**Sight Reading: Piano Music for Sight Reading and Short Study, Level 5** Keith Porter-Snell,2020-01-07 The Sight Reading series is a valuable new addition to the Neil A. Kjos Piano Repertoire Library. As they say, You learn to sight read by doing it! This series includes piano music of various textures and styles to be used to improve student sight reading, as well as overall reading skills beginning at the elementary level. The series is useful as a supplement to any course of study and includes original music by Diane Hidy (Prep. to Level 1) and Snell editions of works (Levels 2 to 4) by composers of the 17th through early 20th centuries. The works are brief enough for students to quickly read during their practice. They are also useful as short study pieces that can be practiced, but only for a few days, or at most a couple of weeks. The music is not intended for performance, but rather to improve students' ability to learn new music quickly and efficiently. - Publisher.

Lancaster,David Carr Glover, Sight reading and ear training are two of the most important skills for any musician. Consequently, they should be developed systematically with performance, technical and theoretical skills from the time that keyboard study begins. As new concepts are introduced in the LESSONS book, they are reinforced visually and aurally in SIGHT READING AND EAR TRAINING. These books can be used with equal success in private and group lessons. The reading exercises are based on the premise that students develop secure reading skills by first playing in specific patterns and gradually moving out of these patterns. The recognition of intervals is crucial to the development of good reading habits. In addition, students must be able to quickly identify individual notes and patterns (melodic, harmonic, and rhythmic).
