*Pushing the Limits* Casey Stoner, 2013-10-24 Casey Stoner, the two-time World MotoGP champion, tells his own explosive story. Showing anything is possible when determination meets talent, two-time World MotoGP champion Casey Stoner shares his incredible journey from being a Queensland toddler with an extraordinary ability on a motorbike to his decision to retire at 27 with nothing left to prove. For the first time, he tells of his early family life, the development of his riding skills and why his parents decided to sell everything and travel from Australia to Europe to chase the dream and support his aim to become World Champion when he was only 14 years old. As fearless with his opinions as he is on the racetrack, Casey includes all the highs and lows of his life so far: the real reason he left for Europe so young, his thoughts on racing as it stands today, the riders' hierarchy, the politics of racing, the importance of family, his battle with illness and why he decided to turn his back on a multimillion-dollar contract when he was still winning. And he also lets us in on some of the new goals he has set for himself.

*Hutchy - Miracle Man* Ian Hutchinson, 2016-10-17 Ian Hutchinson - 'Hutchy' to his many thousands of fans - is a motorcycle racer like few others. A road racer to the core, he has enjoyed spectacular success, notably at the Isle of Man TT, but his own story goes far beyond even those triumphs. In the summer of 2010, Hutchy set the record for most wins in a single TT festival - five in all - having already won the Supersport class at the North West 200 in Northern Ireland. Then disaster struck. At a British Supersport round at Silverstone in September that year, he crashed heavily and was struck by another rider's machine, breaking his left leg so badly that at one stage it was feared it might have to be amputated. After many surgical operations and a long period of recovery, he fractured the same leg in 2012 while practising exhibition-riding for a motorcycle show. Yet not even these disasters could keep the Yorkshireman from racing. After modifications to the rear-brake and gear levers on his race machines, he went out and won the 2013 Macau Grand Prix. Two years later saw an even more staggering return to form, when he secured three wins, a second and a third place at the 2015 Isle of Man TT, also winning the Joey Dunlop TT Championship Trophy for that year. And 2016 was to prove even better. Honest, brave and quirkily amusing, Hutchy: Miracle Man presents Hutchy's own accounts and opinions with those of various celebrated figures from the world of motorcycle racing. It is a book not only for fans of road racing, but for anyone interested in the life and career of a brilliant rider and an extraordinarily brave and enduring man, justly popular not just for his achievements, but for his unassuming modesty, kindness and humour.

**Formula One: The Pinnacle** Tony Dodgins, Simon Arron, Guenther Steiner, 2022-05-10 As Lewis Hamilton, Max Verstappen and Charles Leclerc battle it out head-to-head in the most hotly contested championship in years, this in-depth book, with a foreword from Haas team principal Guenther Steiner, tells the story of how the sport evolved into the exhilarating high octane spectacle it is today. The new rules introduced in 2022 signal the greatest change to F1 in a generation, cracking the field wide open and seeing some of the most compelling and competitive races in the last 25 years. Technical changes aimed at levelling the playing field for the teams combined with the sport's tightening budget cap have made the races closer than ever. There will be more sprint races - trialled in 2021 - and greater fan interest driven by Netflix's hugely successful 'Drive to Survive' series. So, how did we get here? How did F1 become the acknowledged 'Pinnacle of Motorsport'? Simon Arron and Tony Dodgins have identified the 100 most significant changes to the series since its inception in 1950. Formula One is unrecognizable from its debut season, where drivers raced around on old bomber training aerodrome in Northamptonshire with oil drums to mark the corners and straw bales the only concession to safety. New fans will welcome a complete and highly illustrated guide to the history of F1, while older fans will be able to compare their own views of what were the pivotal moments of change, in a book written by experienced motoring writers with two lifetimes worth of knowledge of the sport. The book will link technical progress with the personalities involved, indeed many of the swiftest changes have come about as a result of accidents or tragedies - the death of Roland Ratzenberger at Imola in 1994, the same weekend as Ayrton Senna, could have been avoided by the HANS safety device. The introduction of the halo saved Romain Grosjean's life in Bahrain last year, but only came about because of the tragic accident that claimed Jules Bianchi in Japan. Along with changes to circuits and the technology of the cars, this book highlights the commercial changes and the controversies that threatened to split the sport apart - such as the threat of breakaway series proposed at various times by teams. A must-read for completists or for those new to the sport, F1: The Pinnacle is a fascinating insight into one of the most exciting and dangerous sports in the world.

