Mustang Boss 302 Donald Farr,2011-08-29 Of the legendary names in the history of the Ford Mustang, one stands apart: Boss. Originally created to homologate the new Boss 302 engine for SCCA Trans-Am racing, the Boss 302 Mustang was built in limited numbers for the street. Designed by legend Larry Shinoda, the Boss cars were easily distinguished from their less potent stable mates by their unique front and rear spoilers, rear window slats, and the omission of the standard Mustang's (fake) rear fender brake ducts. Also standard was a shaker hood scoop and bold graphics. Though Mustang performance faded to all-time lows as the 1970s rolled on, there was good news on the way. The pairing of the venerable 302 Windsor engine with the new Fox-body platform for the 1979 Mustang might not have seemed significant at the time, but it was the first edition of what would become a performance institution in the late 20th century: the 5-liter Mustang was an overwhelming force on the streets and tracks through the end of its production in 1995. With no small amount of fanfare, Ford is paying homage to its performance past with the re-introduction of the 5.0 liter powerplant in the Mustang GT for 2011.

Swarm of Five Francis DiPietro,2006-08 Stories in Swarm of Five stand in complimentary contrast to one another, united by an arc of succulent imagery and memorable characters. From the wild, chaotic, wry and politically apocalyptic overtones of Beat Me Sweetly, Heavy Jesus to the subtle complexities of retelling the life of an unknown hero in Legacy of a Teacher, DiPietro strives to capture a diverse sampling from the borderlands of storytelling. The pseudo-autobiographical parody of Groveling Music: The Soundtrack to My Remarried Life presents the most engaging glimpse yet into the mind of this longtime author and veteran of the final age of pulp magazines, with DiPietro escaping to a park in Texas for six days while his new wife, half his age, goes to a resort spa to pamper herself at his expense. Insecurities and bawdy reminiscences abound as DiPietro, aging and rueful of his diminishing sexual prowess, travels the lonely spaces of America in deep thought and strange mood. Shorter works of The Dojo Demon and When Pickpockets Collide are experimental and wide-ranging psychological fantasies which explore the oft-dirty and unenviable depths of human machination. Swarm of Five accomplishes the difficult task of offering engaging tales in a spectrum of tastes and textures.

Mustang by Design James Dinsmore,James Halderman,2018-09-14 p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} Without question, the 1964-1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee

Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich’s detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca’s, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail. During the process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World’s Fair in New York. The Mustang received public accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have stumbled and wound up on the scrap pile of failed new projects. This is the remarkable and dramatic story of how the Mustang came to life, the demanding design and development process, and, ultimately, the triumph of the iconic American car.
