Delia and her fellow time travelers are ready for their next big mission, and this time they won't be working alone. With the help of a more seasoned Epoch Squad, led by none other than President Richard Nixon himself, the team heads back in time to save a historical alliance between the United States and France. The plan goes awry and they find themselves trapped in the wrong reality, where the only ones who can help them are...themselves? Will the team be able to ditch their itchy French formal wear and escape the time loop they're trapped in? Or will this be their last mission?

**Handbook of Museum Textiles, Volume 2** Seiko Jose, Sabu Thomas, Pintu Pandit, Ritu Pandey, 2022-11-29 Handbook of Museum Textiles Textiles have been known to us throughout human history and played a vital role in the lives and traditions of people. Clothing was made by using different materials and methods from natural fibers. There are different varieties of textiles, out of which certain traditional textiles, archaeological findings, or fragments are of cultural, historical, and sentimental value such as tapestries, embroideries, flags, shawls, etc. These kinds of textiles, due to their historical use and environmental factors, require special attention to guarantee their long-term stability. Textile conservation is a complex, challenging, and multi-faceted discipline and it is one of the most versatile branches of conservation. Volume II of the Handbook of Museum Textiles provides precise instruction for conservation techniques to preserve the textile heritage more scientifically and technologically. Additionally, the book covers the most modern techniques used to characterize archaeological textiles and dyes. Progress and innovation in nanotechnology-based interventions in museum textiles are emphasized. Chapters cover the general introduction to biological damage caused by physical and chemical

agents and their prevention methods. Information on microscopy and characterization of historical textiles, ancient dyes, and prints is highlighted. Several aspects of assessment of degradation, repair, and stabilization of antique textiles are presented in depth. Experimental research methods for diagnosis and scientific study of fibers and natural dyes using LC-MS and UV-VIS are described. Practical knowledge based on analysis and visualization of historical textiles for the needs of museum conservation, exhibition, digital technology, and virtual museums is addressed as well. Audience It will serve as an educational asset and tool for researchers, art scholars, archaeologists, museum curators, and those who are interested in the field of traditional or historic textile collections.

The Hermetic Museum (Volumes 1 & 2) Arthur Edward

Waite, 1893 The Hermetic Museum was published in Latin at Frankfort, in the year 1678, and, as its title implies, it was an enlarged form of an anterior work which, appearing in 1625, is more scarce, but, intrinsically, of less value. Its design was apparently to supply in a compact form a representative collection of the more brief and less ancient alchemical writers; in this respect, it may be regarded as a supplement to those large storehouses of Hermetic learning such as the Theatrum Chemicum, and that scarcely less colossal of Mangetus, the Bibliotheca Chemica Curiosa, which are largely concerned with the cream of the archaic literature, with the works of Geber and the adepts of the school of Arabia, with the writings attributed to Hermes, with those of Raymond Lully, Arnold de Villa Nova, Bernard Trevisan, and others. This edition contains both original volumes one and two.

**The Phantom Music Box** Suzanne Weyn, 2014-08-26 A mysterious music box from the Haunted Museum follows a young girl home in this spooky read by the author of The Titanic Locket. Don't touch anything in the Haunted Museum! Emma would rather be at her ballet class than at the Haunted Museum, but she can't miss her best friend's birthday party. In a spooky exhibit of music boxes, she's

drawn to a particular one, in which a pair of dancers spin slowly to a haunting melody. But that very night, the music box shows up at her door—like it's following her. Emma dances better than she ever imagined when the music box is playing. But that's not all. Sometimes the music speeds up, and the dancers seem to move on their own. Emma finds the lid open, music playing, even when she knows she'd shut it before. And then an eye appears in the mirror inside the lid—someone is watching Emma! The more Emma learns about the history of the music box, the more she realizes she needs to break the hold it has over her before it's too late. But the better she dances when the music plays, the less she wants to! Praise for *The Titanic Locket* “Hair-raising. . . . Weyn keeps unexpected chills coming. . . . A quick, jittery read.” —Publishers Weekly “Weyn ratchets up the eeriness . . . and quickly builds to a stormy climax.” —Kirkus Reviews

Museum of Nonhumanity Laura Gustafsson, Terike

Haapoja, 2019-05-28 Museum of Nonhumanity is the catalogue for a full-size touring museum that presents the history of the distinction between humans and animals, and the way that this artificial boundary has been used to oppress human and nonhuman beings over long historical periods. Throughout history, declaring a group to be nonhuman or subhuman has been an effective tool for justifying slavery, oppression, medical experimentation, genocide, and other forms of violence against those deemed other. Conversely, differentiating humans from other species has paved the way for the abuse of natural resources and other animals. Museum of Nonhumanity approaches animalization as a nexus that connects xenophobia, sexism, racism, transphobia, and the abuse of nature and other animals. The touring museum hosts lecture programs in which local civil rights and animal rights organizations, academics, artists, and

activists propose paths to a more inclusive society through intersectional approaches. The museum also hosts a pop-up book shop and a vegan café. As a temporary, utopian institution, Museum of Nonhumanity stands as a monument to the call to make animalization history.
