**Rusch to Glory** Rebecca Rusch,Selene Yeager,2014-10-01 Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

**Solo Faces** James Salter,1988-06 With prose at once stark and lyrical, Salter elucidates the spirit of those who abandon material pursuits in search of an unspoiled honesty. He tells of one man's quest to rise above the mundane in search of peace and self-fulfillment.

**The World Beneath Their Feet** Scott Ellsworth,2020-02-18 Winner of the 2020 National Outdoor Book Award for Best History/Biography A saga of survival, technological innovation, and breathtaking human physical achievement -- all set against the backdrop of a world headed toward war -- that became one of the most compelling international dramas of the 20th century. As tension steadily rose between European powers in the 1930s, a different kind of battle was already raging across the Himalayas. Teams of mountaineers from Great Britain, Nazi Germany, and the United States were all competing to be the first to climb the world's highest peaks, including Mount Everest and K2. Unlike climbers today, they had few photographs or maps, no properly working oxygen systems, and they wore leather boots and cotton parkas. Amazingly, and against all odds, they soon went farther and higher than anyone could have imagined. And as they did, their story caught the world's attention. The climbers were mobbed at train stations, and were featured in movies and plays. James Hilton created the mythical land of Shangri-La in *Lost Horizon*, while an English eccentric named Maurice Wilson set out for Tibet in order to climb Mount Everest alone. And in the darkened corridors of the Third Reich, officials soon discovered the propaganda value of planting a Nazi flag on top of the world's highest mountains Set in London, New York, Germany, and in India, China, and Tibet, *The World Beneath Their Feet* is a story not only of climbing and mountain climbers, but also of passion and ambition, courage and folly, tradition and innovation, tragedy and triumph. Scott Ellsworth tells a rollicking, real-life adventure story that moves seamlessly from the streets of Manhattan to the footlights of the West End, deadly avalanches on Nanga Parbat, rioting in the Kashmir, and the wild mountain dreams of a New Zealand beekeeper named Edmund Hillary and a young Sherpa runaway called Tenzing Norgay. Climbing the Himalayas was the Greatest Generation's moonshot-one that was clouded by the onset of war and then, incredibly, fully accomplished. A gritty, fascinating history that promises to enrapture fans of Hampton Sides, Erik Larson, Jon Krakauer, and Laura Hillenbrand, *The World Beneath Their Feet* brings this forgotten story back to life.

*Ghosts of K2* Mick Conefrey,2016-05-05 K2 is almost 800ft shorter than Everest, yet it's a far harder climb. Many great mountaineers became obsessed with reaching its summit, not all of them lived to tell of their adventures. Capturing the depth of their obsession, the heart-stopping tension of the climb and delving into the controversy that still surrounds the first ascent, Mick Conefrey delivers the definitive account of the 'Savage Mountain'. From drug-addicted occultist Aleister Crowley to the brilliant but tortured expedition leader Charlie Houston and, later, the Italian duo who finally made it to the top, Conefrey resurrects the tragic heroes, eccentric dreamers and uncompromising rivalries forever instilled in K2's legacy. This is the riveting, groundbreaking story of the world's deadliest mountain.

**Above the Clouds** Kilian Jornet,2020-08-25 Kilian Jornet is the most dominating endurance athlete of his generation.—NEW YORK TIMES Inspiring and humbling— ALEX HONNOLD The most accomplished mountain runner of all time contemplates his record-breaking climbs of Mount Everest in this profound memoir—an intellectual and spiritual journey that moves from the earth's highest peak to the soul's deepest reaches. Kilian Jornet has broken nearly every mountaineering record in the world and twice been named National Geographic Adventurer of the Year. In 2018 he summited Mount Everest twice in one week—without the help of bottled oxygen or ropes. As he recounts a life spent studying and ascending the greatest peaks on earth, Jornet ruminates on what he has found in nature—simplicity, freedom, and spiritual joy—and offers a poetic yet clearheaded assessment of his relationship to the mountain . . . at times his opponent, at others, his greatest inspiration.

**One-Way Ticket** Jonathan Vaughters,2019-08-27 The new memoir tracing story of cycling since the 1980s, through the eyes of Jonathan Vaughters, founder of team Education First and one of the sport's most towering figures. Jonathan Vaughters' story is the story of modern cycling. From his early years as a keen cyclist in his hometown in Colorado to his unflinching rite of passage as a professional rider with US Postal to his elevation as one of cycling's most resilient, ethical and intelligent team bosses, the highs and lows of his career have mirrored those of the sport itself. Vaughters has had a front-row seat for most of the major events in cycling over the past three decades. He was both a former teammate of Lance and a leading witness against him. And he went on to renounce doping and start the first pro cycling team to dedicate itself to clean riding, which has grown into one of the most successful teams competing today and started a movement that has swept across the sport. This is also not simply a story of races won and lost: Vaughters shows readers how he navigated the complex, international business of building Slipstream into a world-class cycling team. Over the past decade, he has led the sport out of the scandal-plagued Armstrong era. By presenting the world with a team made of talented racers built around a rigorous approach to clean racing, he set a new standard within cycling that has since spread across the peloton. Written from the unique perspective of both a racer and a team manager, *One-Way Ticket* gives the complete story of what it takes to build a winning team and repair the reputation of a sport.

