Good Nights Out Aleks Sierz,2019-12-12 London's West End is a global success story, staging phenomenal hit shows that have delighted millions of spectators and generated billions of pounds in revenue. In Good Nights Out, Aleks Sierz provides a thematic survey of such popular theatre shows that were enormous commercial successes over the past 75 years. He argues that these outstanding hits have a lot to say about the collective cultural, social and political attitudes and aspirations of the country, and about how our national identity - and theatre's role in creating it - has evolved over the decades. The book spans

a range of work from almost forgotten plays, such as R. F. Delderfield's Worm's Eye View and Hugh Hastings's Seagulls Over Sorrento, to well-known mega-hits, such as The Mousetrap and The Phantom of the Opera. Such popular work has tended to be undervalued by some critics and commentators mainly because it has not been thought to be a suitable subject for inclusion in the canon of English Literature. By contrast, Sierz demonstrates that genres such as the British musical, light comedy, sex farce or murder mystery are worth appreciating not only for their intrinsic theatrical qualities, but also as examples of the dream life of the British people. The book challenges the idea that mega-hits are merely escapist entertainments and instead shows how they contribute to the creation of powerful myths about our national life. The analysis of such shows also points towards the possibility of creating an alternative history of postwar British theatre.

  <u>Horror Dogs</u> Brian Patrick Duggan,2023-07-31 How did beloved movie dogs become man-killers like Cujo and his cinematic pack-mates? For the first time, here is the fascinating history of canines in horror movies and why our best friends were (and are still) painted as malevolent. Stretching back into Classical mythology, treacherous hounds are found only sporadically in art and literature until the appearance of cinema's first horror dog, Sherlock Holmes' Hound of the Baskervilles. The story intensifies through World War II's K-9 Corps to the 1970s animal horror films, which broke social taboos about the good dog on screen and

deliberately vilified certain breeds--sometimes even fluffy lapdogs. With behind-the-scenes insights from writers, directors, actors, and dog trainers, here are the flickering hounds of silent films through talkies and Technicolor, to the latest computer-generated brutes--the supernatural, rabid, laboratory-made, alien, feral, and trained killers. Cave Canem (Beware the Dog)--or as one seminal film warned, They're not pets anymore.

  A History of American Movies Paul Monaco,2023-06-14 In A History of American Movies: A Film-by-Film Look at the Art, Craft and Business of Cinema, Paul Monaco provides a survey of the narrative feature film from the 1920s to the present. By focusing on a select group of films that represent the epitome of these collaborations, Monaco provides an essential history of one of the modern world's most complex and successful cultural institutions: Hollywood. Divided into three sections, Classic Hollywood, 1927-1948, Hollywood In Transition, 1949-1974, and The New Hollywood, 1975 To The Present, Monaco examines some of the most memorable works in cinematic history, including The General, Wings, Bringing Up Baby, Gone with the Wind, Citizen Kane, Casablanca, On the Waterfront, The Searchers, Psycho, West Side Story, The Godfat

  Hollywood's Embassies Ross Melnick,2022-04-26 Winner - 2022 Richard Wall Memorial Award, Theatre Library Association Beginning in the 1920s, audiences around the globe were seduced not only by Hollywood films but also by lavish movie theaters that were owned and operated by the major American film companies. These theaters aimed to

provide a quintessentially "American" experience. Outfitted with American technology and accoutrements, they allowed local audiences to watch American films in an American-owned cinema in a distinctly American way. In a history that stretches from Buenos Aires and Tokyo to Johannesburg and Cairo, Ross Melnick considers these movie houses as cultural embassies. He examines how the exhibition of Hollywood films became a constant flow of political and consumerist messaging, selling American ideas, products, and power, especially during fractious eras. Melnick demonstrates that while Hollywood's marketing of luxury and consumption often struck a chord with local audiences, it was also frequently tone-deaf to new social, cultural, racial, and political movements. He argues that the story of Hollywood's global cinemas is not a simple narrative of cultural and industrial indoctrination and colonization. Instead, it is one of negotiation, booms and busts, successes and failures, adoptions and rejections, and a precursor to later conflicts over the spread of American consumer culture. A truly global account, Hollywood's Embassies shows how the entanglement of worldwide movie theaters with American empire offers a new way of understanding film history and the history of U.S. soft power.

  Voice and Vision: A Creative Approach to Narrative Film and DV Production Mick Hurbis-Cherrier,2007-03-13 Voice & Vision is a comprehensive manual for the independent filmmakers and film students who want a solid grounding in the tools, techniques, and processes of narrative film in order to achieve their artistic vision. This book includes essential and detailed information on relevant film and digital video tools, a thorough overview of the filmmaking stages, and the aesthetic considerations for telling a visual story. The ultimate goal of this book is to help you develop your creative voice

while acquiring the solid practical skills and confidence to use it. Unlike many books that privilege raw technical information or the line-producing aspects of production, Voice & Vision places creativity, visual expression, and cinematic ideas front and center. After all, every practical decision a filmmaker makes, like choosing a location, an actor, a film stock, a focal length, a lighting set-up, an edit point, or a sound effect is also an expressive one and should serve the filmmaker's vision. Every decision, from the largest conceptual choices to the smallest practical solutions, has a profound impact on what appears on the screen and how it moves an audience. In Practice sidebars throughout Voice & Vision connect conceptual, aesthetic and technical issues to their application in the real world. Some provide a brief analysis of a scene or technique from easily rentable films which illustrate how a specific technology or process is used to support a conceptual, narrative, or aesthetic choice. Others recount common production challenges encountered on real student and professional shoots which will inspire you to be innovative and resourceful when you are solving your own filmmaking challenges.

