstanding new voice. This stunning fantasy inspired by Chinese folklore is a companion novel to Starry River of the Sky and the New York Times bestselling and National Book Award finalist When the Sea Turned to Silver In the valley of Fruitless mountain, a young girl named Minli lives in a ramshackle hut with her parents. In the evenings, her father regales her with old folktales of the Jade Dragon and the Old Man on the Moon, who knows the answers to all of life's questions. Inspired by these stories, Minli sets off on an extraordinary journey to find the Old Man on the Moon to ask him how she can change her family's fortune. She encounters an assorted cast of characters and magical creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved Year of the Dog and Year of the Rat returns with a wondrous story of adventure, faith, and friendship. A fantasy crossed with Chinese folklore, Where the Mountain Meets the Moon is a timeless story reminiscent of The Wizard of Oz and Kelly Barnhill's The Girl Who Drank the Moon. Killers of the Flower Moon: Adapted for Young Readers David Grann, 2021-11-16 The New York Times bestseller and National Book Award finalist Killers of the Flower Moon is now adapted for young readers. This book is an essential resource for young readers to learn about the Reign of Terror against the Osage people--one of history's most ruthless and shocking crimes. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma, thanks to the oil that was discovered beneath their land. Then, one by one, the Osage began to die under mysterious circumstances, and anyone who tried to investigate met the same end. As the death toll surpassed more than twenty-four Osage, the newly created Bureau of Investigation, which became the FBI, took up the case, one of the organization's first major homicide investigations. An undercover team, including one of the only Native American agents in the bureau, infiltrated the region, struggling to adopt the latest modern techniques of detection. Working with the Osage, they began to expose one of the most chilling conspiracies in American history. In this adaptation of the adult bestseller, David Grann revisits his gripping investigation into the shocking crimes against the Osage people. The book is a searing indictment of the callousness and prejudice toward Native Americans that allowed the murderers to occur for so long.

Seveneves Neal Stephenson, 2015-05-19 From the #1 New York Times bestselling author of *Anathem*, *Reamde*, and *Cryptonomicon* comes an exciting and thought-provoking science fiction epic—a grand story of annihilation and survival spanning five thousand years. What would happen if the world were ending? A catastrophic event renders the earth a ticking time bomb. In a feverish race against the inevitable, nations around the globe band together to devise an ambitious plan to ensure the survival of humanity far beyond our atmosphere, in outer space. But the complexities and unpredictability of human nature coupled with unforeseen challenges and dangers threaten the intrepid pioneers, until only a handful of survivors remain . . . Five thousand years later, their progeny—seven distinct races now three billion strong—embark on

yet another audacious journey into the unknown . . . to an alien world utterly transformed by cataclysm and time: Earth. A writer of dazzling genius and imaginative vision, Neal Stephenson combines science, philosophy, technology, psychology, and literature in a magnificent work of speculative fiction that offers a portrait of a future that is both extraordinary and eerily recognizable. As he did in *Anathem*, *Cryptonomicon*, the *Baroque Cycle*, and *Reamde*, Stephenson explores some of our biggest ideas and perplexing challenges in a breathtaking saga that is daring, engrossing, and altogether brilliant.

The Solomon Scandals (second edition) David H. Rothman, 2023-11-01 The *Solomon Scandals* is a provocative Washington suspense novel inspired by now-forgotten history. A deadly high-rise collapse happened in Northern Virginia, and a U.S. senator and a Supreme Court justice held stakes in a CIA-occupied building. In the novel, an audacious reporter for a crooked newspaper investigates the darker side of a popular real estate tycoon. One of the tycoon's rickety buildings houses hundreds of workers for a shadowy bureaucracy. The reporter's incendiary discoveries compel him to hide his related memoir for a century to shield those on the scandals' fringes. David H. Rothman's complex tale teems with memorable characters (some caught up in a classic Washington dilemma-friendship vs. duty): --Seymour Sy Solomon, the folksy, self-made real estate magnate, buys politicians but does so with far more class than the typical business buccaneer. --George McWilliams is a mysterious editor wealthy enough to have built a mini Versailles. --Wendy Blevin is a powerful but inwardly fragile gossip columnist from an Old Money family that has already suffered its share of tragedies. --Margo Danialson, a B.A. in medieval studies, is unhappily tethered to a corrupt federal agency. --Dr. Rebecca Kitona-Fenton, a multiracial feminist, outspokenly annotates the newspaper memoir of her white great-granduncle, Jonathan Stone. This second edition of *Scandals* contains a revealing essay on historical connections, underscoring Rothman's reporting leading to a Congressional investigation and NBC and ABC exposés. Supreme Court ethics controversies make *Scandals* especially timely. Rothman blends history, ethics, and intrigue. His style is hardboiled and often satirical. Although *Scandals* includes strong language and some sexist and racist dialogue, Dr. Kitona-Fenton's endnotes provide additional context in the second edition. Ted Scheinman, reviewing Rothman's first edition for the *Washington City Paper*, wrote: We get to relish his chatty first-person narrator spinning characterizations of D.C. with the same dark zeal Hammett held for Frisco or Chandler had for Los Angeles. *Kirkus Reviews* says the second edition captures the aura of dark nihilism in some quarters of the political world with great power ... This is a riveting work, mordantly insightful and surprisingly entertaining.

Reaching for the Moon Katherine Johnson, 2020-05-05 "This rich volume is a national treasure." --*Kirkus Reviews* (starred review) "Captivating, informative, and inspiring...Easy to follow and hard to put down." --*School Library Journal* (starred review) The inspiring autobiography of NASA mathematician Katherine Johnson, who helped launch Apollo 11. As a young girl, Katherine Johnson showed an exceptional aptitude for math. In school she quickly skipped ahead several grades and was soon studying complex equations with the support of a professor who saw great promise in her. But ability and opportunity did not always go hand in hand. As an African American and a girl growing up in an era of brutal racism and sexism, Katherine faced daily challenges. Still, she lived her life with her father's words in mind: "You are no better than anyone else, and nobody else is better than you." In the early 1950s, Katherine was thrilled to join the organization that would become NASA. She worked on many of NASA's biggest projects including the Apollo 11 mission that landed the first men on the moon. Katherine Johnson's story was made famous in the bestselling book and Oscar-nominated film *Hidden Figures*. Now in *Reaching for the Moon* she tells

her own story for the first time, in a lively autobiography that will inspire young readers everywhere.
