Your Mother Called (Mother Earth): You'd Better Call Her Back! Gina Murphy-Darling, 2015-02-20 Your Mother Called (Mother Earth) . . . You'd Better Call Her Back! carries Gina Murphy-Darling's passionate message of respect for Mother Earth. Taking on her radio show personality of Mrs. Green, Murphy-Darling identifies many of the incredible environmental challenges we face as a human race and offers one woman's solutions on how we can begin to live intentionally to help preserve the very planet that gives us life. From listing the dangers of fracking and the harmful chemicals in our food and our cleaning products to giving tips on a greener way to entertain, Mrs. Green will motivate you to wake up and smell the roses while there are still roses to smell. Filled with anecdotes, humor, and some fairly bold statements, Your Mother Called may make you laugh or cry, but most importantly, it will inspire you to change some harmful habits and encourage you to influence others. Read it, enjoy it, and share the message so that we can all become intentional, committed members of a global community who care about the planet we share.

Ode To Mother Earth Shannon Perry, 2020-11-26 Shannon Perry spent time connecting interpersonally with nature in the same way Henry David Thoreau conducted his philosophical transcendental impression, and such to her own personal eulogium and dedication to Mother Earth in formation of literary Ode.

Mother Earth, 1906

Mother Earth Brian Eric Goddard, 2011-11-22 Some time in the near future mother earth will cleanse herself in one way or another. Maybe a new ice age, melting of the ice caps, fresh water released into the oceans causing the gulf stream to fail and the Northern hemisphere cooling down. There could be a large volcanic eruption which could cause a nuclear winter by blocking out the sun. Earth quakes in the oceans causing tsumamis engulfing the land masses. Our life style in the past 200 years has helped to increase these events occurring. With the world population growing we have to feed each other and have a good supply of fresh water but this won't be the case in every country, so will man press the self destruct button by fighting over these resources? I cannot believe this will happen and I hope man will come to his senses and let peace and harmonies prevail.

Mother Earth Two Joseph J. Corso, 2009-10 This story is a message for all age groups to realize the beauty of nature and the importance of Mother Earth.

Mother Earth Trista Hendren, 2013-12-16 A loving tribute to Mother Earth and a call to action for children, their parents and grandparents.

Mother Earth's Poet Malik Kalonji, 2013-01-14 Animals, nature, the nature of love I give thanks to Mother Earth and Father Sky above. Save the planet, heal the world. The children are our future, every boy and every girl. We must make a change in the circle of life, animals are victims. I speak for animal rights. Its time to take a stand, restore the Earth as we know it. Iam Malik Kalonji, Mother Earths Poet.

Defending Mother Earth Jace Weaver, 1996 Defending Mother Earth brings together important Native voices to address urgent issues of environmental devastation as they affect the indigenous peoples throughout the Americas. The essays document a range of ecological disasters, including the devastating effects of mining, water pollution, nuclear power facilities, and toxic waste dumps. In an expression of environmental racism, such hazards are commonly located on or near Indian lands. Many of the authors included in Defending Mother Earth are engaged in struggles to resist these dangers. As their essays consistently demonstrate, these struggles are intimately tied to the assertion of Indian sovereignty and the affirmation of Native culture: the Earth is, indeed, Mother to these nations. In his concluding theological reflection, George Tinker argues that the affirmation of Indian spiritual values, especially the attitude toward the Earth, may hold out a key to the survival of the planet and all its peoples.--BOOK JACKET. Mother Earth Needs Our Help! Esther Sampedro,2010-09 For us the best thing about this book -apart from the fact that it looks so beautiful-is that every illustration, shows the powerful bond between words and images-a bond that is often dramatic, sometimes affectionate, always passionate. Beautiful illustrations and simple words together convey a message of hope-this book says we can work with our planet, not against it. *Mother Earth Needs Our Help!* was born out of our desire for children to know the truth about the Earth's condition and about the many simple and 'down to earth' actions, we all can take in helping our Mother heal. In order to preserve our environment we must persevere with our actions, no matter how small they might seem to be at times, doing something is better than doing nothing at all! Think of a drop of water, making its way down and into a creek in order to slowly reach the river, like millions of other drops, searching for one destination, the powerful ocean. Like a drop of water committed to being part of this powerful ocean, you too can join us in our efforts to nurture her back to health. This book is for you. Because you matter.

Down to Earth Michael Rice,2001-05 My name is Mona Tempus. People of your world know me as Mother Nature. So begins the funny, fanciful, and often times frightening dialogue between a strange, beautiful woman and a skeptical, bewildered man. What evolves is a chronicle of the environmental devastation that has befallen our planet. Mother Nature (Mona), with help from her crew-an unforgettable cast of characters-relates her insights into the dangers we face in the forms of rainforest destruction, air and water pollution, land degradation, global warming, species extinction, and over-population. Blending the latest scientific findings with a history of the Earth's evolution from the Big Bang to the present day, and drawing on such other disciplines as sociology, anthropology, and religion, Mona offers her unique perspective on how we landed in this predicament. Reminding us that we can't rely on Governments or Big Business to save us, she issues a call to action for the peoples of Earth to rescue their planet...and gives us a ray of hope in the myriad of solutions she proposes. This original, compelling book is a must-read for anyone who cares about preserving Mother Earth both for their own and for future generations.
