Marc Myers

Music News Monthly - June 2023 David C Weddle, Matthew Weddle, Our June issue of Music News Monthly features live review of rock icons KISS with exclusive photos from the Newcastle show, Mudge Ure and Sam Fender's homecoming concert at St.James Park. Plus reviews of new music by Extreme, Ayron Jones and Pale Wizard. We also look at the very talented singer-songwriter GUNNAR as he looks set to take the UK music scene by storm. All this and much more.

Anatomy of a Song Marc Myers, 2016-11-01 “A winning look at the stories behind 45 pop, punk, folk, soul and country classics” in the words of Mick Jagger, Stevie Wonder, Cyndi Lauper and more (The Washington Post). Every great song has a fascinating backstory. And here, writer and music historian Marc Myers brings to life five decades of music through oral histories of forty-five era-defining hits woven from interviews with the artists who created them, including such legendary tunes as the Isley Brothers’ Shout, Led Zeppelin’s Whole Lotta Love, Janis Joplin’s Mercedes Benz, and R.E.M.’s Losing My Religion. After receiving his discharge from the army in 1968, John Fogerty did a handstand—and reworked Beethoven’s Fifth Symphony to come up with Proud Mary. Joni

Mitchell remembers living in a cave on Crete with the mean old daddy who inspired her 1971 hit Carey. Elvis Costello talks about writing (The Angels Wanna Wear My) Red Shoes in ten minutes on the train to Liverpool. And Mick Jagger, Jimmy Page, Rod Stewart, the Clash, Jimmy Cliff, Roger Waters, Stevie Wonder, Keith Richards, Cyndi Lauper, and many other leading artists reveal the emotions, inspirations, and techniques behind their influential works. *Anatomy of a Song* is a love letter to the songs that have defined generations of listeners and “a rich history of both the music industry and the baby boomer era” (Los Angeles Times Book Review).

Lizard Music Daniel Pinkwater, 2017-08-15 An ALA Notable Book Kids ages 9-12 will “delight in [the] oddness” of this Home Alone-style tale set in the 1970s—from a prolific children’s author who captures “a magic that’s not like anyone else’s” (Neil Gaiman). With Victor’s parents out of town, he is free to investigate the mysterious lizard musicians who have recently appeared on TV . . . Things Victor loves: pizza with anchovies, grape soda, B movies aired at midnight, the evening news. And with his parents off at a resort and his older sister shirking her babysitting duties, Victor has plenty of time to indulge himself and to try a few things

he's been curious about. Exploring the nearby city of Hogboro, he runs into a curious character known as the Chicken Man (a reference to his companion, an intelligent hen named Claudia who lives under his hat). The Chicken Man speaks brilliant nonsense, but he seems to be hip to the lizard musicians (real lizards, not men in lizard suits) who've begun appearing on Victor's television after the broadcast of the late-late movie. Are the lizards from outer space? From "other space"? Together Victor and the Chicken Man, guided by the able Claudia, journey to the lizards' floating island, a strange and fantastic place that operates with an inspired logic of its own.

Words Without Music: A Memoir Philip Glass, 2015-04-06 New York Times Bestseller Reads the way Mr. Glass's compositions sound at their best: propulsive, with a surreptitious emotional undertow. —Corinna da Fonseca-Wollheim, New York Times Philip Glass has, almost single-handedly, crafted the dominant sound of late-twentieth-century classical music. Yet in *Words Without Music*, his critically acclaimed memoir, he creates an entirely new and unexpected voice, that of a born storyteller and an acutely insightful chronicler, whose behind-the-scenes recollections allow readers to experience those moments of creative fusion when life

so magically merged with art. From his childhood in Baltimore to his student days in Chicago and at Juilliard, to his first journey to Paris and a life-changing trip to India, Glass movingly recalls his early mentors, while reconstructing the places that helped shape his creative consciousness. Whether describing working as an unlicensed plumber in gritty 1970s New York or composing Satyagraha, Glass breaks across genres and re-creates, here in words, the thrill that results from artistic creation. Words Without Music ultimately affirms the power of music to change the world.

To Feel the Music Neil Young, Phil Baker, 2019-09-10 Neil Young took on the music industry so that fans could hear his music—all music—the way it was meant to be heard. Today, most of the music we hear is compressed to a fraction of its original sound, while analog masterpieces are turning to dust in record company vaults. As these recordings disappear, music fans aren't just losing a collection of notes. We're losing spaciousness, breadth of the sound field, and the ability to hear and feel a ping of a triangle or a pluck of a guitar string, each with its own resonance and harmonics that slowly trail off into silence. The result is music that is robbed of its original quality—muddy and flat in sound compared to the rich, warm sound artists hear in the studio. It

doesn't have to be this way, but the record and technology companies have incorrectly assumed that most listeners are satisfied with these low-quality tracks. Neil Young is challenging the assault on audio quality—and working to free music lovers from the flat and lifeless status quo. *To Feel the Music* is the true story of his quest to bring high-quality audio back to music lovers—the most important undertaking of his career. It's an unprecedented look inside the successes and setbacks of creating the Pono player, the fights and negotiations with record companies to preserve masterpieces for the future, and Neil's unrelenting determination to make musical art available to everyone. It's a story that shows how much more there is to music than meets the ear. Neil's efforts to bring quality audio to his fans garnered media attention when his Kickstarter campaign for his Pono player—a revolutionary music player that would combine the highest quality possible with the portability, simplicity and affordability modern listeners crave—became the third-most successful Kickstarter campaign in the website's history. It had raised more than \$6M in pledges in 40 days. Encouraged by the enthusiastic response, Neil still had a long road ahead, and his Pono music player would not have the commercial success he'd imagined. But he remained committed to

his mission, and faced with the rise of streaming services that used even lower quality audio, he was determined to rise to the challenge. An eye-opening read for all fans of Neil Young and all fans of great music, as well as readers interesting in going behind the scenes of product creation, *To Feel the Music* has an inspiring story at its heart: One determined artist with a groundbreaking vision and the absolute refusal to give up, despite setbacks, naysayers, and skeptics.

