**Made in Taiwan** Eva Tsai,Tung-Hung Ho,Miaoju Jian,2019-11-14 Made in Taiwan: Studies in Popular Music serves as a comprehensive introduction to the history, sociology, and musicology of contemporary Taiwanese popular music. Each essay, written by a leading scholar of Taiwanese music, covers the major figures, styles, and social contexts of pop music in Taiwan and provides adequate context so readers understand why the figure or genre under discussion is of lasting significance. The book first presents a general description of the history and background of popular music in Taiwan, followed by essays organized into thematic sections: Trajectories, Identities, Issues, and Interactions.

**Cries of Joy, Songs of Sorrow** Marc L. Moskowitz,2009-11-24 Since the mid-1990s, Taiwan's unique brand of Mandopop (Mandarin Chinese-language pop music) has dictated the musical tastes of the mainland and the rest of Chinese-speaking Asia. Cries of Joy, Songs of Sorrow explores Mandopop's surprisingly complex cultural implications in Taiwan and the PRC, where it has established new gender roles, created a vocabulary to express individualism, and introduced transnational culture to a country that had closed its doors to the world for twenty years. In his early chapters, Marc L. Moskowitz provides the historical background necessary to understand the contemporary Mandopop scene, beginning with the birth of Chinese popular music in the East Asian jazz Mecca of 1920s Shanghai. A brief overview of alternative musical genres in the PRC such as Beijing rock and revolutionary opera is included. The section concludes with a look at the manner in which Taiwan's musical ethos has influenced the mainland's music industry and how Mandopop has brought Western music and cultural values to the PRC. This leads to a discussion of Taiwan pop's exceptional hybridity, beginning with foreign influences during the colonial period under the Dutch and Japanese and continuing with the country's political, cultural, and economic alliance with the U.S. Moskowitz addresses the resulting wealth of transnational musical influences from the rest of East Asia and the U.S. and Taiwan pop's appeal to audiences in both the PRC and Taiwan. In doing so, he explores how Mandopop's songs of sorrow, with their ubiquitous themes of loneliness and isolation, engage a range of emotional expression that resonates strongly in the PRC. Later chapters examine the construction of male and female identities in Mandopop and look at the widespread condemnation of the genre by critics. Drawing on analyses and data from earlier chapters (including interviews with dozens of performers, song writers, and lay people in Taipei and Shanghai), Moskowitz attempts to answer the question: Why, if the music is as bad as some assert, is it so central to the lives of the largest population in the world? To answer, he highlights Mandopop's important contribution as a poetic lament that simultaneously embraces and protests modern life. Cries of Joy, Songs of Sorrow is a highly readable introduction to an important but understudied East Asian phenomenon. It will find a ready audience among scholars and students of Chinese and Taiwanese popular culture as well as musicologists studying transnational music flows and non-Western popular music.

*The Design Culture Reader* Ben Highmore,2023-05-09 Design is part of ordinary, everyday life, to be found in every room in every building in the world. While we may tend to think of design in terms of highly desirable objects, this book encourages us to think about design as ubiquitous (from plumbing to television) and as an agent of social change (from telephones to weapon systems). The Design Culture Reader brings together an international array of writers whose work is of central importance for thinking about design culture in the past, present and future. Essays from philosophers, media and cultural theorists, historians of design, anthropologists, cultural historians, artists and literary critics all demonstrate the enormous potential of design studies for understanding the modern world. Organised in thematic sections, The Design Culture Reader explores the social role of design by looking at the impact it has in a number of areas - especially globalisation, ecology, and the changing experiences of modern life. Particular essays focus on topics such as design and the senses, design and war and design and technology, while the editor's introduction to the collection provides a compelling argument for situating design studies at the very forefront of contemporary thought.

*Media Imperialism* Oliver Boyd-Barrett,Tanner Mirrlees,2019-08-19 This book brings together researchers in international communication and global media studies to revisit and advance the concept of media imperialism for 21st century research. Using cases across the globe, this volume is essential for understanding communications media in unequal economic, geopolitical and cultural-ideological power relations.

**The Evolution of Chinese Popular Music** Ya-Hui Cheng,2023-04-14 Ya-Hui Cheng examines the emergence of popular music genres – jazz, rock, and hip-hop – in Chinese society, covering the social underpinnings that shaped the development of popular music in China and Taiwan, from imperialism to westernization and from modernization to globalization. The political sensitivities across the strait have long eclipsed the discussion of these shared sonic intimacies. It was not until the rise of the digital age, when entertainment programs from China and Taiwan reached social media on a global scale, that audiences realized the existence of this sonic reciprocation. Analyzing Chinese pentatonicism and popular songs published from 1927 to the present, this book discusses structural elements in Chinese popular music to show how they aligned closely with Chinese folk traditions. While the influences from Western genres are inevitable under the phenomenon of globalization, Chinese songwriters utilized these Western inspirations to modernize their musical traditions. It is a sensitivity for exhibiting cultural identities that enabled popular music to present a unique Chinese global image while transcending political discord and unifying mass cultures across the strait.

