Motorworld Jeremy Clarkson,2004-05-27 Jeremy Clarkson invites us to Motorworld, his take on different cultures and the cars that they drive. There are ways and means of getting about that don't involve four wheels, but in this slice of vintage Clarkson, Jeremy isn't much interested in them. Back in 1996, he took himself off to twelve countries (okay, eleven - he goes to America twice) in search of the hows, whys and wherefores of different nationalities and their relationships with cars. There were a few questions he needed answers to: * Why, for instance, is it that Italians are more interested in looking good than looking where they are going? * Why do Indians crash a lot? * How can an Arab describe himself as 'not a rich man' with four of the world's most expensive cars in his drive? * And why have the otherwise neutral Swiss declared war on the car? From Cuba to Iceland, Australia to Vietnam, Japan to Texas, Jeremy Clarkson tells us of his adventures on and off four wheels as he seeks to discover just what it is that makes our motorworld tick over.

The Hupmobile Story Bill Cuthbert,2004

The E-M-F Company Anthony J Yanik,2001-08-01 This book tells the remarkable story of these three automotive giants and the impact they had on the American car industry. Everitt was instrumental in forming the extensive body building industry that characterized Detroit prior to World War II. Metzger established the first automotive dealership in Detroit, if not the country, and served as head of sales of Cadillac during its formative years. Flanders, a genius with machines, masterminded the tools of production for the first Model T.

Maxwell Motor and the Making of Chrysler Corporation Anthony J. Yanik,2009 A detailed history of Maxwell Motor Company, a medium-sized Detroit automaker that became the foundation of the Chrysler Corporation.

Motor Trials and Tribulations George Arthur Oliver,1993 In this book, George Oliver, a lifelong motoring enthusiast, photographer and illustrator of the motor car, tackles the strange story of motor car manufacture in Scotland. Starting in the earliest days with enterprising importers, he tells of innovative engineering, disputed patents, dubious investments, hard work and dedication. The scene shifts from modest workshops to grandiose purpose-built factories, from one end of Scotland to the other. But all enterprises had one thing in common - sooner or later they failed. In his controversial final chapter, the author gives his own considered view as to why they did.

Legendary Car Engines John Simister,2004 In *Legendary Car Engines*, John Simister expertly dissects twenty of the greatest powerplants. With photos by Automobile Magazine contributor Tim Andrew and illustrations by the late, great Bob Freeman, it looks as good as it reads. - Speed Reading Automobile Magazine, October 2004 This book examines the 20 best road-car engines ever: the most tuneful, the most beautiful, the most significant, the most highly-prized. A car's engine is its heart and its soul. It gives a car its voice and its muscle. Some engines do this so well they seem like living things. But which are they? The words reveal who designed them, and the how, when, and why, while Tim Andrews'

fabulous photography captures the familiar face and the hidden depths. Discover the engine's design features, and why they matter. Find out which is the world's most prolific engine, which began as a fire-pump, and which has components that are reversible. Discover things you never knew about engine technology. John Simister gets to the heart of these celebrated power plants and describes them as he might describe old friends. Only the master of his subject could handle so complex a subject with so light a touch.

The Jordan Automobile James H. Lackey, 2015-02-12 The subject of one of the great advertising campaigns of the early 20th century, the “Somewhere West of Laramie” ads, Jordan is a well-remembered marque despite its brief duration. Edward Stanlaw “Ned” Jordan was born November 21, 1882, in Merrill, Wisconsin, and worked as a journalist before finding work in the automobile industry. A pioneer of automobile advertising and sales who got his start with Thomas B. Jeffery and Company in 1907, he founded the Jordan Motor Car Company with fellow Jeffery employees Russell S. Begg as experimental engineer and Paul Zens as purchasing agent in 1916. This book is both a biography of Ned Jordan and a history of his company and its vehicles from its beginning in 1916 to its end on April 1, 1932, when non-payment of franchise taxes forced its dissolution. Jordan’s first models were four- and seven-passenger custom-type touring cars, but it would become famous for the Sport Marine, the Playboy, the Little Tomboy, and the Little Custom Jordan. Spectacularly illustrated.

