Beyond the Charts Bruce Haring, 2000 This book takes a look at the shocking war being waged over your CD collection, a struggle that will determine

who controls popular music - and to a large extend, popular culture - in the coming years. It's a battle of multinational corporate giants versus Internet entrepreneurs working out of their bedrooms, challenging the fat cats who have built fortunes on the bones of underpaid musicians. It's also a war for the hearts and minds of a new generation and a culture that doesn't feel the need to hold a plastic disc in its hands to enjoy music.

My Music Susan D. Crafts, Daniel Cavicchi, Charles Keil, Music in Daily Life Project, 2012-01-01 My Music is a first-hand exploration of the diverse roles music plays in people's lives. What is music about for you? asked members of the Music in Daily Life Project of some 150 people, and the responses they received - from the profound to the mundane, from the deeply-felt to the flippant - reflect highly individualistic relationships to and with music. Susan Crafts, Daniel Cavicchi, and Project Director Charles Keil have collected and edited nearly forty of those interviews to document the diverse ways in which people enjoy, experience, and use music. CONTRIBUTORS: Charles Keil, George Lipsitz.

Why You Love Music John Powell, 2016-06-14 A delightful journey through the psychology and science of music, *Why You Love Music* is the perfect book for anyone who loves a tune. Music plays a hugely important role in our emotional, intellectual, and even physical lives. It impacts the ways we work, relax, behave, and feel. It can make us smile or cry, it helps us bond with the people around us, and it even has the power to alleviate a range of medical conditions. The songs you love (and hate, and even the ones you feel pretty neutral about) don't just make up the soundtrack to your life -- they actually help to shape it. In *Why You Love Music*, scientist and musician John Powell dives deep into decades of psychological and sociological studies in order to answer the question *Why does music affect us so profoundly?* With his relaxed, conversational style, Powell explores all aspects of music psychology, from how music helps babies bond with their mothers to the ways in which music can change the taste of wine or persuade you to spend more in restaurants. *Why You Love Music* will open your eyes (and ears) to the astounding variety of ways that music impacts the human experience.

The Power of Music Elena Mannes,2011-05-24 The award-winning creator of the acclaimed documentary *The Music Instinct: Science & Song*, explores the power of music and its connection to the body, the brain, and the world of nature. Only recently has science sought in earnest to understand and explain this impact. One remarkable recent study, analyzing the cries of newborns, shows that infants' cries contain common musical intervals, and children tease each other in specific, singsong ways no matter where in the world they live. Physics experiments show that sound waves can physically change the structure of a material; musician and world-famous conductor Daniel Barenboim believes musical sound vibrations physically penetrate our bodies, shifting molecules as they do. *The Power of Music* follows visionary researchers and accomplished musicians to the crossroads of science and culture, to discover: how much of our musicality is learned and how much is innate? Can examining the biological foundations of music help scientists unravel the intricate web of human cognition and brain function? Why is music virtually universal across cultures and time--does it provide some evolutionary advantage? Can music make people healthier? Might music contain organizing principles of harmonic vibration that underlie the cosmos itself?

Music in Our Lives Jonathan L.

Friedmann,2014-12-19 Music research has entered something of a Golden Age. Technological advances and scholarly inquiry have merged in interdisciplinary studies--drawing on psychology, neuroscience, evolutionary biology, anthropology and other fields--that illuminate the musical nature of our species. This volume develops,

supports and challenges that body of research, examining key issues in the field, such as the difficulty of writing about music, the formation of musical preferences, the emotional impact of musical sounds, the comparison of music and language, the impulse for making music and the connection between music and spirituality.

Out of Nowhere Marcus M. Cornelius, 2008-07-11
The musical life of Warne Marsh, perhaps the most improviser of the history of music in the west. It is his life as he might have told it. His song is set to words. Some comments about this book by musicians, music lovers and writers: The most literate book about jazz-or any music-that I have read. A compelling read-as soon as I reached the last page I had to start all over again. -Kerr Ferguson (UK) A wonderful study of a musician and a human being. It deserves to be published. -Jim Heymann (USA) Just magic. Fabulous. And it would make a wonderful film. -Ike Isaacs, jazz guitarist and teacher (Australia) It was just like listening to Warne's music, written the way he played. Reading it made me feel like playing and playing. Thank you so much. -Susan Chen, pianist (USA) I started reading the book all over again and read it in one sitting, stopping only for a bite for lunch. It is an impressive book, stylish, mellifluous, deep and full of the feel of Warne's life the feel and structure and flow of a piece of music. -Enver Carim, writer (UK) the novel, is as demanding, intriguing, artistic and powerful as the best of Warne Marsh's oeuvre. This is literature of a higher order, and it swings. - Prof. Kevin Monahan, Hokuriku University (Japan) a fascinating and thoughtfully detailed insight into the life of this highly respected player. Essential reading for anyone interested in discovering the inner motivation of a jazz musician. -Mike Nelson, Head of Jazz Department, Australian National University