**East-West Identities** ,2007-10-30 While the economic forces shaping globalization are powerful and seemingly getting stronger, they are not immutable, nor are their effects predictable or necessarily overwhelming. Contributors to this book are optimistic that the socio-cultural formations of the future, such as cultural hybridity and cosmopolitanism, will be a viable option for constructing new or renewed global communities of migrants around the world. It is with these tools that migrants are best equipped to navigate the raging torrents of globalization in the new millennium of a post-postmodern era. Globalization brings with it a fear, a sense of loss and demise. It also brings with it a new sense of opportunity and hope. It is in this spirit that this book should be read.

*Cultural Shock-Taiwan* Dr. Georg Woodman,2010-06-07 Its a social statement; exposing the cultural bondage to traditions over common sense, logic and 21st-century-order. The obvious ineffectiveness of government, the lackadaisical enforcements of rules and laws, the selfishness of the individual superseding social orders. The beyond-time mentality over the salvages of most modern innovations - all in total contrast to the other. The daily lifes effect by traditional thinking; yet the attempt to link to the 21st century, in absurd attempts. In my conclusion Id say that Taiwan is still clearly a 3rd-world-country, however willing to pirate for all the modern gadgets, yet unable/willing to surrender outdated traditions and customs. And, in most, not willing to socially unite to and as one (society). Individualism is (still) way too prevalent to announce Taiwan a country and a society.

**Whose Master's Voice?** Fouli T. Papageorgiou,1997-02-19 What are the interactions between transnational communication and national cultures? This work attempts to answer this critical question in the study of culture and communication. It takes as its vehicle of study the music industry and music making in 13 different cultures, presenting an insider's view of a global cultural experience. Of interest to musicologists and sociologists alike, plus anyone fascinated by distant cultures and how they are affected by external as well as internal communication systems. The chapters are a collection of research findings produced for the International Communications and Youth Cultures Consortium (ICYC), an informal group of international scholars in many disciplines who are committed to understanding the economic and social factors that influence cultures and youth. Their point of view in this work is their individual country and the tensions that arise from the development of international communication systems. Each view is from inside the country; external influences are not subjects of study in themselves but are viewed as part of a complex scene along with other variables operating in various national situations.

*A Companion to Pedro Almodóvar* Marvin D'Lugo,Kathleen M. Vernon,2013-02-22 A Companion to Pedro Almodóvar “Marvin D’Lugo and Kathleen M. Vernon give us the ideal companion to Pedro Almodóvar’s films. Established and emerging writers offer a rainbow of insights for fans as well as academics.” Jerry W. Carlson, Professor of Film Studies, The City College & Graduate Center CUNY “Rarely has a contemporary film artist been treated to the kind of broad, rich discussion of their work that can be found in A Companion to Pedro Almodóvar.” Richard Peña, Professor of Film Studies, Columbia University Once the enfant terrible of Spain’s youth culture explosion, the Movida, Pedro Almodóvar’s distinctive film style and career longevity have made him one of the most successful and internationally known filmmakers of his generation. Offering a state-of-the-art appraisal of Almodóvar’s cinema, this original collection is a searching analysis of his technique and cultural significance that includes work by leading authorities on Almodóvar as well as talented young scholars. Crucially included here are contributions by film historians from Almodóvar’s native Spain, where he has been undervalued by the academic and critical establishment. With a balance between textual and contextual approaches, the book expands the scope of previous work on the director to explore his fruitful collaborations with fellow professionals in the areas of art design, fashion, and music as well as the growing reach of a global Almodóvar brand beyond Europe and the United States to Latin America and Asia. It also proposes a reevaluation of the political meanings and engagement of his cinema from the perspective of the profound cultural and historical upheavals that have transformed Spain since the 1970s.

*Popular Music, Cultural Politics and Music Education in China* Wai-Chung Ho,2016-12-08 While attention has been paid to various aspects of music education in China, to date no single publication has systematically addressed the complex interplay of sociopolitical transformations underlying the development of popular music and music education in the multilevel culture of China. Before the implementation of the new curriculum reforms in China at the beginning of the twenty-first century, there was neither Chinese nor Western popular music in textbook materials. Popular culture had long been prohibited in school music education by China’s strong revolutionary orientation, which feared ‘spiritual pollution’ by Western cultures. However, since the early twenty-first century, education reform has attempted to help students deal with experiences in their daily lives and has officially included learning the canon of popular music in the music curriculum. In relation to this topic, this book analyses how social transformation and cultural politics have affected community relations and the transmission of popular music through school music education. Ho presents music and music education as sociopolitical constructions of nationalism and globalization. Moreover, how popular music is received in national and global contexts and how it affects the construction of social and musical meanings in school music education, as well as the reformation of music education in mainland China, is discussed. Based on the perspectives of school music teachers and students, the findings of the empirical studies in this book address the power and potential use of popular music in school music education as a producer and reproducer of cultural politics in the music curriculum in the mainland.