The Life of the Automobile Steven Parissien, 2014-05-13 The Life of the Automobile is the first comprehensive world history of the car. The automobile has arguably shaped the modern era more profoundly than any other human invention, and author Steven Parissien examines the impact, development, and significance of the automobile over its turbulent and colorful 130-year history. Readers learn the grand and turbulent history of the motor car, from its earliest appearance in the 1880s—as little more than a powered quadricycle—and the innovations of the early pioneer carmakers. The author examines the advances of the interwar era, the Golden Age of the 1950s, and the iconic years of the 1960s to the decades of doubt and uncertainty following the oil crisis of 1973, the global mergers of the 1990s, the bailouts of the early twenty-first century, and the emergence of the electric car. This is not just a story of horsepower and performance but a tale of extraordinary people: of intuitive carmakers such as Karl Benz, Sir Henry Royce, Giovanni Agnelli (Fiat), André Citroën, and Louis Renault; of exceptionally gifted designers such as the eccentric, Ohio-born Chris Bangle (BMW); and of visionary industrialists such as Henry Ford, Ferdinand Porsche (the Volkswagen Beetle), and Gene Bordinat (the Ford Mustang), among numerous other game changers. Above all, this comprehensive history demonstrates how the epic story of the car mirrors the history of the modern era, from the brave hopes and soaring ambitions of the early twentieth century to the cynicism and ecological concerns of a century later. Bringing to life the flamboyant entrepreneurs, shrewd businessmen, and gifted engineers that worked behind the scenes to bring us horsepower and performance, The Life of the Automobile is a globe-spanning account of the auto industry that is sure to rev the engines of entrepreneurs and gearheads alike.

Car Crazy G. Wayne Miller, 2015-11-03 Before the Big Three, even before the Model T, the race for dominance in the American car market was fierce, fast, and sometimes farcical. Car Crazy takes readers back to the passionate and reckless years of the early automobile era, from 1893, when the first US-built auto was introduced, through 1908, when General Motors was founded and Ford's Model T went on the market. The motorcar was new, paved roads few, and devotees of this exciting and unregulated technology battled with citizens who considered the car a dangerous scourge, wrought by the wealthy, that was shattering a more peaceful way of life. Among the pioneering competitors were Ransom E. Olds, founder of Olds Motor Works and creator of a new company called REO; Olds' cutthroat new CEO Frederic L. Smith; William C. Billy Durant of Buick Motor Company (and soon General

Motors); and inventor Henry Ford. They shared a passion for innovation, both mechanical and entrepreneurial, but their maniacal pursuit of market share would also involve legal manipulation, vicious smear campaigns, and zany publicity stunts -- including a wild transcontinental car race that transfixed the public. Their war on wheels ultimately culminated in a courtroom battle that would shape the American car industry forever. Based on extensive original research, *Car Crazy* is a page-turning story of popular culture, business, and sport at the dawn of the twentieth century, filled with compelling, larger-than-life characters, each an American original.

Elcar and Pratt Automobiles William S. Locke, 2000-01-01 A surprisingly little-known marque today, Elcar once ranked among the finest vehicles on American roads. Built to exacting standards in Elkhart, Indiana, an Elcar could compete head-to-head on the basis of performance, quality, or price with the products of much larger manufacturers. Ultimately done in by weak distribution and the ravages of the Depression, Elcar today stands as an example of an ambitious company that transformed itself, successfully if temporarily, from a maker of buggies and harnesses into a respected car manufacturer in the early days of the automotive age. This remarkably exhaustive history, researched over several decades from all available sources, including interviews with former Elcar employees, details every Elcar model and the Pratt vehicles that preceded them, as well as the personalities behind the cars. Extensive appendices provide a complete model history, with specifications; a full corporate chronology; an illustrated accounting of all Elcars and Pratts known to survive whole or in part today; a roster of company employees; a descriptive list of all ads and brochures ever produced by the company; and a wealth of other data that can be found nowhere else. Lavishly illustrated and surpassingly thorough, this book is a well of information on a significant but forgotten line of automobiles.

The Chandler Automobile James H. Lackey, 2018-05-03 Incorporated by veteran automakers in 1913, the Chandler Motor Car Company was initially successful in a fiercely competitive industry, manufacturing an array of quality automobiles at a range of prices. Yet by the late 1920s the company was floundering under mismanagement. Producing four lines of cars with numerous body styles, Chandler and its lower-priced companion marque, Cleveland, were unable to find markets for their numerous models and seemed in effect to be competing against themselves. Drawing on numerous automotive histories and two large private collections of memorabilia, this exhaustive study of the Chandler Motor Car Company covers the automobiles in detail, including all body styles, and their changes during production. The author chronicles the growth, expansion and later troubles of Chandler and Cleveland, providing fresh insight into the formative years of the auto industry and the personalities who made it go.

Morgan 100 Years Charles Morgan, Charles Peter Henry Morgan, Gregory Houston Bowden, 2008 This wonderful book celebrates 100 years of Morgan cars, tracing the history of Britain's most prestigious motor company, the only car maker in the world to survive for a century under the ownership of its founding family. This incredibly successful marque boasts wonderfully loyal enthusiasts who lovingly restore older cars as well as continuing to support new development. Covering the Morgan story from 1909 to the present day and drawing on archive material from the Morgan factory in Worcestershire, where the cars are still lovingly handcrafted, *Morgan - 100 Years* also includes information on the development of the Aero 8, the first totally new car since 1936; Morgan's heroic Le Mans race campaigns; great stories from Morgan owners and the Morgan Company's vision for the future. Telling the story of this prestigious sports car manufacturer in a unique and entertaining style, *Morgan - 100 Years* is bound to delight all Morgan enthusiasts.
