The Blind Photographer Julian Rothenstein, 2016-09-06 The blind photographer cannot see a butterfly perched perfectly still on a flower, a bowl of sweet-smelling fruit, or a child's rattle on a darkened floor, but the mind's eye is sharply focused. How then, do blind or partially sighted people capture such extraordinary images? The photographs in this revelatory book suggest a deeper truth: that blindness is itself a kind of seeing, and that those who can see are often blind to the strangeness and beauty of the world around them. As the blind photographer Evgen Bavcar writes, Photography must belong to the blind, who in their daily existence have learned to become the masters of camera obscura. Through the photographs of more than fifty blind or partially sighted people from around the world, this exhilarating book—the first to explore this phenomenon in all its vibrancy and diversity—will make you see differently.

Ways of Living Gemma Seltzer, 2021-07-15 'These are sharp, wry, playful stories of split and secret selves, alter-egos, doppelgangers - of escape routes from the very contemporary and existential crises their women find themselves in.' - Lucy Caldwell, author of *Intimacies* Andie can see no other way to escape a wedding than by hiding in a tree. Esther starts a new life in a King's Cross hotel with a bad-tempered ventriloquist dummy, while Gina finally leaves a group of infuriating friends - but not before providing them with a suitable replacement. *Ways of Living* is Gemma Seltzer's keen exploration of what it means to be a modern woman inhabiting the urban landscape. Ten stories of ordinary women going to extraordinary lengths to be understood, acting in bold and unpredictable ways as they map their identities onto London's streets. How do we speak and listen to each other? Who gets to talk? And what is the true power of quiet in a noisy world?

Virginia Woolf and the Natural World Kristin Czarnecki, Carrie Rohman, 2011 *Virginia Woolf and the Natural World* is a

compilation of thirty-one essays presented at the twentieth annual international conference on Virginia Woolf. This volume explores Woolf's complex engagement with the natural world, an engagement that was as political as it was aesthetic. The diversity of topics within this collection-ecofeminism, the nature of time, the nature of the self, nature and sporting, botany, climate, and landscape, just to name a few-fosters a deeper understanding of the nature of nature in Woolf's works. Contributors include Bonnie Kime Scott, Carrie Rohman, Diana Swanson, Elisa Kay Sparks, Beth Rigel Daugherty, Jane Goldman, and Diane Gillespie, among many others from the international community of Woolf scholars.

The Cuckoo's Calling Robert Galbraith, 2013-04-30 Published

under a pseudonym, J. K. Rowling's brilliant debut mystery introduces Detective Cormoran Strike as he investigates a supermodel's suicide in one of the best books of the year (USA Today), the first novel in the brilliant series that inspired the acclaimed HBO Max series C.B. Strike. After losing his leg to a land mine in Afghanistan, Cormoran Strike is barely scraping by as a private investigator. Strike is down to one client, creditors are calling, and after a breakup with his longtime girlfriend, he's living in his office. Then John Bristow walks through his door with a shocking story: His sister, the legendary supermodel Lula Landry -- known to her friends as the Cuckoo -- famously fell to her death a few months earlier. The police ruled it a suicide, but John refuses to believe that. The case plunges Strike into the world of multimillionaire beauties, rock-star boyfriends, and desperate designers, and it introduces him to every variety of pleasure, enticement, seduction, and delusion known to man. You may think you know detectives, but you've never met one quite like Strike. You may think you know about the wealthy and famous, but you've never seen them under an investigation like this.

