Islam Pocket Guide (Goodword) Maulana Wahiduddin Khan, 2014-03-03 The concept of God in Islam provides man with an ideology in which loss is turned to gain and in which adversity brings with it good tidings. And it is in submission to God and living a God-oriented life that man finds complete fulfilment and purpose of life. When he discovers God and worships Him, when he remembers Him, when his mind is turned towards Him with full concentration, when he makes a request or a plea, he establishes a contact with his Creator. In the words of the Hadith, at that particular moment he comes to whisper with his Lord. He has the tangible feeling that he is pouring his heart out to God and that God in turn is answering his call. He starts receiving inspiration from God. This is the beginning of living a God-Oriented Life and the development of a positive personality Islamic Children's Books on the Quran, the Hadith, and the Prophet Muhammad, kids books games gifts activities puzzles on akhlaq Arabic learning and moral values, stories of sahabah, bestselling children's books by Goodword to teach the glory of Allah, islamic school books

The Pocket Idiot's Guide to Islam Jamal J. Elias, 2002-12-01 -- Islam has experienced the sharpest growth in the U.S. of any non-Christian religion over the last several decades. -- Recent events related to 9/11 and the ongoing conflict in the Middle East are motivating Americans to desire an accurate picture of the Islamic faith as it's currently practiced. -- This guide provides accurate information while no prior knowledge is required. Islam is practiced by a diverse number of peoples from various cultures - estimates show there are nearly 1 billion Muslims worldwide - and yet westerners are not well acquainted with the faith. The deep divide between Muslim and Christian worlds has made the knowledge gap more pronounced, but increasingly, Muslim communities are intermingling with Christian ones in the U.S., raising hopes that greater mutual understanding will result. The Pocket Idiot's Guide to Islam covers the rise of Muhammad and the development of the Islamic community into its two main branches today - Sunni and Shi'i. This condensed guide furthermore explains Islam's central tenants, concepts and ritual, like the Qu'ran and its role in Shari'a law, or the meaning of imam, jihad, Sufi and Ramadan. Islam's opportunities and challenges facing it in today's societies are also examined: from Islam and the role of women to current Muslim politics - both popular and radical are key concerns for many Muslims.

A Christian's Pocket Guide to Islam Patrick Sookhdeo,2001 Have you ever watched a T.V. programme or read a newspaper article where a commentator clumsily illustrates his complete ignorance of Christianity and its claims? How often have you rolled your eyes and immediately discounted what is being said, saying to yourself Well, why should I listen to them when they obviously haven't got a clue!. How, then, can we expect to witness effectively to those of the Muslim faith if all that we know of Islam is picked up from passing references in the media? This fascinating book provides Christians with a simple description of the origins of Islam, what Muslims believe and how it affects their attitudes, worldview, everyday life and culture. Practical guidelines are given for relating to Muslims in a culturally appropriate way, as well as for witnessing effectively and caring for converts. If you long to reach Muslim friends but are wondering where to start then this is the book for you. Book jacket.

The Muslim-Croat Civil War in Bosnia Charles R. Shrader,2003 Although Shrader's work is a detailed, meticulous, analysis by a neutral expert, not everyone will find his conclusions comfortable. Enhanced by maps, useful appendices, and a glossary, this should become the standard work on military operations in Central Bosnia and a useful case study of internal warfare and ethnic conflict.

The 1947 Partition in The East Subhasri Ghosh,2021-12-28 This book explores the experiences of people affected by the Partition of British India and princely states in 1947 through first-person accounts, memoirs, archival

material, literature, and cinema. It focuses on the displacement, violence and trauma of the people affected and interrogates the interrelationships between nationalism, temporality, religion, and citizenship. The authors examine the mass migrations triggered by the 1947 Partition, amidst nationalist posturing, religious violence, and debates on crucial issues of refugee rehabilitation and redistribution of land and resources. It focuses on the drawing of the borders and the ruptures in the socio-cultural bonds within regions and communities brought on by demographic changes, violence, and displacement. The volume reflects on the significant mark left by the event on the socio-political sensibilities of various communities, and the questions of identity and citizenship. It also studies the effects of Partition on the politics of Bangladesh and India's east and northeast states, specifically Bengal, Assam and Tripura. A significant addition to the existing corpus on Partition historiography, this book will be of interest to modern Indian history, partition studies, border studies, sociology, refugee and migration studies, cultural studies, literature, post-colonial studies and South Asian studies, particularly those concerned with Bengal, Northeast India and Bangladesh.

