Marriage for One Ella Maise,2022-10-27 The only way to secure her dream is to marry a handsome stranger . . . When Rose and Jack meet, she has just lost her uncle, and with him her dream of owning a coffee shop. Rose wanted nothing more than to open a café in her uncle's building. But her uncle's will is clear – the building goes to Rose's husband. Not to her. Then, his lawyer, Jack, offers an unusual solution... she can marry him. She'll get the café and he'll get the building. For some reason, Rose agrees. It might be a marriage of convenience but it's anything but simple. Despite it being his idea, Jack is unbearably surly... But then he does something that shows Rose he might just have a softer side. Maybe love can start with a contract... but will Rose still feel that way when she learns the full terms of their deal?

The Serpent King Jeff Zentner,2017-06-06 Named to ten BEST OF THE YEAR lists and selected as a William C. Morris Award Winner,The Serpent King is the critically acclaimed, much-beloved story of three teens who find themselves--and each other--while on the cusp of graduating from high school with hopes of leaving their small-town behind. Perfect for fans of John Green's Turtles All the Way Down. Move over, John Green; Zentner is coming for you. —The New York Public Library “Will fill the infinite space that was left in your chest after you finished The Perks of Being a Wallflower.” —BookRiot.com Dill isn't the most popular kid at his rural Tennessee high school. After his father fell from grace in a public scandal that reverberated throughout their small town, Dill became a target. Fortunately, his two fellow misfits and best friends, Travis and Lydia, have his back. But as they begin their senior year, Dill feels the coils of his future tightening around him. His only escapes are music and his secret feelings for Lydia--neither of which he is brave enough to share. Graduation feels more like an ending to Dill than a beginning. But even before then, he must cope with another ending--one that will rock his life to the core. Debut novelist Jeff Zentner provides an unblinking and at times comic view of the hard realities of growing up in the Bible belt, and an intimate look at the struggles to find one's true self in the wreckage of the past. “A story about friendship, family and forgiveness, it's as funny and witty as it is utterly heartbreaking.” —PasteMagazine.com “A brutally honest portrayal of teen life . . . [and] a love letter to the South from a man who really understands it.” —Mashable.com “I adored all three of these characters and the way they talked to and loved one another.”—New York Times

France in Black Africa Francis Terry McNamara,1989 When, in 1960, France granted independence to its colonies in West and Central Africa-an empire covering an area the size of the contiguous United States--the French still intended to retain influence in Africa. Through a system of accords with these newly

independent African nations, based upon ties naturally formed over the colonial years, France has succeeded for three decades in preserving its position in African affairs. The course of Franco-African relations in the near future, though, is less than certain. In this book, Ambassador Francis Terry McNamara outlines France's acquisition and administration of its Black African empire and traces the former colonies' paths to independence. Drawing upon that background, the ambassador examines the structure of post-independence Franco-African relations and recent strains on those relations, especially African economic crises and the French tendency to focus on Europe. Because of those strains, he suggests, France alone may be unable to support its former dependencies much longer. He believes that long-term solutions to African problems will have to involve international organizations like the World Bank and International Monetary Fund as well as other nations such as the United States and France's European partners. -- From Foreword.

Yup'ik Eskimo Dictionary, 2012 The most comprehensive Yup'ik dictionary in existence, the second edition of this important work now adds extensive research on Central Alaskan Yup'ik, enhancing the forty years of research done by Steven A. Jacobson on the Yup'ik language and dialects. Over these decades, Jacobson has combed through records of explorers, linguists, missionaries, and anyone who has come in contact with the actively migratory Yup'ik people. Combined with information from native Yup'ik speakers, that research has led to a richly detailed dictionary that covers the entire language and all its dialects. The dictionary also offers sections on Yup'ik spelling, early vocabulary, demonstrative words, and important intersections of Yup'ik language and culture such as the kayak, dogsled, parka, and old-style dwellings.

Seeds of Deception Jeffrey M. Smith, 2005-03-30 Without knowing it, Americans eat genetically modified (GM) food every day. While the food and chemical industries claim that GMO food is safe, a considerable amount of evidence shows otherwise. In *Seeds of Deception*, Jeffrey Smith, a former executive with the leading independent laboratory testing for GM presence in foods, documents these serious health dangers and explains how corporate influence and government collusion have been used to cover them up. The stories Smith presents read like a mystery novel. Scientists are offered bribes or threatened; evidence is stolen; data withheld or distorted. Government scientists who complain are stripped of responsibilities or fired. The FDA even withheld information from congress after a GM food supplement killed nearly a hundred people and permanently disabled thousands. While Smith was employed by the laboratory he was not allowed to speak on the health dangers or the cover-up. No longer bound by this agreement, Smith now reveals what he knows in this groundbreaking expose. Today, food companies sell GM foods that have not undergone safety studies. FDA scientists opposed this, but White House and industry pressure prevailed and the agency's final policy--co-authored by a former Monsanto attorney--denied the risks. The scientists' concerns were made public only after a lawsuit forced the agency to turn over internal documents. Dan Glickman, former Secretary of Agriculture, describes the government's pro-biotech mindset: You felt like you were almost an alien, disloyal, by trying to present an open-minded view. . . . So I pretty much spouted the rhetoric. . . . It was written into my speeches. In *Seeds of Deception* Smith offers easy-to-understand descriptions of genetic engineering and explains why it can result in serious health problems. This well-documented, pivotal work will show you how to protect yourself and your family. DVD Overview Three videos in one: includes an interview with Jeffrey M. Smith, footage of scientists, and a look at the miraculous improvement in student behavior that accompanied a change in diet at a Wisconsin school. Also included is a lecture by Smith on The Health Dangers of Genetically Engineered Foods and Their Cover-up.