**Into the Clouds: The Race to Climb the World's Most Dangerous Mountain (Scholastic Focus)** Tod Olson,2020-04-21 A nail-biting tale of survival and brotherhood atop one of the world's most dangerous mountains. This fast-paced, three-part narrative takes readers on three expeditions over 15 years to K2, one of the deadliest mountains on Earth. Roped together, these teams of men face perilously high altitudes and battering storms in hopes of reaching the summit. As each expedition sets out, they carve new paths along icy slopes and unforgiving rock, creating camps on ledges so narrow they fear turning over in their sleep. But disaster strikes -- in 1939, four men never make it down

the mountain. Fourteen years later, a man develops blood clots in his legs at 25,000 feet, leaving his team with no safe path off the mountain. Filled with displays of incredible strength and heart-stopping danger, *Into the Clouds* tells the incredible stories of the men whose quest to conquer a mountain became a battle to survive the descent.

**Mountain Bike Like a Champion** Ned Overend,1999-08-27 A legendary mountain biking champion offers practical instructions, accompanied by entertaining anecdotes and reminiscences, on the essential techniques, skills, and tactics of mountain biking, offering tips on safety, developing a training program, equipment, and more. Original. 20,000 first printing.

**Uniontown Hill Climb Program 1915** Marci Lynn McGuinness,2013-10 Forty pages of action with times filled in. The Summit Mountain Hill Climbs of Uniontown, Pennsylvania ran three miles from Hopwood to the top of Summit Mountain. This 1915 program takes you to the mountain with 25,000 onlookers and Indy 500 winner Ralph DePalma. The original program was donated to author, Marci McGuinness, by Gary Cooper of Charleroi, PA. A year after this pro race, coal, auto and film barons joined famed driver (beat DePalma!), Charlie Johnson to build the fastest board track in America, the Uniontown Speedway. Some of the 1915 Summit Mt. Hill Climb Drivers: Denny Hickey - Metz A.D. Spencer - Buick Ralph DePalma - Mercedes Charlie Johnson - Packard Guy Woodward - Ford Joe Dawson - Marmon I.P. Fetterman - Simplex Joe Boyce - Hispanosuiza

**Mountain Climber** Bill Katra,2020-02-11 Nearing his sixth decade as a dedicated climber, William Bill Katra describes himself as not a great climber, but a persistent one. In his memoir, the author details his climbs in vivid detail, describing some of the world's most popular routes while emphasizing that scenic beauty is as important to a hike as technical difficulty. From his early partner-belayed adventures to his more recent unassisted solo scamper-climbs, Bill's techniques have evolved, but his love for the experience remains steadfast. Within recent years, Bill has again summited a few climbs from his younger days, often reflecting on where senior climbers fit in the sport's changing social--and environmental--landscape. This memoir is a relatable and nostalgic account of a life well-spent in nature, as the author muses on his long-past adventures enriched and nurtured by the wisdom of the present.

**Vignettes on the Life Side** Michael Williams,2020-10-29 This is the seventh book in Michael Williams' Adventures with Michael series that recaps events during his life. This book is different from other books in the series because it provides vignettes on various situations Michael has encountered. Included are vignettes from Michael's time in the army which has scenes and humor similar to the movie and television series M.A.S.H. It also reviews some of the difficult aspects all Americans faced during the Vietnam War. The section on running races in Riyadh provides descriptions of racing in the desert and the effects of some unusual circumstances not typically encountered in U.S. road racing. The section on mountain climbing describes 12 experiences. Some of the challenges faced - such as falling in a crevasse or being abandoned on a mountain - provide insights into what it is like to attempt to climb mountains for someone who is a professional economist and not a professional mountaineer. This book is personal as you get a sense of the manner in which Michael responded to various challenges. Michael has been keeping a daily journal since 1980 and the specifics for his racing and mountain climbing vignettes come directly from these journals.

