Sailing to Sarantium Guy Gavriel Kay,2010-09-07 Guy Gavriel Kay, the international bestselling and multiple award-winning author of *The Fionavar Tapestry*, brings his unique storytelling imagination to an alternate Byzantine world... Sarantium is the golden city: holy to the faithful, exalted by the poets, jewel of the world and heart of an empire. Caius Crispus, known as Crispin, is a master mosaicist, creating beautiful art with colored stones and glass. Still grieving

the loss of his family, he lives only for his craft—until an imperial summons draws him east to the fabled city. Bearing with him a Queen’s secret mission and seductive promise, and a talisman from an alchemist, Crispin crosses a land of pagan ritual and mortal danger, confronting legends and dark magic. Once in Sarantium, with its taverns and gilded sanctuaries, chariot races and palaces, intrigues and violence, Crispin must find his own source of power in order to survive. He finds it, unexpectedly, high on the scaffolding of his own greatest creation.

Conservation of the Last Judgment Mosaic, St. Vitus Cathedral, Prague Francesca Piqué, Dusan Stulik, 2004 Illustrated in color throughout, this handsome volume presents selected papers from an international symposium held in June 2001 marking the completion of a ten-year project to conserve the Last Judgment mosaic, at St. Vitus Cathedral in Prague. The project was a partnership between the Office of the President of the Czech Republic, the Prague Castle Administration, and the Getty Conservation Institute. The goal of the symposium was to present the methodology, research, and results of the project, which involved conserving one of the finest examples of monumental medieval mosaic art in Europe. The volume's essays are divided

into three parts, which cover the historical and art-historical context, conservation planning and methodology, and project implementation and maintenance. Topics addressed include the history, iconography, and visual documentation of the mosaic; the development and application of surface cleaning and protective coating techniques for the mosaic's glass tesserae; and post-treatment monitoring and maintenance.

Turquoise Mosaics from Mexico Colin McEwan, 2006 The nine turquoise mosaics from Mexico are some the most striking pieces in the collections of the British Museum. Among the few surviving such artifacts, these exquisite objects include two masks, a shield, a knife, a helmet, a double-headed serpent, a mosaic on a human skull, a jaguar, and an animal head. They all originate from the Mixtec and Aztec civilizations first encountered by Europeans during the Spanish conquest in the early sixteenth century. The mosaics have long excited admiration for their masterful blend of technical skill and artistry and fascination regarding their association with ritual and ceremony. Only recently though, have

scientific investigations undertaken by the British Museum dramatically advanced knowledge of the mosaics by characterizing, for the first time, the variety of natural materials that were used to create them. Illustrated with more than 160 color images, this book describes the recent scientific findings about the mosaics in detail, revealing them to be rich repositories of information about ancient Mexico. The materials used to construct the mosaics demonstrate their makers' deep knowledge of the natural world and its resources. The effort that would have been involved in procuring the materials testifies to the mosaics' value and significance in a society imbued with myths and religious beliefs. The British Museum's analyses have provided evidence of the way that the materials were prepared and assembled, the tools used, and the choices that were made by artisans. In addition, by drawing on historical accounts including early codices, as well as recent archaeological discoveries, specialists have learned more about the place of the mosaics in ancient Mexican culture. Filled with information about the religion, art, and natural and cultural history as well as the extraordinary ability of modern science to enable detailed insight into past eras, *Turquoise Mosaics from Mexico* offers an overview of the production, utilization, and eventual fate

of these beautiful and mysterious objects.

Mosaic Chris Aslan,2021-04-23 When a pot breaks, it's useless; at best there might be a shard that you can use to scoop grain. But what about a broken life? What about me? I feel so fragmented. Can I be repaired somehow? How do I live with the hate I feel towards those I'm supposed to be closest to? My life is in pieces and I don't know what to do... Will one tragic event leave friendship and family ties irrevocably broken? And how will a historical Middle Eastern mountain community deal with news of a miracle worker? Is he too good to be true?

The Challenge of the Mosaic Torah in Judaism, Christianity, and Islam ,2020-10-12 This volume addresses the theological issues which arose when different ancient religious groups within three Abrahamic religions attempted to understand or define their opinion on the Mosaic Torah. The twelve chapters explore various instances of accepting, modifying, ignoring, criticizing, and vilifying the Mosaic Torah.

The World Underfoot Hallie M. Franks,2018-06-19 In the Greek Classical period, the symposium--the social gathering at which male citizens gathered to drink wine and engage in conversation--was held in a room called the andron. From couches set up around

the perimeter, symposiasts looked inward to the room's center, which often was decorated with a pebble mosaic floor. These mosaics provided visual treats for the guests, presenting them with images of mythological scenes, exotic flora, dangerous beasts, hunting parties, or the spectre of Dionysos: the god of wine, riding in his chariot or on the back of a panther. In *The World Underfoot*, Hallie M. Franks takes as her subject these mosaics and the context of their viewing. Relying on discourses in the sociology and anthropology of space, she presents an innovative new interpretation of the mosaic imagery as an active contributor to the symposium as a metaphorical experience. Franks argues that the images on mosaic floors, combined with the ritualized circling of the wine cup and the physiological reaction to wine during the symposium, would have called to mind other images, spaces, or experiences, and in doing so, prompted drinkers to reimagine the symposium as another kind of event--a nautical voyage, a journey to a foreign land, the circling heavens or a choral dance, or the luxury of an abundant past. Such spatial metaphors helped to forge the intimate bonds of friendship that are the ideal result of the symposium and that make up the political and social fabric of the Greek polis.

Mosaics in the Medieval World Liz James,2017-10-05 In this book, Liz James offers a comprehensive history of wall mosaics produced in the European and Islamic middle ages. Taking into account a wide range of issues, including style and iconography, technique and material, and function and patronage, she examines mosaics within their historical context. She asks why the mosaic

was such a popular medium and considers how mosaics work as historical 'documents' that tell us about attitudes and beliefs in the medieval world. The book is divided into two parts. Part I explores the technical aspects of mosaics, including glass production, labour and materials, and costs. In Part II, James provides a chronological history of mosaics, charting the low and high points of mosaic art up until its abrupt end in the late middle ages. Written in a clear and engaging style, her book will serve as an essential resource for scholars and students of medieval mosaics.

Mosaics of Roman Africa Michèle Blanchard-Lemée, 1996

Designed and produced by workshops staffed with master artists and skilled artisans, the floors were commissioned by provincial aristocrats seeking to display their social status and opulent lifestyles. The mosaics abound with images of exuberant plant forms, with animals both real and imaginary, and with individuals - nobles, farmers, hunters, chariot drivers, and wrestlers - going about their daily activities.
