The Story Maker Motivator Frances Dickens, 2017-07-05 The Story Maker Motivator is an inspiring resource for educators and anyone else aiming to help secondary school pupils write and think creatively. Based on tried and tested activities and approaches first presented in the authors' award-winning book for primary schools, this is a unique collection of classroom materials. If I was Head of English I would definitely use it. It is packed with ideas, there are so many lessons a teacher could get out of it. It is different from anything I have seen. Roger Mason retired Head Teacher of Backwell Secondary School, Bristol. Topics covered include narrative planning, beginnings, cliffhangers, suspense hooks, endings, objects, characters, feelings, settings, speech and sound, descriptive story elements and thesauruses. Other key features include: - a mixture of photos, illustrations, and scenarios to inspire creativity; - sample plans to help you devise stimulating lessons; - a CD ROM containing printable versions of activities and lesson plans. Suitable for English teachers, student teachers, EFL teachers, special needs teachers, learning support teachers and parents working at home with their children, this wide-ranging resource provides a unique approach to broadening writing and thinking skills. You may also be interested in the award-winning book for primary schools by the same author: The Story Maker.

The Motivation Manifesto Brendon Burchard, 2014-10-28 The Motivation Manifesto is a poetic

and powerful call to reclaim your life and find your own personal freedom from Brendon Burchard - the world's #1 high performance coach and #1 New York Times bestselling author of *High Performance Habits*. "It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book. —Paulo Coelho

The Motivation Manifesto is a call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Brendon says, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Brendon motivates us to free ourselves from fear and take back our lives once and for all. In this life-changing personal growth book, Brendon presents his nine declarations for personal power and motivation, drawing on insights from his own personal journey and from the lives of some of history's greatest leaders and thinkers. Each chapter focuses on one of the nine declarations, offering practical strategies and exercises to help you apply these principles to your life. Whether you're seeking to overcome self-doubt, boost your confidence, or achieve your goals, *The Motivation Manifesto* is an invaluable guide to unlocking your full potential. With its inspiring message and actionable advice, this bestselling book is a must-read for anyone who wants to unleash their inner greatness with the power of determination, resilience, and an empowering mindset.

Maker Education Meets Technology Education ,2023-09-04 In this book two fields meet, Technology Education with its long history, and Maker Education, a relative new shoot in the educational field. Both focus on learning through making and both value agency and motivation of learners. The purpose of this book is to understand and analyze the kind of informal and formal educational activities that take place under the umbrella of the Maker Movement and then relate this to the field of Technology Education to uncover what researchers, innovators and teachers in this field can learn from the principles, ideas and practices that are central to the Maker Movement and vice versa. The book contains two types of chapters. The first type is case study chapters that span from Mexico, China, Korea, Denmark, the Netherlands to Kenya and from primary to tertiary level, showing a variety of good practices in maker education including both formal and informal contexts. In the subsequent thematic chapters, dedicated authors have used the case studies to reflect on themes such as curriculum reform, social learning, materiality, spatial thinking, informal versus formal learning as well as the sustainability of learning and relate what is happening in Maker Education with Technology Education to imagine possible futures for Maker Education.

Advances in Motivation Science Andrew J Elliot,2014-11-25 Elsevier are proud to introduce our brand new serial, *Advances in Motivation Science*. The topic of motivation has traditionally been one of the mainstays of the science of psychology. It played a major role in early dynamic and Gestalt models of the mind and it was fundamental to behaviorist theories of learning and action.

The advent of the cognitive revolution in the 1960 and 70s eclipsed the emphasis on motivation to a large extent, but in the past two decades motivation has returned en force. Today, motivational analyses of affect, cognition, and behavior are ubiquitous across psychological literatures and disciplines; motivation is not just a “hot topic on the contemporary scene, but is firmly entrenched as a foundational issue in scientific psychology. This volume brings together internationally recognized experts focusing on cutting edge theoretical and empirical contributions in this important area of psychology. Elsevier's brand new serial focusing on the field of motivation science and research Provides an overview of important research programs conducted by the most respected scholars in psychology Special attention on directions for future research

The Decision Maker's Playbook Simon Mueller, Julia Dhar, 2019-09-09 The Decision Maker's Playbook is an easy-to-use, “how-to” toolkit to improve managers' decision making, using visualisations, relevant examples and actionable checklists that cater to its main target group: analytically interested, busy managers and entrepreneurs. The Decision Maker's Playbook will help readers navigate a complex world. Along the four chapters of the books, it will help you in: 1. Collective Evidence 2. Connecting the Dots 3. Crafting the Approach 4. Complete the Mission The Decision Maker's Playbook is your personal toolbox to help you make better decisions. It offers practical advice to help you understand, analyse and shape your world. As simplified representations of reality, the models portrayed in this book allow us to see patterns, identify relationships, and view the world from different vantage points. They help us understand and break up complex phenomena into tractable pieces. From Unknown unknowns over Fat Tails to Counterfactuals, this book will make lesser known but highly relevant models available for immediate use – in a visual way, supported by applicable case studies and without jargon.

Educational Robotics in the Context of the Maker Movement Michele Moro, Dimitris Alimisis, Luca Iocchi, 2019-12-24 This book gathers papers presented at the International Conference “Educational Robotics in the Maker Era – EDUROBOTICS 2018”, held in Rome, Italy, on October 11, 2018. The respective chapters explore the connection between the Maker Movement on the one hand, and Educational Robotics, which mainly revolves around the constructivist and constructionist pedagogy, on the other. They cover a broad range of topics relevant for teacher education and for designing activities for children and youth, with an emphasis on using modern low-cost technologies (including block-based programming environments, Do-It-Yourself electronics, 3D printed artifacts, intelligent distributed systems, IoT technology and gamification) in formal and informal education settings. The twenty contributions collected here will introduce researchers and practitioners to the latest advances in educational robotics, with a focus on science, technology, engineering, arts and mathematics (STEAM) education. Teachers and educators at all levels will find valuable insights and inspirations into how educational robotics can promote technological interest and 21st century skills – e.g. creativity, critical thinking, teamwork, and problem-solving – with a special emphasis on new making technologies.

Making, Makers, Makerspaces Janette Hughes, 2022-08-21 This book is about makers and makerspaces in education. It furnishes and analyzes case studies from sixty teachers working in twenty different school districts in Ontario, Canada. Each author provides research and analyzes data about the process of establishing makerspaces and implementing maker pedagogies with students in grades K-8. The first chapter sets the stage for the book, describing the theoretical framework and methodology used and offering information on the schools in which the research occurred. Subsequent chapters focus on specific topics and individual case studies, including assessment, pedagogic techniques, equity, inclusivity, and methods of making. The book will prove valuable to both researchers and practitioners, any educator interested in this developing topic, including school leaders, school district leaders, educational researchers, and teacher educators. It will also be useful for initial teacher education programs.
