NBA Jam Reyan Ali,2019-10-22 When NBA Jam dunked its way into arcades in 1993, players discovered just how fun basketball can be when freed from rules, refs, and gravity itself. But just a few years after the billion-dollar hit conquered the world, developer Midway, publisher Acclaim, and video arcades themselves fell off the map. How did a simple two-on-two basketball game become MVP of the arcade, and how did this champ lose its title? Journalist Reyan Ali dives deep into the saga, tracking the people and decisions that shaped the series. You'll get to know mischievous Jam architect Mark Turmell, go inside Midway's Chicago office where hungry young talent tapped into cutting-edge tech, and explore the sequels, spin-offs, and tributes that came in the game's wake. Built out of exhaustive research and original interviews with a star-studded cast—including Turmell and his original development team, iconic commentator Tim Kitzrow, businessmen and developers at Midway and Acclaim alike, secret characters George Clinton and DJ Jazzy Jeff, Doom co-creator John Romero, and 1990s NBA demigods Glen Rice and Shaq—Ali's NBA Jam returns you to an era when coin-op was king.

No Easy Answers Brown, Brooks, 2022-06-10 On April 20, 1999, Dylan Klebold and Eric Harris, two seniors at Columbine High School in Littleton, Colorado, walked into their school and shot to death twelve students and one teacher, and wounded many others. It was the worst single act of murder at a school in U.S. history. Few people knew Dylan Klebold or Eric Harris better than Brooks Brown. Brown and Klebold were best friends in grade school, and years later, at Columbine, Brown was privy to some of Harris and Klebold's darkest fantasies and most troubling revelations. After the shootings, Brown was even accused by the police of having been in on the massacre—simply because he had been friends with the killers. Brown with journalist Rob Merritt tells his full version of the story. He describes the warning signs that were missed or ignored, and the evidence that was kept hidden from the public after the murders. He takes on those who say that rock music or video games caused Klebold and Harris to kill their classmates and explores what it might have been that pushed these two young men, from supposedly stable families, to harbor such violent and apocalyptic dreams. Shocking as well as inspirational and insightful, *No Easy Answers* is an authentic wake-up call for all the psychologists, authorities, parents, and law enforcement personnel who have attempted to understand the murders at Columbine High School. As the title suggests, the book offers no easy answers, but instead presents the unvarnished facts about growing up as an alienated teenager in America today. This edition contains a new afterword that describes what has happened in the United States since Columbine, and provides updates on the aftermath of the massacre.

Logical Reasoning Bradley Harris Dowden,1993 This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

Murray Walker: Unless I'm Very Much Mistaken Murray Walker, 2003 The voice of motor racing and much loved public figure - and the man responsible for introducing millions of viewers to the previously inaccessible world of Formula 1 - tells the story of his incident-packed life, with a brand new chapter on his globetrotting adventures since retirement. Murray Walker is a national treasure. When the man who made famous the catch phrase 'Unless I'm very much mistaken... I AM very much mistaken!!!' announced that he was retiring as ITV's Grand Prix commentator, the media reacted as if the sport itself was losing one of its biggest stars. His reputation for mistakes was the making of Walker. He was the fan who happened to be given the keys to the commentary box - and never wanted to give them back. His high-octane delivery kept viewers on the edge of their seats, while his passion for talking about the sport he loved was matched by an all-encompassing knowledge gained through hours of painstaking research before every race. In his book he writes about his childhood and the influence that his father, British motorcycle champion Graham Walker, had on his career. Failing to match his father's achievements on the track after active service in World War II, he made a successful career for himself in advertising which catapulted him to the top of his profession. An offer from the BBC to take over the commentary seat for their F1 broadcasts was too good to turn down, and it wasn't long before the infamous 'Murrayisms' enlivened a sport which until then had been shrouded in a cloak of unfathomable technical jargon and mind-numbing statistics. He also talks about the biggest changes in the sport over the last 50 years, in particular the safety issues which came to the fore after the tragic death of Ayrton Senna, which he witnessed first hand. His partnership with James Hunt behind the microphone is the subject of some hilarious anecdotes, while his views on drivers past and present such as Stirling Moss, Jackie Stewart, Damon Hill and Michael Schumacher make for fascinating reading.

Hanging Out, Messing Around, and Geeking Out, Tenth Anniversary Edition Mizuko Ito, Sonja Baumer, Matteo Bittanti, Danah Boyd, Rachel Cody, 2019-09-24 The tenth-anniversary edition of a foundational text in digital media and learning, examining new media practices that range from podcasting to online romantic breakups. Hanging Out, Messing Around, and Geeking Out, first published in 2009, has become a foundational text in the field of digital media and learning. Reporting on an ambitious three-year

ethnographic investigation into how young people live and learn with new media in varied settings—at home, in after-school programs, and in online spaces—it presents a flexible and useful framework for understanding the ways that young people engage with and through online platforms: hanging out, messing around, and geeking out, otherwise known as HOMAGO. Integrating twenty-three case studies—which include Harry Potter podcasting, video-game playing, music sharing, and online romantic breakups—in a unique collaborative authorship style, *Hanging Out, Messing Around, and Geeking Out* combines in-depth descriptions of specific group dynamics with conceptual analysis. Since its original publication, digital learning labs in libraries and museums around the country have been designed around the HOMAGO mode and educators have created HOMAGO guidebooks and toolkits. This tenth-anniversary edition features a new introduction by Mizuko Ito and Heather Horst that discusses how digital youth culture evolved in the intervening decade, and looks at how HOMAGO has been put into practice. This book was written as a collaborative effort by members of the Digital Youth Project, a three-year research effort funded by the John D. and Catherine T. MacArthur Foundation and conducted at the University of California, Berkeley, and the University of Southern California.

A-List Angels Zack O'Malley Greenburg, 2020-03-10 How Hollywood cashed in on the latest tech boom-and changed the face of Silicon Valley. When Ashton Kutcher first heard about 50 Cent's nine-figure Vitaminwater windfall in 2007, the actor realized he'd been missing out. He soon followed the rapper's formula-seeking equity instead of cash for endorsement deals-but with a twist: as the first person to top 1 million Twitter followers, Kutcher leveraged his social reach to accumulate stakes in a vast range of user-hungry tech startups. A decade later, Kutcher is perhaps the brightest in a firmament of star investors from Beyoncé and Jay-Z to Jennifer Lopez and Alex Rodriguez. Bartering credibility and connections in exchange for early (and often discounted) access to the world's most coveted investment opportunities, this diverse group changed the face of venture capital while amassing portfolios packed with companies like Airbnb, Spotify, and Uber. But how did two once-dissonant universes-Silicon Valley and Hollywood-become intertwined? Forbes senior editor Zack O'Malley Greenburg told the first chapter of Kutcher's transformation for the magazine's cover story in 2016. Now he offers a lively, page-turning account of how this motley crew of talent managers, venture capitalists, and celebrities helped the creative class forge a brand-new blueprint for generational wealth. Through extensive reporting and exclusive interviews with more than 100 key players-including Shaq, Nas, Joe Montana, Sophia Bush, Steve Aoki, Tony Gonzalez, and dozens of behind-the-scenes power brokers-Greenburg sheds light on the unlikely group that fundamentally transformed the value of fame.
