**Hack** Dmitry Samarov,2011-09-01 Cabdrivers and their yellow taxis are as much a part of the cityscape as the high-rise buildings and the subway. We hail them without thought after a wearying day at the office or an exuberant night on the town. And, undoubtedly, taxi drivers have stories to tell—of farcical local politics, of colorful passengers, of changing neighborhoods and clandestine shortcuts. No one knows a city's streets—and thus its heart—better than its cabdrivers. And from behind the wheel of his taxi, Dmitry Samarov has seen more of Chicago than most Chicagoans will hope to experience in a lifetime. An artist and painter trained at the School of the Art Institute of Chicago, Samarov began driving a cab in 1993 to make ends meet, and he's been working as a taxi driver ever since. In *Hack: Stories from a Chicago Cab*, he recounts tales that will delight, surprise, and sometimes shock the most seasoned urbanite. We follow Samarov through the rhythms of a typical week, as he waits hours at the garage to pick up a shift, ferries comically drunken passengers between bars, delivers prostitutes to their johns, and inadvertently observes drug deals. There are long waits with other cabbies at O'Hare, vivid portraits of street corners and their regular denizens, amorous Cubs fans celebrating after a game at Wrigley Field, and customers who are pleasantly surprised that Samarov is white—and tell him so. Throughout, Samarov's own drawings—of his fares, of the taxi garage, and of a variety of Chicago street scenes—accompany his stories. In the grand tradition of Nelson Algren, Saul Bellow, Mike Royko, and Studs Terkel, Dmitry Samarov has rendered an entertaining, poignant, and unforgettable vision of Chicago and its people.

The London Cabbie's Quiz Book Mr. Ian Beetlestone,2020-07-28 Pay a visit to London and a black mini cab will probably be one the first things you will see. The London taxi drivers are almost as famous as the black cabs in which they drive, this is mainly due to their in-depth knowledge of London and ability in taking their occupants to their desired destination amid the congestion and the chaos that you often find when travelling through London's streets. London taxi drivers go through stringent training to obtain their licence, they need to pass "The Knowledge", a test which is amongst the hardest to pass in the world, and has been described as 'like having an atlas of London implanted into your brain'. The test requires you to master no fewer than 320 basic routes, all of the 25,000 streets that are scattered within the basic routes and approximately 20,000 landmarks and places of public interest that are located within a six-mile radius of Charing Cross. This book breaks the test down into a series of head-scratching questions and features enough trivia about the capital to surprise even born and bred Londoners. It's the perfect gift for anyone who thinks they know London inside-out, or wants to learn more!

*What the Heart Wants* Tiana Laveen ,2021-04-06 Can one heart change the lives of many? Ambitious financial planner Emily Windsor is the golden child of an elite New York family. Proud of her family roots, she disdains those who are different from her and embraces her entitled, wealthy lifestyle. Emily feels her life is perfect until her congenital heart condition is pronounced terminal and she's given just months to live. Cameron Davis is an outspoken, mixed-race social activist. His greatest joy is his soulmate, Brooke Coleman, an up-and-coming New York City jazz singer who's as talented as she is kind. But his life and heart are shattered when Brooke is killed. As her heart gives its last beat, it is quickly readied for transplant—her final act of selflessness. As one life ends, another begins. After Emily receives Brooke's heart, her worldview begins to change—almost as if Brooke has also given Emily a piece of her soul. As Emily struggles to understand her new thoughts and feelings, she turns to Cameron for guidance. Can love shine its light once more on two broken hearts?

Fighting for Space Amy Shira Teitel,2020-02-18 Spaceflight historian Amy Shira Teitel tells the riveting story of the female pilots who each dreamed of being the first American woman in space. When the space age dawned in the late 1950s, Jackie Cochran held more propeller and jet flying records than any pilot of the twentieth century—man or woman. She had led the Women's Auxiliary Service Pilots during the Second World War, was the first woman to break the sound barrier, ran her own luxury cosmetics company, and counted multiple presidents among her personal friends. She was more qualified than any woman in the world to make the leap from atmosphere to orbit. Yet it was Jerrie Cobb, twenty-five years Jackie's junior and a record-holding pilot in her own right, who finagled her way into taking the same medical tests as the Mercury astronauts. The prospect of flying in space quickly became her obsession. While the American and international media spun the shocking story of a woman astronaut program, Jackie and Jerrie struggled to gain control of the narrative, each hoping to turn the rumored program into their own ideal reality—an issue that ultimately went all the way to Congress. This dual biography of audacious trailblazers Jackie Cochran and Jerrie Cobb presents these fascinating and fearless women in all their glory and grit, using their stories as guides through the shifting social, political, and technical landscape of the time.