How to Make Movies Kevin J. Lindenmuth,2013-02-07 The success of low-budget independent films like The Blair Witch Project and Paranormal Activity have clearly demonstrated that successful movies can be made with very small budgets. Still, working on a tight budget requires both skill and ingenuity, and is an inevitable and continuous learning experience for the filmmaker.

Join two dozen truly independent filmmakers—those used to working, and delivering, within extreme limitations—as they bluntly chronicle their experiences creating features "from the trenches." They cover the major stages of the filmmaking process, from financing, technical decisions, and handling actors and crew to music, production, and distribution. With loads of practical advice, actual case studies, and many behind-the-scenes photographs, this collection of war stories from the micro-budget front lines will benefit aspiring and experienced independent filmmakers alike.

American Ethnographic Film and Personal Documentary Scott MacDonald,2013-06-04 American Ethnographic Film and Personal Documentary is a critical history of American filmmakers crucial to the development of ethnographic film and personal documentary. The Boston and Cambridge area is notable for nurturing these approaches to documentary film via institutions such as the MIT Film Section and the Film Study Center, the Carpenter Center and the Visual and Environmental Studies Department at Harvard. Scott MacDonald uses pragmatismÕs focus on empirical experience as a basis for measuring the groundbreaking achievements of such influential filmmakers as John Marshall, Robert Gardner, Timothy Asch, Ed Pincus, Miriam Weinstein, Alfred Guzzetti, Ross McElwee, Robb Moss, Nina Davenport, Steve Ascher and Jeanne Jordan, Michel Negroponte, John Gianvito, Alexander Olch, Amie Siegel, Ilisa Barbash, and Lucien Castaing-Taylor. By exploring the cinematic, personal, and professional relationships between these accomplished

filmmakers, MacDonald shows how a pioneering, engaged, and uniquely cosmopolitan approach to documentary developed over the past half century.

Kevin Kearney Brody T. Lorraine,2007-09-17 Kevin Kearney-Audio Artist, Sound Designer, Location Sound Recordist follows the growth of television, television commercial production and filmmaking in Australia. The extremely small population of Australia up to the seventies allowed a major crossover in the arts between poets, musicians, writers, experimental filmmakers and entrepreneurs which in turn influenced the work of audio artists, like Kearney, in both their commercial and personal film work. Moreover because there is a paucity of information and very few books available on such people as audio artists, sound designers and location sound recordists, this book and the following volume will be invaluable to those interested in analogue sound on film production period.

A Cinema Without Walls Timothy Corrigan,1991 Corrigan argues that in the past 25 years the increased conglomerization of film production/distribution companies and the rise of VCR, satellite, and cable television technologies have altered the way films are made and how we

view them. The result is a growing internationalization of national cinema cultures and an increasing fragmentation of the audience. Video has reduced the movie to private and domestic performance. At the same time, audiences are bombarded with a surfeit of images that leaves them with a battered sense of their place in history and culture. Corrigan notes that, combined with what many critics have recognized as the growing incoherence in film texts, these facts make it more meaningful to discuss films not as texts but as multiple cultural and commercial processes constructed by increasingly specialized audiences. ISBN 0-8135-1667-6: $36.00.

  Conversations at the American Film Institute with the Great Moviemakers George Stevens, Jr.,2014-01-28 A rich companion volume to George Stevens, Jr.'s much admired book of American Film Institute seminars with the pioneering moviemakers of Hollywood's Golden Age, this time with a focus on filmmakers of the 1950s to present day. The Next Generation brings together conversations with moviemakers at work from the 1950s—during the studios' decline—to today's Hollywood. Directors, producers, writers, actors, cinematographers, composers, film editors, and independent filmmakers appear within these pages, including Steven Spielberg, Nora Ephron, George Lucas, Sidney Poitier, Meryl Streep, David Lynch, Darren Aronofsky, and more. We see how the filmmakers of today and those of Hollywood's Golden Age face the same challenges of both art and craft—to tell compelling stories on the screen. And we see the ways in which actors and directors work together, how each director has his or her own approach, and how they share techniques and theories.

  When Movies Mattered Dave Kehr,2011-04-15 If you have ever wanted to dig around in the archives for that perfect Sunday afternoon DVD and first turned to a witty weekly column in the New York Times,

then you are already familiar with one of our nation's premier film critics. If you love movies—and the writers who engage them—and just happen to have followed two of the highest circulating daily papers in the country, then you probably recognize the name of the intellectually dazzling writer who has been penning pieces on American and foreign films for over thirty years. And if you called the City of the Big Shoulders home in the 1970s or 1980s and relied on those trenchant, incisive reviews from the Chicago Reader and the Chicago Tribune to guide your moviegoing delight, then you know Dave Kehr. When Movies Mattered presents a wide-ranging and illuminating selection of Kehr's criticism from the Reader—most of which is reprinted here for the first time—including insightful discussions of film history and his controversial Top Ten lists. Long heralded by his peers for both his deep knowledge and incisive style, Kehr developed his approach to writing about film from the auteur criticism popular in the '70s. Though Kehr's criticism has never lost its intellectual edge, it's still easily accessible to anyone who truly cares about movies. Never watered down and always razor sharp, it goes beyond wry observations to an acute examination of the particular stylistic qualities that define the work of individual directors and determine the meaning of individual films. From current releases to important revivals, from classical Hollywood to foreign fare, Kehr has kept us spellbound with his insightful critical commentaries. When Movies Mattered will secure his place among our very best

writers about all things cinematic.
