Dorothea Link

Words about Mozart Stanley Sadie, Dorothea Link, Judith Nagley, 2005 Published as a tribute to the late Stanley Sadie, these eleven essays look at compositional and performance matters, consider new archival research and provide an overview of work since the bicentenary in 1991.

*From Mozart to the Med... a New Life Afloat* Malcolm Nabarro, 2008-01-01 From Mozart to the Med ... a new life afloat. Malcolm and Janet Nabarro are musicians who for a major part of their working lives performed with the professional orchestra Malcolm established in 1982. After resigning their positions in the mid 90's their search for a new direction led to the idea of buying a boat and sailing off into a new life. A classic twin engined cruiser, eventually purchased and re-named Starry Vere, was their first boat. The purchase, a time of both doubt and excitement, led them to embark on an eventful steep learning curve as they moved from a life musical to one nautical. Mistakes and near-misses are matched by triumph, satisfaction and sheer joy, culminating in their adventure where they leave British shores and head for France as full-time live-a-boards. Their voyage is more than just geographical. It's a time of healing, reconciling, of growing and enriching. Most of all it's a story of learning to live again.

**Mozart's Starling** Lyanda Lynn Haupt, 2017-04-04 On May 27th, 1784, Wolfgang Amadeus Mozart met a flirtatious little starling in a Viennese shop who sang an improvised version of the theme from his Piano Concerto no. 17 in G major. Sensing a kindred spirit in the plucky young bird, Mozart bought him and took him home to be a family pet. For three years, the starling lived with Mozart, influencing his work and serving as his companion, distraction, consolation, and muse. Two centuries later, starlings are reviled by even the most compassionate conservationists. A nonnative, invasive species, they invade sensitive habitats, outcompete local birds for nest sites and food, and decimate crops. A seasoned birder and naturalist, Lyanda Lynn Haupt is well versed in the difficult and often strained relationships these birds have with other species and the environment. But after rescuing a baby starling of her own, Haupt found herself enchanted by the same intelligence and playful spirit that had so charmed her favorite composer. In *Mozart's Starling*, Haupt explores the unlikely and remarkable bond between one of history's most cherished composers and one of earth's most common birds. The intertwined stories of Mozart's beloved pet and Haupt's own starling provide an unexpected window into human-animal friendships, music, the secret world of starlings, and the nature of creative inspiration. A blend of natural history, biography, and memoir, *Mozart's Starling* is a tour de force that awakens a surprising new awareness of our place in the world.

**The Italian Opera Singers in Mozart's Vienna** Dorothea Link, 2022-11-22 Dorothea Link examines singers' voices and casting practices in late eighteenth-century Italian opera as exemplified in Vienna's court opera from 1783 to 1791. The investigation into the singers' voices proceeds on two levels: understanding the performers in terms of the vocal-dramatic categories employed in opera at the time; and creating vocal profiles for the principal singers from the music composed expressly for them. In addition, Link contextualizes the singers within the company in order to expose the court opera's casting practices. Authoritative and insightful, *The Italian Opera Singers in Mozart's Vienna* offers a singular look at a musical milieu and a key to addressing the performance-practice problem of how to cast the Mozart roles today.

*Mozart and the English Connection* John Jenkins, 1998 This volume explores Mozart's relationship with England and the English. His residence in London from 1764-65 and his exposure to the musical scene which greeted him is described in detail. His performances, his compositions and his life in London are all recounted. The text tells how, during his subsequent visit to Italy, he encountered many famous English diplomats, expatriates, and those on the Grand Tour. The final part of the text describes the posthumous visit of the English admirers, Vincent and Mary Novello, to Mozart's surviving relatives and friends, and charts England's response to his music from his death to the present day.