**The Upstarts** Brad Stone,2017-01-31 ONE OF AMAZON'S BEST BOOKS OF 2017 A look deep inside the new Silicon Valley, from the New York Times bestselling author of *The Everything Store* Ten years ago, the idea of getting into a stranger's car, or a walking into a stranger's home, would have seemed bizarre and dangerous, but today it's as common as ordering a book online. Uber and Airbnb have ushered in a new era: redefining neighborhoods, challenging the way governments regulate business, and changing the way we travel. In the spirit of iconic Silicon Valley renegades like Steve Jobs and Bill Gates, another generation of entrepreneurs is using technology to upend convention and disrupt entire industries. These are the upstarts, idiosyncratic founders with limitless drive and an abundance of self-confidence. Led by such visionaries as Travis Kalanick of Uber and Brian Chesky of Airbnb, they are rewriting the rules of business and often sidestepping serious ethical and legal obstacles in the process. *The Upstarts* is the definitive story of two new titans of business and a dawning age of tenacity, conflict and wealth. In Brad Stone's riveting account of the most radical companies of the new Silicon Valley, we discover how it all happened and what it took to change the world.

**Brothers of the Gun** Marwan Hisham,Molly Crabapple,2018-05-15 A bracingly immediate memoir by a young man coming of age during the Syrian war, an intimate lens on the century's bloodiest conflict, and a profound meditation on kinship, home, and freedom. A NEW YORK TIMES NOTABLE BOOK • LONGLISTED FOR THE NATIONAL BOOK AWARD • "This powerful memoir, illuminated with Molly Crabapple's extraordinary art, provides a rare lens through which we can see a region in deadly conflict."—Bryan Stevenson, author of *Just Mercy* In 2011, Marwan Hisham and his two friends—fellow working-class college students Nael and Tareq—joined the first protests of the Arab Spring in Syria, in response to a recent massacre. Arm-in-arm they marched, poured Coca-Cola into one another's eyes to blunt the effects of tear gas, ran from the security forces, and cursed the country's president, Bashar al-Assad. It was ecstasy. A long-bottled revolution was finally erupting, and freedom from a brutal dictator seemed, at last, imminent. Five years later, the three young friends were scattered: one now an Islamist revolutionary, another dead at the hands of government soldiers, and the last, Marwan, now a journalist in Turkish exile, trying to find a way back to a homeland reduced to rubble. Marwan was there to witness and document firsthand the Syrian war, from its inception to the present. He watched from the rooftops as regime warplanes bombed soldiers; as revolutionary activist groups, for a few dreamy days, spray-painted hope on Raqqa; as his friends died or threw in their lot with Islamist fighters. He became a journalist by courageously tweeting out news from a city under siege by ISIS, the Russians, and the Americans all at once. He saw the country that ran through his veins—the country that held his hopes, dreams, and fears—be destroyed in front of him, and eventually

joined the relentless stream of refugees risking their lives to escape. Illustrated with more than eighty ink drawings by Molly Crabapple that bring to life the beauty and chaos, *Brothers of the Gun* offers a ground-level reflection on the Syrian revolution—and how it bled into international catastrophe and global war. This is a story of pragmatism and idealism, impossible violence and repression, and, even in the midst of war, profound acts of courage, creativity, and hope. “A book of startling emotional power and intellectual depth.”—Pankaj Mishra, author of *Age of Anger* and *From the Ruins of Empire* “A revelatory and necessary read on one of the most destructive wars of our time.”—Angela Davis

**You Can't Take An Elephant On the Bus** Patricia Cleveland-Peck,2015-08-13 You can't take an elephant on the bus ... It would simply cause a terrible fuss! Elephants' bottoms are heavy and fat and would certainly squash the seats quite flat. Never put a camel in a sailing boat, or a tiger on a train, and don't even THINK about asking a whale to ride a bike ... This riotous picture book is filled with animals causing total disaster as they try to travel in the most unsuitable vehicles. A real romp of a book, with hilarious rhyming text and spectacular illustrations.

*Learn to Earn* Peter Lynch,John Rothchild,2012-11-27 Mutual-fund superstar Peter Lynch and author John Rothchild explain the basic principles of the stock market and business in an investing guide that will enlighten and entertain anyone who is high-school age or older. Many investors, including some with substantial portfolios, have only the sketchiest idea of how the stock market works. The reason, say Lynch and Rothchild, is that the basics of investing—the fundamentals of our economic system and what they have to do with the stock market—aren’t taught in school. At a time when individuals have to make important decisions about saving for college and 401(k) retirement funds, this failure to provide a basic education in investing can have tragic consequences. For those who know what to look for, investment opportunities are everywhere. The average high-school student is familiar with Nike, Reebok, McDonald’s, the Gap, and the Body Shop. Nearly every teenager in America drinks Coke or Pepsi, but only a very few own shares in either company or even understand how to buy them. Every student studies American history, but few realize that our country was settled by European colonists financed by public companies in England and Holland—and the basic principles behind public companies haven’t changed in more than three hundred years. In *Learn to Earn*, Lynch and Rothchild explain in a style accessible to anyone who is high-school age or older how to read a stock table in the daily newspaper, how to understand a company annual report, and why everyone should pay attention to the stock market. They explain not only how to invest, but also how to think like an investor.