**Climbers** Peter Cossins,2022-06-23 When, during the Pyrenean stages of the 1998 Tour de France, a journalist asked Marco Pantani why he rode so fast in the mountains, the elfin Italian, unmistakeable in the bandanna and hooped ear-rings that played up to his Pirate nickname, replied: To shorten my agony. Drawing on the fervour for these men of the mountains, Climbers looks at what sets these athletes apart within the world of bike racing, about why we love and cherish them, how they make cycling beautiful, and how they see themselves and the feats they achieve. Working chronologically, Peter Cossins explores the evolution of mountain-climbing. He offers a comprehensive view of the sport, combining contemporary reports with fresh one-to-one interviews with high-profile riders from the last 50 years, such as Cyrille Guimard, Hennie Kuiper and Andy Schleck. And, unlike many other cycling books, Climbers also includes the stories of female racers across the world, from Ashleigh Moolman-Pasio and Annemiek van Vleuten to Fabiana Luperini and Amanda Spratt. Climbers analyses the personalities of these racers, highlighting the individuality of climbing as an exercise and the fundamental fact that it's a solitary challenge undertaken in relentlessly unforgiving terrain that requires unremitting effort. Captivating and iconic, Climbers is the ultimate cycling book to understand what it takes both physically and mentally to take on the sport's hardest stages.

**The First-Timer's Guide to the Leadville 100** Bud Hasert,2015-12-07 After 20 years of talking about it, life-long friends Bud Hasert and Joel Hinkhouse finally qualified for, trained for, raced in and completed the 2015 Leadville Trail 100 MTB, an epic 100-mile mountain bike race at 10,000 feet in Leadville, Colorado. But their path was not without their fair share of mistakes, setbacks, successes and failures. In this book, you will see how these two Texans aspired, planned, prepared, and finished the Race Across The Sky. It is not a training plan. Instead, this book is meant to inspire you to prepare to climb YOUR OWN Leadville, whether it's actually Leadville or not. Much of what is shared will dissolve some of the unknowns about America's premier mountain bike race. Questions that they had in their preparation and on race day are answered here. These stories will encourage you to follow your passion toward its peak. And once you get to that peak, keep climbing!

**Mountains in My Heart** Gerlinde Kaltenbrunner,2014-05-21 • First woman—and only the fourth climber ever—to summit all fourteen 8,000-meter peaks without supplemental oxygen or high-altitude porters • Though the two climbers are friends, Kaltenbrunner's path to high places has been very different from Edurne Pasaban's record-breaking feat • Positive, uplifting account of a remarkable athlete Effusive, charismatic, tough, Gerlinde Kaltenbrunner is one of the world's most successful high-altitude mountaineers and the first woman to climb all fourteen 8,000-meter peaks without supplemental oxygen—and she also eschews high-altitude porters. Mountains in My Heart covers her early years learning to climb in Austria, her personal life, her training as an oncology nurse, and her ever-present passion for mountains, especially the Himalaya. Her love of being in the mountains shines through in her writing: For Gerlinde the important thing was not the race to be the first woman to climb the 8,000-meter peaks, but rather to experience the mountains and climb them in her self-sufficient style. Self-sufficiency did not, however, mean climbing without her husband, Ralf Dujmovits; in 2009, Lhotse became her twelfth and his fourteenth 8,000-meter peak! Kaltenbrunner shares the challenges, dangers, and euphoria of her high-altitude climbs, detailing medical emergencies and her own feelings about being high in the mountains. Her writing is honest, captivating, and unrestrained.

**The Totem Pole** Paul Pritchard,2020-08-01 Mountain climbing defined Paul Pritchard's existence and signposted his horizons. One of the leading climbers of the 1980s and 1990s, his adventures took him from his Snowdonia base to the Himalaya, from the Karakoram to Patagonia, from Baffin Island to the Pamirs. Winning the Boardman Tasker Award for Mountain Literature in 1997 with his book *Deep Play* allowed him a life dedicated to climbing. Paul spent the prize money on a round-the-world climbing tour, which eventually found him in Tasmania attempting the most slender sea stack on the planet, the Totem Pole. On Friday 13 February 1998, Paul's life was changed irrevocably by a TV-sized boulder which fell from this sea stack and struck him on the head. He spent the next years fighting the hemiplegia which paralysed the right side of his body, and caused such a terrible brain injury that doctors thought he might never walk or speak again. Over the following year, Paul began to collect his experiences – from the panic of the ten-hour rescue to the triumph of regaining abilities previously thought lost – and, using only one finger, he punched them into his computer, one letter at a time. The result is *The Totem Pole*. The first book to win both the Boardman Tasker Award for Mountain Literature and the Banff Mountain Book Festival Grand Prize, *The Totem*

Pole is a sobering and painful story which embodies the resilience that has characterised Paul's life, but it is also funny and ultimately uplifting – a must-read for climbers and non-climbers alike.

