**The All-American Muscle Car** Joe Oldham,Jim

Wangers,Colin Comer,David Newhardt,Randy

Leffingwell,2017-05-22 The All-American Muscle Car provides the

ultimate hands-on history of the American Muscle car and where it is now -- Mustangs, Camaros, 'Cudas, Challengers, you name it. When John Z. DeLorean and his cadre of enthusiastic rule benders took it upon themselves to bolt Pontiac's hottest engine into a mid-sized Tempest, disobeying orders from the top of General Motors food chain, they created something that should not have been, and will never be again: the muscle car. The resulting GTO spearheaded a new breed of performance car aimed at a new breed of buyer: the baby boom generation, tens of millions of young customers entering the market each year. The All-American Muscle Car: The Rise, Fall and Resurrection of Detroit's Greatest Performance Cars tells the story of these brutal performance machines through the words of muscle-car icons like Jim Wangers, the man who marketed DeLorean's thuggish invention, Joe Oldham, a legendary automotive journalist who tested these cars when they first came off the production line, often via illegal street racing, and classic-car broker Colin Comer, who has been instrumental in restoring some of the most iconic (and valuable) muscle cars. Top muscle car experts like Randy Leffingwell and David Newhardt tell other facets of the muscle-car story, like the pony-car wars between the Mustang, Camaro, 'Cuda, and Challenger; the ultra-high performance dealer specials; and the rebirth of the modern muscle car. All told, this book provides the ultimate hands-on history of these most American of cars.

*Hot Rod Empire* Matt Stone, 2018-09-25 Hot Rod Empire details Robert E. Petersen's creation of Hot Rod Magazine in the 1940s and the Petersen Publishing empire that grew to the mainstream juggernaut we know today. The end of World War II marked the release of pent-up war-years energy and the desire to live. For many this meant indulging in long-denied purchases, like a new car. For another group, including young vets, it meant a return to car building and racing. Money, exciting new cars, and speed parts all flowed freely in post-war America. Robert

Petersen, a young SoCal-based photographer and Army Air Corps vet, noted the rapidly growing hot rod scene in and around Los Angeles. His first move was to organize the Los Angeles Hot Rod Exhibition in 1948. His second, and brilliant, move was to launch at the same event the first edition of Hot Rod magazine. From this launch pad, Petersen Publishing Company would grow to become the most influential enthusiast publisher in America. Petersen's magazines were rallying points for all aspects of the car, truck, and motorcycle hobbies, well as nurturing and promoting all aspects from car building to racing to show events. Hot Rod, Motor Trend, Car Craft, Motorcyclist, Off-Road and Four Wheel Drive and some 75 other enthusiast titles dominated magazine racks and provided substantial influence over transportation and numerous other hobbies. Hot Rod Empire celebrates the birth and explosive growth of the transportation hobby under Petersen's watch.

**365 Sports Cars You Must Drive** John Lamm, Steve Sutcliffe, Larry Edsall, James Mann, Kris Palmer, 2020-10-27 365 Sports Cars You Must Drive puts you in the driver's seat of a century's worth of sports car legends (and a few rather less legendary), each presented with a fun and informative profile and fact-and-spec box. It's the ultimate gearhead's bucket list and poses the challenge: How many have you driven? Whoever coined the phrase getting there is half the fun must have owned a sports car. And the wag who suggested that it's the journey not the destination? Probably driving a Lotus or MG at the time. From towering icons like Ferrari, Lamborghini, Porsche, and Corvette to everyman sportsters from Triumph, MG, Sunbeam, and Miata to oddballs like Crosley, Sabra, and DB, sports cars inspire passion and strong opinions as few other vehicles on the road can. In one beautiful book, long-time Road & Truck magazine chief photographer John Lamm, along with other top motoring contributors, gives the reader illustrated profiles of every sports car you've ever dreamed of driving! Now, imagine if you could

drive a different sports car—any sports car—every single day for a year. Which would you choose?

Rusted Muscle Steve Magnante, 2011 Seeing vintage muscle cars languishing in junkyards never fails to generate an emotional response. Whether it's the desire to rescue the car and bring it back to its former glory, the want to strip it of rare parts for resale, or the memory of a similar car from one's past, the image of a car built for speed that's been laid to waste draws and keeps one's attention. In Rusted Muscle, noted author Steve Magnante takes us on a tour across the country, sharing his most memorable imagery that he's collected. Acquired over years of travel, Magnante's images are stirring, but he also shares important information about the cars when describing them. He may share production numbers regarding a particular year, make and model, or de-code the pictured vehicle's VIN number or data plate to discover how it was equipped when new. In some cases, the cars pictured are quite rare, whereas others are much more pedestrian. This adds another dimension to the book beyond the stirring images. While other books have shared junkyard photography in the past, none have been focused purely on domestic muscle cars, and none have included the level of information acquired about the subject cars like Rusted Muscle does. Considering the immense popularity of muscle cars today, seeing a collection of well-researched derelict examples like this assures enthusiasts that plenty of entry-level fodder still exists. It encourages the reader to search for buried treasure, and pursue their own muscle car dreams.

The Complete Book of Classic Ford and Mercury Muscle Cars Donald Farr, 2018-05-01 More than Mustang and Cougar. Though the Mustang remains Ford's most famous muscle car, the company had been building muscle cars since it introduced the sleek Fairlane and Galaxie models with optional 390 cubic-inch big-block V-8 engines in 1961. These cars were part of Ford's Total Performance program, which tested cars in the crucible of

racing at drag strips, oval circuits, European rally events, and road courses, resulting in legendary muscle cars like the Shelby Mustang, Boss 302 and 429 Mustangs, Mercury Cougar, Cyclone GT, and Spoiler. *The Complete Book of Classic Ford and Mercury Muscle Cars* covers all of Ford Motor Company's high-performance muscle cars from the early 1960s to 1973. It's the bible of muscle every disciple of Ford performance needs.