**Mozart in the Garden: Silicon Valley and Me. We Grew Up Together** Tom Liggett, 2020-01-03 From the Ashes of Fruit Trees Grew Today's Silicon Valley Thousands of cookie-cutter homes for high-tech workers sprouted from the funeral pyres of a vanishing way of life as acres of lush fruit trees were bulldozed and burned to create today's Silicon Valley. One of the children who grew up in this new suburbia in San Jose, California, was Tom Liggett, a neglected, unwanted child of dysfunctional (that's being kind) parents, who befriended the witch who lived in the Spanish cottage on the hill. Their unlikely friendship and Tom's adventures are told in this unforgettable memoir. It's a tale of lost dreams, boyhood innocence, and two remarkable characters in midcentury California history. BONUS story A stunning story-within-a-story recounts the life and times of Faye Wolfe, the last first-person account of a survivor of the Galveston hurricane in 1900, the San Francisco earthquake in 1906, and her connection to the Spanish-style architecture of the region and the sordid history of Silicon Valley-long before it was ever Silicon Valley-as told to an eleven-year-old boy in this, his coming-of-age memoir. Tom Liggett is one of the world's foremost experts on roses. He founded the San Jose Heritage Rose Garden, the second largest public rose garden in the world. This memoir is his third book.

**What About Mozart? What About Murder?** Howard S. Becker, 2014-08-22 In 1963, Howard S. Becker gave a lecture about deviance, challenging the then-conventional definition that deviance was inherently criminal and abnormal and arguing that instead, deviance was better understood as a function of labeling. At the end of his lecture, a distinguished colleague standing at the back of the room, puffing a cigar, looked at Becker quizzically and asked, "What about murder? Isn't that really deviant?" It sounded like Becker had been backed into a corner. Becker, however, wasn't defeated! Reasonable people, he countered, differ over whether certain killings are murder or justified homicide, and these differences vary depending on what kinds of people did the killing. In *What About Mozart? What About Murder?*, Becker uses this example, along with many others, to demonstrate the different ways to study society, one that uses carefully investigated, specific cases and another that relies on speculation and on what he calls "killer questions," aimed at taking down an opponent by citing invented cases. Becker draws on a lifetime of sociological research and wisdom to show, in helpful detail, how to use a variety of kinds of cases to build sociological knowledge. With his trademark conversational flair and informal, personal perspective Becker provides a guide that researchers can use to produce general sociological knowledge through case studies. He champions research that has enough data to go beyond guesswork and urges researchers to avoid what he calls "skeleton cases," which use fictional stories that pose as scientific evidence. Using his long career as a backdrop, Becker delivers a winning book that will surely change the way scholars in many fields approach their research.

*Life Of Mozart (Volume 2 of 3)* Otto Jahn, 2015-07-12 *Life Of Mozart (Volume 2 of 3)* MOZART and his mother left Mannheim on March 14, and arrived in Paris on the 23rd, after a journey of nine days and a-half. We thought we should never get through it, writes Wolfgang (March 24, 1778), and I never in my life was so tired. You can imagine what it was to leave Mannheim and all our dear, good friends there, and to be obliged to exist for ten days without a single soul even to speak to. God be praised, however, we are now at our journey's end. I am in hopes that, with His help, all will go well. To-day we mean to take a fiacre and go to call on Grimm and Wendling. Early to-morrow I shall go to the Electoral Minister Herr von Sickingen, who is a great connoisseur and lover of music, and to whom I have letters of introduction from Herr von Gemmingen and Herr Cannabich. L. Mozart was full of hope concerning this visit to Paris, and believed that Wolfgang could not fail to gain fame and, as a consequence, money in the

French capital. He remembered the brilliant reception which had been given to him and his children fourteen years before, and he was convinced that a like support would be accorded to the youth who had fulfilled his early promise to a degree that to an intelligent observer must appear even more wonderful than his precocious performances as a child. He counted upon the support and assistance of many distinguished and influential persons, whose favour they had already experienced, and more especially on the tried friendship of Grimm, who had formerly given them the benefit of all his knowledge and power, and with whom they had continued in connection ever since. Grimm had lately passed through Salzburg with two FRENCH OPERA. friends, and was pleased to hear his Amadeo, as he called Wolfgang. He chanced to arrive at Augsburg on the evening of Wolfgang's concert there, and was present at it without making himself known, since he was in haste, and had heard that Wolfgang was on his way to Paris. L. Mozart, who placed great confidence in Grimm's friendship and experience, had made no secret to him of his precarious position in Salzburg, and of how greatly Wolfgang was in need of support; he commended his son entirely to Grimm's favour (April 6, 1778)

