**How to Ride Off-Road Motorcycles** Gary LaPlante,2012-08-13 Off-road riding is one of motorcycling's most popular pursuits and also one of its best training grounds for improving street-riding skills. Off-road riding takes many forms, from motocross and enduro racing, to dual-sport day trips, to trail riding, to adventure tours. No matter the specific pursuit, all dirt riding (and much street riding) shares the same basic skill set. How to Ride Off-Road Motorcycles schools the reader in all the skills necessary to ride safely and quickly off-road. Chapters cover the basics, such as body position, turning, braking, and throttle control, then proceed to advanced techniques, such as sliding, jumps, wheelies, hill-climbing, and more. If you've ever wanted to try dirt riding or if you're an experienced rider looking to sharpen your skill set, How to Ride Off-Road Motorcycles is a perfect riding coach.

**Motocross Saved My Life** Brent Worrall,2019-10-18 In 2011, former Canadian national champion motocross racer Brent (Airmail) Worrall, who had recently returned to the sport after a lengthy absence due to struggles with alcohol, gambling, and depression, was again in a fight to save his own life. His shot at redemption and making peace with the sport he loves was cut short by a near-fatal crash. A mechanical malfunction in mid-flight over the track's largest jump sent him spiralling into a nose dive. He had just enough time while airborne to say, "Survive, survive, survive." He broke his back and neck in six places, fractured his clavicle, sternum, and multiple ribs and collapsed his lungs. After flat-lining on the operating table four times, Brent's doctors finally managed to stabilize him. He required two blood transfusions, and his doctors feared the worst. He emerged from hospital a paraplegic, given only five to ten years to live due to various complications from his accident. After losing the sport he loved many years before to the seedy underworld of depression, alcoholism, drugs, and compulsive gambling, he vowed never to let go of his lifeline passion again. Brent meticulously takes us through his troubled journey to the eventual promised land where he now sits. Along the way, he recounts his many inspirational interactions with those who helped mould his character, including Rick Hansen on his Man in Motion tour as well as looking into Terry Fox's eyes on his Marathon of Hope. In keeping with his character as an avid sports and history enthusiast, Brent takes us back through many pertinent historical events that shaped his life and society as a whole. Two years after his accident, Brent was back at the track, this time to announce races rather than participate in them. Shortly after that, he launched the Canadian Moto Show, a live online talk-radio show, as well as a magazine, with his good friend Kevin Lefebvre. Throughout the process of giving back to the motocross community while also reinventing himself, he maintained a position as a senior writer at Motocross Performance Magazine. In 2016, he was nominated for a Coast Mental Health Courage to Come Back award. He continues to reshape his life within the sport he loves, refusing to let any of the formidable obstacles he has faced slow him down. This book is Brent's firsthand account of his journey, written in all five senses, with the hope that his story will motivate and inspire others to see that any seemingly insurmountable obstacles can be overcome.

**Full speed ahead** Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2010-03-22 Motorsport and aerospace are two industries in which the United Kingdom is a world leader and the Committee believes that the future success of the UK economy will be based on these types of industries. Concerns regarding the aerospace included the current US complaint in the World Trade organisation and the Government's right to support the industry through Repayable Launch Investment; and that the UK aerospace sector has access to export trade credit at less favourable rates and through a more complex system than other countries. In examining the motorsport industry the Committee felt that there was a lack of understanding and effective engagement by Government. They are not content with the Government's current plans to take forward its work with the sector through the UK Automotive Council. Instead they recommend that the Government establish a dedicated motorsport policy team within the Department for Business, Innovation and Skills. Small and medium-sized enterprises also play a very important role in supporting both sectors but they have been hit worst by the recession and the Government needs to do more to encourage high performance engineering firms to diversify. Both sectors require a highly skilled workforce and more needs to be done to align the education system with the skills needs of the industries. Finally is the problem of the 'non-green' image that both industries have.