**Ducati 1098/1198** Marc Cook, 2010 *Ducati 1098/1198: The Superbike Redefined* tells the story of the development of the most powerful and charismatic Ducati Superbikes from the perspective of the designers, stylists, engineers, and managers. Working with the full cooperation of Ducati management, author Marc Cook went behind the scenes at Ducati in Bologna and extensively interviewed designers, engineers, fabricators, and other personnel who describe the extraordinarily sophisticated and complex process of bringing out this new model.

**Motocourse** Dennis Noyes, 1999 This official history of the FIM Grand Prix motor cycle racing World Championship, since its formation in 1949, records the action from a sport that has seen massive changes during the last 50 years with Japanese manufacturers eclipsing their European rivals, purpose-built race circuits replacing true road courses and a reduction in the number of Grand Prix classes. In other respects it has enjoyed remarkable continuity, as motor cycle racing has remained the domain of the major manufacturers anxious to promote the awareness of their road machines. Contemporary Grand Prix designs are clearly descended from the bikes raced in the 1950s. This book traces the major trends and developments during the last 50 years and it profiles the legendary riders, teams and innovators that have dominated the sport during this period. Concluding the history is a comprehensive and detailed results section which provides an invaluable source of reference for any motor cycle enthusiast.

**Motocourse 2020-2021** Michael Scott, 2021-02-16 MOTOCOURSE 2020-2021 celebrates its 45th year of publication - and despite the World pandemic throwing the sport into chaos, what a year it was for motorcycle racing! In a thrilling MotoGP season, Marc Marquez and Honda were expected to be the dominant force once more, but an accident in the opening round saw him side-lined for much of the season and left him with but a slim chance of retaining his MotoGP crown. Other riders stepped up in his absence and shared out victories. Ducati's Andrea Dovizioso, and Yamaha's trio of Maverick Vinales, Fabio Quartararo and Franco Morbidelli all took to the top step of the podium. The emergence of KTM as a race winning machine saw both Brad Binder and Miguel Oliveira join the list of first time winners, in a close fought battle for supremacy throughout the whole of the MotoGP field. Once again, Valentino Rossi defied the years to remain at the sharp end of the grid, whilst the Suzuki pair of Alex Rins and Joan Mir both looked equally capable of adding to the list of winners in an enthralling contest for the title. Editor Michael Scott provides a no-holds-barred assessment of all the aspects of a compelling season's action. MOTOCOURSE alone has full coverage of the support classes, Moto2 and Moto3, where Italian riders Luca Marini, Estea Bastinanini, Marco Bezzecchi were contenders to clinch the Moto2 crown, whilst Albert Arenas, Ai Ogura and John McPhee hotly

disputed the Moto3 title. In World Superbikes, Kawasaki's dominance was challenged by Ducati's Scott Redding, with Jonathan Rea looking to retain his championship title for the sixth successive year, ahead of the chasing pack including Alvaro Bautista, Chaz Davies and Yamaha's Michael van der Mark. No book covers the motorcycle racing world in as much detail as MOTOCOURSE, which, in addition to the two major world series covers The World Supersport Championship, The British Superbike Championship and the AMA USA Superbike series. Incredible value for money, with 304 large-format pages, bursting with over 450 stunning colour photographs from the world's finest photographers, MOTOCOURSE covers it all. No wonder MOTOCOURSE is regarded worldwide as 'The Bible of Motorcycle Racing'.