*Extreme Eiger* Peter Gillman,Leni Gillman,2016-02-16 •The classic story of a notorious climb, now revised, updated, and expanded by the original author with new information •Literally a race to ascend Europe’s most formidable mountain wall—Brits and Americans versus Germans The North Face of the Eiger was long renowned as the most dangerous climb in the Swiss Alps, one that had cost the lives of numerous skilled mountaineers. In February 1966, two teams—one German, the other British/American—aimed to climb it in a straight line from bottom to top. Astonishingly, the two teams knew almost nothing about each other's attempt until both arrived at the foot of the face. The race was on. The Anglo-American team of John Harlin, Layton Kor, and Dougal Haston intended to make a dash to the summit when conditions were right. The Germans, with an eight-man team and a mass of equipment, planned a slow, relentless ascent. Watching all was a young journalist, Peter Gillman. Now, fifty years later, Gillman recalls the dramatic events on the North Face, and assesses their effect on those who took part. The charismatic and controversial American climber John Harlin was killed before the summit was reached, while others were permanently injured through frostbite. For British photographer Chris Bonington, who was sucked into the action, it opened a path to a career and reputation as Britain's foremost mountaineer. “It was incredibly challenging and probably some of the hardest climbing done in the Alps to that time,” remembers Bonington. “Being involved was absolutely fantastic. There’s never been anything like it for me, before or since.” This title is part of our LEGENDS AND LORE series. Click here > to learn more.

**Optimum Drive** Paul F. Gerrard,2017-04-18 A champion racer and professional stunt driver reveals the secrets of peak performance in any endeavor. Optimum Drive is the complete step-by-step guide to maximizing human performance. As a professional racing driver and a driving coach for over twenty years, Paul F. Gerrard gives you his unique perspective on what causes people to stagnate with the idea of being merely good, when each of us has the potential to be great. Gerrard believes that peak performance is within our grasp. Gerrard helps you understand the mental toughness that it takes to reach that greatness. He starts off by taking you onto the track as he explores what driving at 200 mph can teach us about who we are. Using his experiences from behind the wheel at death-defying speeds, Gerrard breaks down the psychology of driving, what it takes, and how we can use it to achieve greatness in life. The key, he says, is the nirvana-like sensation of flow psychology, or being in the zone—a mental state in which one who is performing an activity is fully immersed in a feeling of energized focus, full involvement, and joy. It is through flow psychology that Gerrard introduces a blend of holistic mindset combined with a competitive edge, which is essential to successful professional driving. This mix of guts, tenacity, and endurance is the foundation of Gerrard’s philosophy for attaining greatness—and can be put to work for you too, on or off the track.

*World Beneath Their Feet* Scott Ellsworth,2020-02 One of the most compelling international dramas of the 20th century and an unforgettable saga of survival, technological innovation, and breathtaking human physical achievement-all set against the backdrop of a world headed toward war.While tension steadily rose between European powers in the 1930s, a different kind of battle was raging across the Himalayas. Contingents from Great Britain, Nazi Germany, and the United States had set up rival camps at the base of the mountains, all hoping to become recognized as the fastest, strongest, and bravest climbers in the world.Carried on across nearly the entire sweep of the Himalayas, this contest involved not only the greatest mountain climbers of the era, but statesmen and millionaires, world-class athletes and bona fide eccentrics, scientists and generals, obscure villagers and national heroes. Centered in the 1930s, with one brief, shining postwar coda, the contest was a struggle between hidebound traditionalists and unknown innovators, one that featured new techniques and equipment, unbelievable courage and physical achievement, and unparalleled valor. And death. One Himalayan peak alone, Nanga Parbat in Kashmir, claimed twenty-five lives in less than three years.Climbing the Himalayas was the Greatest Generation's moonshot--one shrouded in the onset of war, interrupted by it, and then fully accomplished. A gritty, fascinating history that promises to enrapture fans of Hampton Side, Jon Krakauer, and Laura Hillenbrand, THE WORLD BENEATH THEIR FEET brings this forgotten story back to life.

*The Cordillera - Volume 8* Christopher Bennett,2017-01-25 Each June the world's toughest mountain bike race is held. Covering over 2,650 miles with over 170,000 feet of climbing, the race course follows dirt roads, muddy tracks and snow covered mountains along the Continental Divide from Banff Canada to the Mexican border at Antelope Wells New Mexico. This is the Tour Divide, a unique race where the clock never stops and outside support is forbidden. It is the rider and their bike against the elements-and the internal demons. The Cordillera is the journal of the Tour Divide. 2016 saw the first ever sub-14 day ride. There was an unprecedented number of animal encounters. The weather was torrid. The Cordillera Volume 8 shares the stories of the successes, and challenges, of the 2016 Tour Divide. It shares the experiences of athletes plumbing the depths of endurance, in the transformational experience that is the Tour Divide.

**Climbing the Mountain** Allan Moffat,2017 Told for the first time in his own words, this is the gripping inside story of Allan Moffat, an Australian motor sport legend.