Mapping Partition Hannah Fitzpatrick, 2024-05-06 MAPPING PARTITION "A hugely productive partnership between geography and history, 'Mapping Partition' does a great service to the field of Partition studies - it leaves us in no doubt about both the long-term cartographical processes that contributed to how South Asia was divided in 1947, and the importance of bringing a geographer's insights to bear on this complex history of boundary making." Professor Sarah Ansari, Professor of History (South Asia), Royal Holloway University of London "Fitzpatrick produces spatial readings of partition's knowledge formations, geopolitical imaginaries, administrative cartography, and legal geographical expertise. These enrich the histories and geographies of partition through painstaking archival, textual, and visual analysis which will resonate far beyond historical geography and South Asian studies." Professor Stephen Legg, Professor of Historical Geography, University of Nottingham Mapping Partition delivers the first in-depth geographical account of the partition of India and Pakistan in 1947. The book explores the impact of colonial geography and geographers on the boundary, both during the partition process and in the period preceding it. Drawing on extensive archival research, Hannah Fitzpatrick argues that colonial geographical knowledge underpinned the partition process in heretofore unacknowledged ways. The author also discusses the consequences of placing different ethnic, communal, and linguistic groups onto the colonial map and the growing importance of majority and minority populations in representative democratic politics. Mapping Partition: Politics, Territory and the End of Empire in India and Pakistan is required reading for students and researchers studying geography, colonial and imperial history, South Asian studies, and

interdisciplinary border studies.

Crossing and Dwelling Thomas A. Tweed,2008-03-15 Beginning with a Cuban Catholic ritual in Miami, this book takes readers on a momentous theoretical journey toward a new understanding of religion. At this historical moment, when movement across boundaries is of critical importance for all areas of human life—from media and entertainment to economy and politics—Thomas Tweed offers a powerful vision of religion in motion, dynamic, alive with crossings and flows. A deeply researched, broadly gauged, and vividly written study of religion such as few American scholars have ever attempted, *Crossing and Dwelling* depicts religion in place and in movement, dwelling and crossing. Tweed considers how religion situates devotees in time and space, positioning them in the body, the home, the homeland, and the cosmos. He explores how the religious employ tropes, artifacts, rituals, and institutions to mark boundaries and to prescribe and proscribe different kinds of movements across those boundaries; and how religions enable and constrain terrestrial, corporeal, and cosmic crossings. Drawing on insights from the natural and social sciences, Tweed's work is grounded in the gritty particulars of distinctive religious practices, even as it moves toward ideas about cross-cultural patterns. At a time when scholars in many fields shy away from generalizations, this book offers a responsible way to think broadly about religion, a topic that is crucial for understanding the contemporary world. Lucid in explanations, engaging in presentation, rich in examples, *Crossing and Dwelling* has profound implications for the study and teaching of religion in our day.

International Criminal Law: Cases and Commentary Antonio Cassese,2011-02-24 The decisions presented in the book are helpfully accompanied by short introductions setting out the circumstances of each case and brief commentaries on the importance of the decision and principles illustrated. -- Book Jacket.

Streets in Motion Ritajyoti Bandyopadhyay,2022-08-31 The book studies the social production of motion in a capitalist urban context. In the city of capital, motion refers to a fetish. The bourgeois order posits motion as a metaphor for energy, positivity, and progress – a norm – and obstruction (motion's dialectical opposite) as delinquency. The book uncovers the social tectonics of spatial mobilization and thus demystifies motion. Who and what set spaces on the move? How did various classes of city dwellers activate, experience, and negotiate it? *Streets in Motion* develops an approach to urban history by theorizing and historicizing the 'street' as an apparatus of city-making and subject formation. It works at two registers – a local history of Calcutta in colonial and post-colonial periods, and a theorizing of the logistical and political-cultural centrality of the street within this rubric. It is argued that the street is politics in as much as politics is the production of space.