*Mozart and Masonry* Paul Nettl,2023-07-11 A noted musicologist looks at the eighteenth-century composer's connection to Freemasonry and its profound influence on his music. Speculative masonry was a pervasive intellectual force in eighteenth-century European society. Like many of his colleagues, as well as his father before him, Wolfgang Amadeus Mozart joined a Masonic lodge in 1784. The philosophy and symbolism of the Masons would be a major source of inspiration for his compositions from then on. This book provides an overview of Mozart's relationship to the fraternity and a detailed account of the numerous pieces he wrote specifically for Lodge events or ritual, as well as the many pieces adapted by others for Lodge use. It also includes an in-depth explanation of Mozart's opera "The Magic Flute" and its Masonic themes and imagery.

*Mozart's Grace* Scott Burnham,2015-09-22 Aspects of beauty in the music of Mozart It is a common article of faith that Mozart composed the most beautiful music we can know. But few of us ask why. Why does the beautiful in Mozart stand apart, as though untouched by human hands? At the same time, why does it inspire intimacy rather than distant admiration, love rather than awe? And how does Mozart's music create and sustain its buoyant and ever-renewable effects? In *Mozart's Grace*, Scott Burnham probes a treasury of passages from many different genres of Mozart's music, listening always for the qualities of Mozartean beauty: beauty held in suspension; beauty placed in motion; beauty as the uncanny threshold of another dimension, whether inwardly profound or outwardly transcendent; and beauty as a time-stopping, weightless suffusion that comes on like an act of grace. Throughout the book, Burnham engages musical issues such as sonority, texture, line, harmony, dissonance, and timing, and aspects of large-scale form such as thematic returns, retransitions, and endings. Vividly describing a range of musical effects, Burnham connects the ways and means of Mozart's music to other domains of human significance, including expression, intimation, interiority, innocence, melancholy, irony, and renewal. We follow Mozart from grace to grace, and discover what his music can teach us about beauty and its relation to the human spirit. The result is a newly inflected view of our perennial attraction to Mozart's music, presented in a way that will speak to musicians and music lovers alike.

**Mozart and the Whale** Jerry Newport,Mary Newport,2007-01-09 An unforgettable love story and the incredible chronicle of a musical genius and a mathematical prodigy who share a diagnosis of Asperger's syndrome. When Jerry and Mary Newport met, the connection was instant. A musical genius and a mathematical wonder, the two shared astronomic IQs, but they also shared something else—they both were diagnosed with

Asperger's syndrome, a form of autism that affects millions of Americans and makes social contact painfully unbearable. When Jerry and Mary married, they were catapulted into the limelight. They appeared on 60 Minutes and soon were known as superstars in the world of autism, shining examples of two people who refused to give up in the face of their mutual challenge. But just when it appeared that their lives would enjoy a fairy-tale ending, their marriage fell apart. The Hollywood feeding frenzy was too much to handle, and they divorced. After heartbreaking years of soul searching, Jerry and Mary remarried. Today, with their union stronger than ever, they have dedicated themselves to helping countless other people with Asperger's and autism lead lives of dignity.

*Mozart's Piano Concertos* Marius Flothuis, 2001 Mozart's Piano Concertos, especially those composed during the years 1784-'91, are still held in high esteem, two centuries later, by both amateur music-lovers and professional musicians. Strangely enough, only very few comprehensive studies exist on this remarkable section of Mozart's output. The present study, first published in German in a slightly abridged form, deals with Mozart's evolution as a composer of piano concertos; sheds light on the connections between the concertos and other fields of creative activity, as well as on those with other composers of his time. Finally, attention is paid to problems of performance practice. The author, born in 1914, emeritus professor of Utrecht University and former chairman of the Zentralinstitut für Mozart-Forschung, Salzburg, has been involved with the subject of Mozart's concertos for about 60 years.
