*The Old Timer* Agie Estep,2013-05-09 I was born in January the year of 1934 to Dave, Ethel Ashby Estep. The first of their children of four. My father was a coal miner and was killed in a cave in 1942. My mother remarried a few years later and had a total of nine children. My mother was a God loving woman and had a lot to do with the way I have lived my life and the man I am today. I have spent most of my working life as an Industrial Electrician but have done just about every kind of work that the hands can do. I have been blessed by God to have been what they call a handy man. I started writing songs when I was about 73 years old and they just keep on coming to me after I bought a guitar seems I would hear the strings saying the words of the song. I got my first guitar when I was about 14 years old but hadn't played for many years. I have been blessed by God all through my life with a family that I love with all my heart and they have loved me with so many grand children and now the family is growing with many great grand children I can hardly keep up with the number. It dose the heart good to hear the word Grandpa. So to everyone who may buy or read this song book love one another and this world will be a much better place and put your trust in God to make it that way. Thank you very much and God bless you all.

Constructing Music Teresa M. Nakra,2024-01-23 Why does music exert such a strong pull on us? How does it work? Traditional courses in music fundamentals give students a basic understanding of the building blocks of music and how to put them together to make a result that produces an intended effect. Constructing Music: Musical Explorations in Creative Coding takes students a step further: through a series of step-by-step tutorials and lessons, author Teresa M. Nakra presents a new method for teaching music fundamentals that foregrounds creative coding practices and builds upon the computing skills that today's students already possess. By encouraging experimentation with computer code, this book gives students tools to actively investigate, simulate, and engage with the structure of music, ultimately leading to greater understanding about the processes that underlie music's power over us. Designed to support computer-based learning in tonal harmony, musicianship, and music theory, Constructing Music avoids the

lens of Western music notation and instead explains music content through analogies with toy bricks and references ideas from creative technology, engineering, and design. Students also engage directly with the components of musical structure using editable short code patches developed in Max, a visual coding environment for interactive music, audio, and media. Dozens of patches accompany the book and allow readers to play with the building blocks of sound, reinforcing each topic by tinkering, modifying, and creating their own versions of the material. Each chapter explains core music theory concepts in detail and supports every description through code simulations, progressing through the topics with increasing complexity. In the final chapter, Nakra explores the questions and theories that emerge from the lessons, considering the role of music as a proto-form of AI and its impacts on emotion, wellness, and creativity.

*The Complete Lyrics of Johnny Mercer* Johnny Mercer, Robert Kimball, Barry Day, Miles Kreuger, Eric Davis, 2009-10-20 The seventh volume in Knopf's critically acclaimed Complete Lyrics series, published in Johnny Mercer's centennial year, contains the texts to more than 1,200 of his lyrics, several hundred of them published here for the first time. Johnny Mercer's early songs became staples of the big band era and were regularly featured in the musicals of early Hollywood. With his collaborators, who included Richard A. Whiting, Harry Warren, Hoagy Carmichael, Jerome Kern, and Harold Arlen, he wrote the lyrics to some of the most famous standards, among them, "Too Marvelous for Words," "Jeepers Creepers," "Skylark," "I'm Old-Fashioned," and "That Old Black Magic." During a career of more than four decades, Mercer was nominated for the Academy Award for Best Song an astonishing eighteen times, and won four: for his lyrics to "On the Atchison, Topeka, and the Santa Fe" (music by Warren), "In the Cool, Cool, Cool of the Evening" (music by Carmichael), and "Moon River" and "Days of Wine and Roses" (music for both by Henry Mancini). You've probably fallen in love with more than a few of Mercer's songs—his words have never gone out of fashion—and with this superb collection, it's easy to see that his lyrics

elevated popular song into art.