Breaking the Sound Barrier John Winsor, 2003
Arguments about musical aesthetics often degenerate into shouting matches that end in stalemate. In *Breaking the Sound Barrier*, John Winsor clears the air by presenting evidence that some works are, in fact, objectively better than others. This is a particularly timely issue because a great deal of bad music is being performed in American concert halls right now and a great deal of good music isn't. If you believe that qualitative judgment in the arts is purely subjective, this book should persuade you to rethink your position. If, on the other hand, you think there is a genuine qualitative difference between one musical work and another, this book will provide you with relevant ammunition. Winsor defines music, presents some empirical evidence from the field of music psychology, relates that evidence to events in Western music history, and explains what works and what doesn't and why. He demonstrates that from the advent of notation to the present, music has, in fact, progressed and not merely changed. He then exposes some major errors in modernist and postmodernist writing that have disrupted music's progress and recommends remedial action for restoring the mainstream literary tradition. This is a challenging and thought-provoking book. yDiana Deutsch, Professor of Psychology, University of California, San Diego. John Winsor tackles big questions about music and our perceptions, coming at them head-on. He anticipates our reactions and goes a long way toward resolving nagging issues of modern music. A clear, honest book. yKile Smith, Curator, Fleisher Collection of Orchestral Music, Free Library of Philadelphia.

Audiotopia Josh Kun, 2005-11-01 Ranging from Los Angeles to Havana to the Bronx to the U.S.-Mexico border and from klezmer to hip hop to Latin rock, this groundbreaking book injects popular music

into contemporary debates over American identity. Josh Kun, a MacArthur Genius Fellow, insists that America is not a single chorus of many voices folded into one, but rather various republics of sound that represent multiple stories of racial and ethnic difference. To this end he covers a range of music and listeners to evoke the ways that popular sounds have expanded our idea of American culture and American identity. Artists as diverse as The Weavers, Café Tacuba, Mickey Katz, Rahsaan Roland Kirk, Bessie Smith, and Ozomatli reveal that the song of America is endlessly hybrid, heterogeneous, and enriching—a source of comfort and strength for populations who have been taught that their lives do not matter. Kun melds studies of individual musicians with studies of painters such as Jean-Michel Basquiat and of writers such as Walt Whitman, James Baldwin, and Langston Hughes. There is no history of race in the Americas that is not a history of popular music, Kun claims. Inviting readers to listen closely and critically, *Audiotopia* forges a new understanding of sound that will stoke debates about music, race, identity, and culture for many years to come.

Love for Sale David Hajdu, 2016-10-18 A personal, idiosyncratic history of popular music that also may well be definitive, from the revered music critic From the age of song sheets in the late nineteenth-century to the contemporary era of digital streaming, pop music has been our most influential laboratory for social and aesthetic experimentation, changing the world three minutes at a time. In *Love for Sale*, David Hajdu—one of the most respected critics and music historians of our time—draws on a lifetime of listening, playing, and writing about music to show how pop has done much more than peddle fantasies of love and sex to teenagers. From vaudeville singer Eva Tanguay, the “I Don’t Care Girl” who upended

Victorian conceptions of feminine propriety to become one of the biggest stars of her day to the scandal of Blondie playing disco at CBGB, Hajdu presents an incisive and idiosyncratic history of a form that has repeatedly upset social and cultural expectations. Exhaustively researched and rich with fresh insights, *Love for Sale* is unbound by the usual tropes of pop music history. Hajdu, for instance, gives a star turn to Bessie Smith and the "blues queens" of the 1920s, who brought wildly transgressive sexuality to American audience decades before rock and roll. And there is Jimmie Rodgers, a former blackface minstrel performer, who created country music from the songs of rural white and blacks . . . entwined with the sound of the Swiss yodel. And then there are today's practitioners of Electronic Dance Music, who Hajdu celebrates for carrying the pop revolution to heretofore unimaginable frontiers. At every turn, Hajdu surprises and challenges readers to think about our most familiar art in unexpected ways. Masterly and impassioned, authoritative and at times deeply personal, *Love for Sale* is a book of critical history informed by its writer's own unique history as a besotted fan and lifelong student of pop.

The Dark Age of Music Greg Henry Waters, A BOOK BY GREG HENRY WATERS THE DEATH OF A MUSICIAN "A Composer of Art Music and the Dark Age of Music" by Greg Henry Waters Mark Twain, said, to do something that no one else did is the real joy of life. This is what I am trying to do. We have to create a real culture not let the McDonald culture take over. I like gentleness in music. We need gentleness in the world not force. God is gentle. If music be the voice of God it should be gentle. This book is dedicated to all the people whom have participated in my life! The Music City Mantra James Beauhall, 2018-12-06 This book is the second effort of this songwriter turned novelist. After retiring from his position as president and CEO of a seven-state insurance agency, he took up songwriting as his next career challenge and now has a catalogue of over two hundred songs, forty of which have been recorded by various country artists. After five years of jousting with the windmills of the greedy power-hungry, megalomaniac music moguls that come and go like tumble weeds before a prairie wind, he has once again retired, this time from the frenetic, backstabbing, dog-eat-dog world of the Nashville music industry, where the question is always "What have you done for me today?" and the mantra is "You scratch my back while I stab yours." He's now living the quiet life with his wife, Maelene, and their four cats in the serenity of the Woodlands, Texas.
