Take Control of macOS Media Apps Kirk McElhearn,2024-04-12 Discover Apple's Music, TV, Podcasts, and Books apps Version 1.9, updated April 12, 2024 Are you bewildered with the apps that replaced iTunes in macOS? Befuddled by Apple Music? Do you want to customize the Music app sidebar? Wish you could organize your podcasts? Wondering what the difference is between loves and stars? In this book, Kirk McElhearn (author of three previous Take Control titles on iTunes, going back to 2010) explains not only how Apple's media apps work, but also how normal people can make the Music, TV, Podcasts, and Books apps do what they want. Starting in macOS 10.15 Catalina, Apple finally did away with iTunes. In its place are three new apps—Music, TV, and Podcasts—with audiobooks now handled by the Books app and syncing of mobile devices handled by the Finder. Where once iTunes was an all-purpose media hub, now you may use up to five apps to accomplish the same things. The new apps also add more features (while, sadly, removing a few things too). Take Control of macOS Media Apps is your guide to the post-iTunes world. Kirk McElhearn, whose earlier books on iTunes 10, 11, and 12 collectively sold nearly 14,000 copies, is back with a new book that shows you how to manage your music, videos, podcasts, and audiobooks in Catalina and later. Whether you just want to play your media, or you want to go deeper with special features like Genius, Shuffle, Playing Next, Apple Music, and iTunes Match, this comprehensive guide has the answers you need. Kirk also looks at various ways of bringing audio and video into Apple's media apps, tagging songs and videos so you can find them more easily later, creating playlists, sharing your library over a home network, and syncing media with your iPhone, iPad, or iPod. The book covers how to: • Play Music: Learn the basics of playing audio (and even music videos) in the Music app. You'll also find tips on making quick playlists with Genius and Playing Next, learn the best ways to search for the music you want to hear, stream music to other devices in your home, and view lyrics while tunes play. • Stream Music: Use Apple Music, a paid service, to listen to any of 100 million tracks. Or listen to live broadcasts from Apple Music Radio (including Apple Music 1). • View Your Music and Other Content: Learn how to use the sidebar, view your music library, and work with contextual menus in the Music app. • Store Your Music Library in the Cloud: What are the pros and cons of using the Sync Library setting to store your music in the cloud? How do Music and iTunes Match figure out whether to upload your music when that setting is enabled? You'll get answers to these questions and more. • Use the iTunes Store: iTunes may be gone, but the iTunes Store is still open for business! Find tips on shopping in the iTunes Store, and get advice on sharing your purchases with family members and among your various Apple devices. • Tag Your Music: Tags are bits of information (also known as “metadata”) that can describe your media. Learn which tags to bother changing, the best ways to add lyrics and album art, how to rate songs with stars, loves, or both, and more. • Organize Your Music: Make a simple playlist of romantic songs, workout songs, or whatever theme you like. You'll learn how to create smart playlists that, for example, comprise only your 5-star faves or only tunes you haven't heard recently, and how to transfer playlists to the Apple Watch. You'll also find help with operational issues like eliminating duplicates from your music library. • Manage and Share Media Files: Whether you want to casually share a playlist from your laptop when visiting a friend or you want to make all your media available on all your home's computers, you'll find out how Media Sharing and Home Sharing make sharing possible. You'll also learn how to manage massive media libraries and store media files on external drives. • Listen to Audiobooks: Discover how to download and play audiobooks in the Books app, and how to manage your audiobook library. • View Movies and TV Shows: Use the TV app (with or without the forthcoming Apple TV+ service) to watch videos, including those purchased or rented from the iTunes Store and those you add yourself. • Listen to and Watch Podcasts: You'll be sampling and subscribing to podcasts in no time with Kirk's advice, plus you'll pick a method of syncing podcast episodes to your iPhone or iPad and even learn about creating your own podcast station. • Sync Media: You've put all your media on your Mac...now, how do you transfer it to a mobile Apple device such as an iPhone, an iPad, an old-school iPod, or an Apple Watch? And how do you use an Apple TV to enjoy the media on your Mac? Learn the best approach for your situation. • Rip, Burn, and Print: Add content to your media apps with Kirk's detailed steps for “ripping” music CDs and audiobooks. Also learn how to burn music from Music onto a CD, and get directions for printing a song list—for example, to include in the jewel case of said CD. • Extend with AppleScript: Mac users can make the Music and TV apps do more with AppleScript. Learn about key AppleScripts that you can download to make your media apps jump through even more hoops.