The Life of Music Nicholas Kenyon, 2021-06-08 Nicholas Kenyon explores the enduring appeal of the classical canon at a moment when we can access all music—across time and cultures. Immersed in music for much of his life as writer, broadcaster and concert presenter, former director of the BBC Proms, Nicholas Kenyon has long championed an astonishingly wide range of composers and performers. Now, as we think about culture in fresh ways, Kenyon revisits the stories that make up the classical tradition and foregrounds those which are too often overlooked. This inclusive, knowledgeable, and enthusiastic guide highlights the achievements of the women and men, amateurs and professionals, who bring music to life. Taking us from pianist Myra Hess's performance in London during the Blitz, to John Adams's composition of a piece for mourners after New York's 9/11 attacks, to Italian opera singers singing from their balconies amidst the

2020 pandemic, Kenyon shows that no matter how great the crisis, music has the power to bring us together. His personal, celebratory account transforms our understanding of how classical music is made—and shows us why it is more relevant than ever.

Can't Slow Down Michaelangelo Matos, 2020-12-08 A Rolling Stone-Kirkus Best Music Book of 2020 The definitive account of pop music in the mid-eighties, from Prince and Madonna to the underground hip-hop, indie rock, and club scenes Everybody knows the hits of 1984 - pop music's greatest year. From Thriller to Purple Rain, Hello to Against All Odds, What's Love Got to Do with It to Wake Me Up Before You Go-Go, these iconic songs continue to dominate advertising, karaoke nights, and the soundtracks for film classics (Boogie Nights) and TV hits (Stranger Things). But the story of that thrilling, turbulent time, an era when Top 40 radio was both the leading edge of popular culture and a moral battleground, has never been told with the full detail it deserves - until now. Can't Slow Down is the definitive portrait of the exploding world of mid-eighties pop and the time it defined, from Cold War anxiety to the home-computer revolution. Big acts like Michael Jackson (Thriller), Prince (Purple Rain), Madonna (Like a Virgin), Bruce Springsteen (Born in the U.S.A.), and George Michael (Wham!'s Make It Big)

rubbed shoulders with the stars of the fermenting scenes of hip-hop, indie rock, and club music. Rigorously researched, mapping the entire terrain of American pop, with crucial side trips to the UK and Jamaica, from the biz to the stars to the upstarts and beyond, *Can't Slow Down* is a vivid journey to the very moment when pop was remaking itself, and the culture at large - one hit at a time.

The Chinese Lady Lloyd Suh,2019 Afong Moy is fourteen years old when she's brought to the United States from Guangzhou Province in 1834. Allegedly the first Chinese woman to set foot on U.S. soil, she has been put on display for the American public as "The Chinese Lady." For the next half-century, she performs for curious white people, showing them how she eats, what she wears, and the highlight of the event: how she walks with bound feet. As the decades wear on, her celebrated sideshow comes to define and challenge her very sense of identity. Inspired by the true story of Afong Moy's life, *THE CHINESE LADY* is a

dark, poetic, yet whimsical portrait of America through the eyes of a young Chinese woman.

How Music Got Free Stephen Witt, 2015 Journalist Stephen Witt traces the secret history of digital music piracy, from the German audio engineers who invented the mp3, to a North Carolina compact-disc manufacturing plant where factory worker Dell Glover leaked nearly two thousand albums over the course of a decade, to the high-rises of midtown Manhattan where music executive Doug Morris cornered the global market on rap, and, finally, into the darkest recesses of the Internet.--

Music Ted Gioia, 2019-10-15 A dauntingly ambitious, obsessively researched (Los Angeles Times) global history of music that reveals how songs have shifted societies and sparked revolutions. Histories of music overwhelmingly suppress stories of the outsiders and rebels who created musical revolutions and instead celebrate the mainstream assimilators who borrowed

innovations, diluted their impact, and disguised their sources. In *Music: A Subversive History*, Ted Gioia reclaims the story of music for the riffraff, insurgents, and provocateurs. Gioia tells a four-thousand-year history of music as a global source of power, change, and upheaval. He shows how outcasts, immigrants, slaves, and others at the margins of society have repeatedly served as trailblazers of musical expression, reinventing our most cherished songs from ancient times all the way to the jazz, reggae, and hip-hop sounds of the current day. *Music: A Subversive History* is essential reading for anyone interested in the meaning of music, from Sappho to the Sex Pistols to Spotify.

to the present, Questlove finds the hidden connections in the American tapes, whether investigating how the blaxploitation era reshaped Black identity or considering the way disco took an assembly-line approach to Black genius.
