- 🔍 [The PC and Gadget Help Desk](#) Mark Edward Soper, 2014-08-27 Offers extensive guidance for troubleshooting and repairing a wide variety of electronic devices on diverse platforms, including PCs, smartphones, tablets, networks, cameras, home theaters, and ereaders.
- 🔍 [Mort Morte](#) David Henry Sterry, On my third birthday, my father, in an attempt to get me to stop sucking my thumb, gave me a gun. “Today son, you are a man,” he said, snatching the little blue binky from my little pink hand. So I shot him. So begins Mort Morte, a macabre, coming-of-age story full of butchered butchers, badly used Boy Scouts, blown-up Englishman, virginity-plucking cheerleaders, and many nice cups of tea. Poignantly poetic, hypnotically hysterical, sweetly surreal, and chock full of the blackest comedy, Mort Morte is like Lewis Carroll having brunch with the kid from The Tin Drum and Oedipus, just before he plucks his eyes out. In the end though, Mort Morte is a story about a boy who really loves his mother.

- 🔍 [Blood Crazy](#) Simon Clark, 2014-10-28 It is a quiet, uneventful Saturday in Doncaster. Nick Aten, and his best friend Steve Price – troubled seventeen year olds – spend it as usual hanging around the sleepy town, eating fast food and planning their revenge on Tug Slatter, a local bully and their arch-enemy. But by Sunday, Tug Slatter becomes the last of their worries because somehow overnight civilization is in ruins. Adults have become murderously insane – literally. They’re infected with an uncontrollable urge to kill the young. Including their own children. As Nick and Steve try to escape the deadly town covered with the mutilated bodies of kids, a group of blood-thirsty adults ambushes them. Just a day before they were caring parents and concerned teachers, today they are savages destroying the future generation. Will Nick and Steve manage to escape? Is their hope that outside the Doncaster borders the world is ‘normal’ just a childish dream? Blood Crazy, first published in 1995, is a gripping, apocalyptic horror from Simon Clark.
- 🔍 [Skin in the Game](#) Nassim Nicholas Taleb, 2018-02-27 #1 New York Times Bestseller • A bold work from the author of The Black Swan that challenges many of our long-held beliefs about risk and reward, politics and religion, finance and personal responsibility In his most provocative and practical book yet, one of the foremost thinkers of our time redefines what it means to understand the world, succeed in a profession, contribute to a fair and just society, detect nonsense, and influence others. Citing examples ranging from Hammurabi to Seneca, Antaeus the Giant to Donald Trump, Nassim Nicholas Taleb shows how the willingness to accept one’s own risks is an essential attribute of heroes, saints, and flourishing people in all walks of life. As always both accessible and iconoclastic, Taleb challenges long-held beliefs about the values of those who spearhead military interventions, make financial investments, and propagate religious faiths. Among his insights: • For social justice, focus on symmetry and risk sharing. You cannot make profits and transfer the risks to others, as bankers and large corporations do. You cannot get rich without owning your own risk and paying for your own losses. Forcing skin in the game corrects this asymmetry better than thousands of laws and regulations. • Ethical rules aren’t universal. You’re part of a group larger than you, but it’s still smaller than humanity in general. • Minorities, not majorities, run the world. The world is not run by consensus but by stubborn minorities imposing their tastes and ethics on others. • You can be an intellectual yet still be an idiot. “Educated philistines” have been wrong on everything from Stalinism to Iraq to low-carb diets. • Beware of complicated solutions (that someone was paid to find). A simple barbell can build muscle better than expensive new machines. • True religion is commitment, not just faith. How much you believe in something is manifested only by what you’re willing to risk for it. The phrase “skin in the game” is one we have often heard but rarely stopped to truly dissect. It is the backbone of risk management, but it’s also an astonishingly rich worldview that, as Taleb shows in this book, applies to all aspects of our lives. As Taleb says, “The symmetry of skin in the game is a simple rule that’s necessary for fairness and justice, and the ultimate BS-buster,” and “Never trust anyone who doesn’t have skin in the game. Without it, fools and crooks will benefit, and their mistakes will never come back to haunt them.”
- 🔍 [I Am Not a Wedding Photographer](#), 2019
- 🔍 [Birdsville](#) Evan Mchugh, 2011 For a town with seventy residents (on a good day), Birdsville is remarkably well known – the Birdsville Track, the rodeo, the pub, the infamous races. With its ruggedness, inaccessibility and larrikin charm, this small town on the edge of the Simpson Desert has become a symbol of the great Australian outback. What is it about Birdsville that has...
- 🔍 [The Big Twitch](#) Sean Dooley, 2005-10-01 One man’s quest to realise a boyhood dream and break a national record. Sean Dooley seems like a well adjusted, functioning member of society but beneath the respectable veneer he harbours a dark secret. He is a hard-core birdwatcher (aka twitcher’). Sean takes a year off to try to break the Australian twitching record – he has to see more than 700 birds in twelve months. Travelling the length and breadth of Australia, he stops at nothing in search of this birdwatching holy grail, blowing his inheritance, his career prospects and any chance he has of finding a girlfriend. Part confessional, part travelogue, this is a true story about obsession. It’s about seeking the meaning of life, trying to work out what normal’ is, and searching for the elusive Grey Falcon (the bird, not the car). Sean’s story of how he followed his childhood dream of becoming a national champion is both inspiring and ridiculous. Could this be the most pathetic great achievement in Australian history?
- 🔍 [The Winter Army](#) Maurice Isserman, 2019 The epic story of the U.S. Army’s 10th Mountain Division, whose elite soldiers broke the last line of German defenses in Italy’s mountains in 1945, spearheading the Allied advance to the Alps and final victory.--Provided by Publisher.
- 🔍 [A Mandate of Sword and Railgun](#) Black Knight, 2021-10-09 Fringe Space... It is where mighty pirate clans, powerful cartels and viciously territorial empires have set up shop. Humanity’s fledgling star state, the Terran Minarchy, colonized a number of leftover planets in this expanse. The humans, their allies, and client races have ventured forth, braved deadly space anomalies and settled there. They terraformed barren wastelands, brought water to the deserts, and transformed even the dead asteroids into tiny copies of Earth. However, their boldness and hard work were rewarded with relentless, unprovoked attacks. Terran settlers were denied the peace and prosperity they sought, and were instead rewarded with slavery and death. Forced to replace their tractors for battle tanks, these farmers now aim to harvest another type of crop – the invaders themselves!
- 🔍 [The Psychology of the Leader](#) Antonio Meneghetti, 2011
- 🔍 [BNF for Children 2014-2015](#) BNF, Paediatric Formulary Committee, 2014-07 The BNF for Children (BNFC) provides essential practical information to all healthcare professionals involved in the prescribing, dispensing, monitoring and administration of medicines to children.
- 🔍 [Madam How and Lady Why; Or First Lessons in Earth Lore for Children](#) Charles Kingsley, 1880 Explains some basic hows and whys in natural history and geology.