The Digital Divide Mark Bauerlein,2011-09-08 This definitive work on the perils and promise of the social- media revolution collects writings by today's best thinkers and cultural commentators, with an all-new introduction by Bauerlein. Twitter, Facebook, e-publishing, blogs, distance-learning and other social media raise some of the most divisive cultural questions of our time. Some see the technological breakthroughs we live with as hopeful and democratic new steps in education, information gathering, and human progress. But others are deeply concerned by the eroding of civility online, declining reading habits, withering attention spans, and the treacherous effects of 24/7 peer pressure on our young. With *The Dumbest Generation*, Mark Bauerlein emerged as the foremost voice against the development of an overwhelming digital social culture. But *The Digital Divide* doesn't take sides. Framing the discussion so that leading voices from across the spectrum, supporters and detractors alike, have the opportunity to weigh in on the profound issues raised by the new media- from questions of reading skills and attention span, to cyber-bullying and the digital playground- Bauerlein's new book takes the debate to a higher ground. The book includes essays by Steven Johnson, Nicholas Carr, Don Tapscott, Douglas Rushkoff, Maggie Jackson, Clay Shirky, Todd Gitlin, and many more. Though these pieces have been previously published, the organization of *The Digital Divide* gives them freshness and new relevancy, making them part of a single document readers can use to truly get a handle on online privacy, the perils of a plugged-in childhood, and other technology-related hot topics. Rather than dividing the book into pro and con sections, the essays are arranged by subject-The Brain, the Senses, Learning in and out of the Classroom, Social and Personal Life, The Millennials, The Fate of Culture, and The Human (and Political) Impact. Bauerlein incorporates a short headnote and a capsule bio about each contributor, as well as relevant contextual information about the source of the selection. Bauerlein also provides a new introduction that traces the development of the debate, from the initial Digital Age zeal, to a wave of skepticism, and to a third stage of reflection that wavers between criticism and endorsement. Enthusiasms for the Digital Age has cooled with the passage of time and the piling up of real-life examples that prove the risks of an online-focused culture. However, there is still much debate, comprising thousands of commentaries and hundreds of books, about how these technologies are rewriting our futures. Now, with this timely and definitive volume, readers can finally cut through the clamor, read the the very best writings from each side of *The Digital Divide*, and make more informed decisions about the presence and place of technology in their lives.

We Hope You Like This Song Bree Housley,2012-10-30 From fourth grade onward, shy, nervous Bree Housley and fearless, outgoing Shelly were an inseparable, albeit unlikely, pair. Their friendship survived everything from the awkward years of junior high to the transformative upheavals of early adulthood—until, at the young age of 25, Shelly lost her life to complications caused by Preeclampsia. *We Hope You Like This Song* is a tribute to the ineffable, incomparable bond that we call friendship, and a celebration of living life to the fullest. Housley recounts how she and her sister found a way to keep Shelly’s memory alive—by spending a year doing crazy things that Shelly would have done, like giving Valentines to strangers, singing at a karaoke bar, and letting her boyfriend pick out her outfits for a week. In the process, she paints a vivid, often hilarious, portrait of her fun-loving, social butterfly best friend and the many adventures they had growing up together in '80s and '90s small-town America. Sweet, poignant, and yet somehow laugh-out-loud funny, *We Hope You Like This Song* is a touching story of love, loss, and the honoring of a friendship after it’s gone.