Dark Ecology Timothy Morton, 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

The Goodbye Diaries: A Mother-Daughter Memoir

Marisa Bardach Ramel, Sally Bardach, 2019-05-07

The Life of Almost Anna Vaught, 2018-08-31 *The Life of Almost* is a dark comedy set in Wales and a spectral reworking of

Dickens's *Great Expectations*. Almost is a boy, brought up by his sister, Perfection. He is shrouded by bereavement and surrounded by the hauntings of his family's undead. ... He is a poet: a bard boy surrounded by a cast of family and friends drawn from sea caves, the embalming table, the graveyard and the dark Clandestine House, which respirese heavily and in which time has stopped. Like Pip, he sings into the sea and likes to tell stories ... the story of his life, his struggles and triumphs. He is thwarted in love but understands -- the night he meets a ragged convict, for the convict is a merman, come on land -- that he has deep and commanding powers.--Publisher

The Time Machine illustrated H. G. Wells,2022-06-22 The *Time Machine* by H. G. Wells is a science fiction classic, which lends itself well to visualization. This version, illustrated by Yoann Laurent-Rouault, an illustrator master who graduated from the Beaux-Arts, and published in the international literary collection

Memoria Books, is a reference on the time travel theme. Wells transports us in the year 802 701, in a society made up of the "Elois", who live peacefully in a kind of big Garden of Eden, eating fruits and sleeping high up, while underground lives another species, also descending from men, the "Morlocks", who do not stand the light anymore, living in the dark for too long now. At night, they return to the surface, going back up by the wells, in order to kidnap some Elois that they eat ; these last became livestock unknowingly. In *The Time Machine*, made into a movie several times, the last of them in 2002 by Simon Wells, the great-grandson of H. G. Wells, time is both a pretext to move the class struggle and warn... and also, in a way, a full character, who fascinates, arbitrates, transcends... The illustrations come to reinforce the time travel and provide a new experience to the reader.

Famished Anna Vaught, 2020-09-10 'By turns stomach-churning, tantalising and opulent - these stories confirm Vaught's baroque talents..' - Heidi James, author of *The Sound Mirror*. In this dark and toothsome collection, Anna Vaught enters a strange world of apocryphal feasts and disturbing banquets. *Famished* explores the perils of selfish sensuality and trifle while child rearing, phantom sweetshop owners, the revolting use of sherbet in occult rituals, homicide by seaside rock, and the perversion of Thai Tapas. Once, that is, you've been bled dry from fluted cups by pretty incorporeals and learned about consuming pride in the hungriest of stately homes. *Famished*: seventeen stories to whet your appetite and ruin your dinner.

Steve Mcqueen: Year 3 Steve McQueen, 2022-03-03 Year 3 is one of the most ambitious records of citizenship ever undertaken. Using the medium of the traditional school class photograph, this epic work captures tens of thousands of London schoolchildren from a single academic year. Mapping a picture of the present, the artwork captures a milestone year in a child's personal development: the moment when they become more conscious of

the world beyond their immediate family. It is a critical time for them to develop confidence in all areas of life, to understand more about their place in the changing world and to think about the future. Depicting rows of children sitting or standing alongside their teachers and teaching assistants, Year 3 reflects this moment of excitement, anxiety and hope. Year 3 is more than a portrait of a generation however: it documents and explores, in a way never before attempted, a range of urgent ideas connected to the UK, and to our world, today. This book takes the photographs as a starting point and looks ahead, commenting on and contextualising the artwork and its message, but also providing a platform for new voices, and a new set of ideas. Year 3 is less a commemoration and more an active extension of the artwork itself: 'a glimpse of the capital's future, a hopeful portrait of a generation to come.'

Lord of the Vampires Gena Showalter, 2011-09-01 Once upon a time...the Blood Sorcerer vanquished the kingdom of Elden. To save their children, the queen scattered them to safety and the king filled them with vengeance. Only a magical timepiece connects the four royal heirs...and time is running out.... Nicolai the Vampire was renowned for his virility, but in a twist of fate The Dark Seducer had become a sex slave in the kingdom of Delfina—stripped of his precious timepiece and his memory. All that remained was a primal need for freedom, revenge—and the only woman who could help him. In her dreams, a wanton vampire called to Jane Parker, drawing her to his dark sexuality and his magical realm. But for a human, all was not a fairy tale in Delfina. Jane was the key to Nicolai's memory...but exploiting her meant dooming the only mortal he craved.
