**Snow Angel** Thomas Moore, Lisa Helps, 2017-03-16 for SATB, solo cello, djembe, and piano Snow Angel is an evocative five-movement choral work that explores themes of love, rebirth, and beauty through the eyes of children and the heavenly army of angels that watch over them, yearning to make a difference to their lives. The work may be performed with narration, in which three angels present their perspectives on their earthly charges. Quartel weaves a haunting and poignant cello line throughout the work, and a vibrant part for djembe in movement four, 'Sweet child', carries the listener from the ethereal and mystical realm the work predominantly inhabits into an emphatic anthem with a distinctly African feel. The musical language is emotive and pictorial, allowing performers to play an active role in the storytelling. Snow Angel is also available in a version for SSAA.

**Unlikely Angel** Lydia R. Hamessley,2020-10-12 Dolly Parton's success as a performer and pop culture phenomenon has overshadowed her achievements as a songwriter. But she sees herself as a songwriter first, and with good reason. Parton's compositions like I Will Always Love You and Jolene have become American standards with an impact far beyond country music. Lydia R. Hamessley's expert analysis and Parton's characteristically straightforward input inform this comprehensive look at the process, influences, and themes that have shaped the superstar's songwriting artistry. Hamessley reveals how Parton's loving, hardscrabble childhood in the Smoky Mountains provided the musical language, rhythms, and memories of old-time music that resonate in so many of her songs. Hamessley further provides an understanding of how Parton combines her cultural and musical heritage with an artisan's sense of craft and design to compose eloquent, painfully honest, and gripping songs about women's lives, poverty, heartbreak, inspiration, and love. Filled with insights on hit songs and less familiar gems, *Unlikely Angel* covers the full arc of Dolly Parton's career and offers an unprecedented look at the creative force behind the image.

Wham! George & Me Andrew Ridgeley,2019-10-03 It's that time of year again . . . Turn up 'Last Christmas', get the mince pies out and head back to the 80s in the remarkably honest and fascinating autobiography from one half of the world's greatest pop duo THE SUNDAY TIMES BESTSELLER 'I couldn't put it down. Such a fantastic book' Chris Evans, Virgin Radio \_\_\_\_\_ School mates. Band mates.

Soul mates . . . When Andrew Ridgeley took George Michael, the new boy at school, under his wing, he discovered a soul mate. In *Wham! George and Me*, Andrew tells the story of how they rode a rollercoaster of success around the world while making iconic records and surviving superstardom with their friendship intact. It is a memoir of love, music, the flamboyant 1980s and living in a pop hurricane. No one else can ever tell their story - because no one else was there . . . For the first time, Andrew Ridgeley tells the inside story of *Wham!*, his life-long friendship with George Michael and the formation of a band that changed the shape of the music scene in the early eighties. \_\_\_\_\_ 'A joyous celebration of the *Wham!* years. For anyone who was a teenager in the early 1980s, it will take you on a nostalgia trip. It's an honest but affectionate account of a remarkable duo who remained true to their origins and their friendship throughout it all' *Daily Express* 'As infectious as their music' *Daily Mirror* 'A remarkably generous memoir. In more than one sense, the biography of a friend' *Spectator* 'A great story' *Saturday Live*, *Radio 4* 'A lovely book. A love letter to George' *Graham Norton*, *BBC One* 'Charming, heartfelt . . . there's a real poignancy to Ridgeley's description of *Wham!*'s glory days' *Sunday Times*

*New Geographies* Stephen Ramos, Neyran Turan, 2009-09 *New Geographies* journal aims to examine the emergence of the “geographic,” a new but for the most part latent paradigm in design today—to articulate it and to bring it to bear effectively on the social role of design. Although much of the analysis of this context in architecture, landscape, and urbanism derives from social anthropology, human geography, and economics, the journal aims to extend these arguments to the impact of global changes on the spatial dimension, whether in terms of the emergence of global spatial networks, global cities, or nomadic

practices, and how these inform design practices today. Through essays and design projects, the journal aims to identify the relationship between the very small and the very large, and intends to open up discussions on the expanded role of the designer, with an emphasis on disciplinary reframings, repositionings, and attitudes.

Evicted from Eternity Michael Herzfeld,2009-08-01 Modern Rome is a city rife with contradictions. Once the seat of ancient glory, it is now often the object of national contempt. It plays a significant part on the world stage, but the concerns of its residents are often deeply parochial. And while they live in the seat of a world religion, Romans can be vehemently anticlerical. These tensions between the past and the present, the global and the local, make Rome fertile ground to study urban social life, the construction of the past, the role of religion in daily life, and how a capital city relates to the rest of the nation. Michael Herzfeld focuses on Rome's historic Monti district and the wrenching dislocation caused by rapid economical, political, and social change. Evicted from Eternity tells the story of the gentrification of Monti—once the architecturally stunning home of a community of artisans and shopkeepers now displaced by an invasion of rapacious real estate speculators, corrupt officials, dithering politicians, deceptive clerics, and shady thugs. As Herzfeld picks apart the messy story of Monti's transformation, he ranges widely over many aspects of life there and in the rest of the city, richly depicting the uniquely local landscape of

globalization in Rome.

**Post-Traumatic Urbanism** Adrian Lahoud,Charles Rice,Anthony Burke,2010-11-01 **POST-TRAUMATIC URBANISM** Urban trauma describes a condition where conflict or catastrophe has disrupted and damaged not only the physical environment and infrastructure of a city, but also the social and cultural networks. Cities experiencing trauma dominate the daily news. Images of blasted buildings or events such as Hurricane Katrina exemplify the sense of 'immediate impact'. But how is this trauma to be understood in its aftermath, and in urban terms? What is the response of the discipline to the post-traumatic condition? On the one hand, one can try to restore and recover everything that has passed, or otherwise see the post-

traumatic city as a resilient space poised on the cusp of new potentialities. While repair and reconstruction are automatic reflexes, the knowledge and practices of the disciplines need to be imbued with a deeper understanding of the effect of trauma on cities and their contingent realities. This issue will pursue this latter approach, using examples of post-traumatic urban conditions to rethink the agency of architecture and urbanism in the contemporary world. Post-traumatic urbanism demands of architects the mobilisation of skills, criticality and creativity in contexts in which they are not familiar. The post-traumatic is no longer the exception; it is the global condition.

**Projecting Beirut** Peter G. Rowe, Hashim Sarkis, 1998 This volume provides criticism and commentaries from specialists directly involved in the rebuilding process -- a comprehensive survey of Beirut reborn.

Unbuilding David Macaulay, 1987-10-26 “In this wonderfully urbane fantasy” the Caldecott Medal-winning author and illustrator imagines the process of dismantling the Empire State Building (Publishers Weekly). The acclaimed author of *City and Pyramid* now applies his inquisitive mind and stunningly detailed artwork to one of New York’s most iconic buildings. When the Empire State Building is purchased by an eccentric prince who wants to move it to the Arabian Desert, the intricate process of unbuilding begins. Along the way, Macaulay takes young readers on a tour of the skyscraper’s history and architecture and explains the many feats of engineering that went into its construction. His straightforward, informative text is illustrated with “perhaps the finest series of visually expansive, black-and-white perspective drawings, incisive renderings of the skyscraper and its celebrated ‘views’” (The Washington Post).

But having the sexy agent this close, touching her, holding her, only reminded her of all she'd lost...all she still wanted. SHE WAS THE ONLY WOMAN HE HAD EVER LOVED As an FBI agent, Trent Burnell was just doing his job. But as a man who had—who still—loved this woman, protecting Risa from a killer was no longer just standard procedure...it was crucial to their long overdue lifetime of happiness.
