The Head Trip Jeff Warren,2009-03-18 A world at once familiar and unimaginably strange exists all around us, and within us – it is the vast realm of consciousness. In *The Head Trip*, science journalist Jeff Warren explores twelve distinct, natural states of consciousness available to us in a twenty-four-hour day, each state offering its own kind of knowledge and insight – its own adventure. The hypnagogic state, when our minds hover between waking and sleeping, can be a rich source of creativity and even compassion. Then there's the Watch, an almost magical waking experience in the middle of the night that has been all but lost to electric light and modern sleep patterns. Daydreaming and trance, lucid dreaming, the Zone, and the Pure Conscious Event – from sleep laboratory to remote northern cabin, neurofeedback clinic to Buddhist retreat, Warren visits them all. Along the way, he talks to neuroscientists, chronobiologists, anthropologists, monks, and many others who illuminate his stories with cutting-edge science and age-old wisdom. On this trip, all are welcome and no drugs are required: all you need to pack are a functioning cerebrum and an open mind. Replete with stylish graphics and brightened by comic panels conceived and drawn by the author, *The Head Trip* is an instant classic, a brilliant and original description of the shifting experience of consciousness that's also a practical guide to enhancing creativity and mental health. This book does not just inform and entertain – it shows how every one of us can expand upon the ways we experience being alive.

Earth Force Shemer Kuznits,2019-04-30 On the first day, a mist descended from the heavens blanketing Earth.On the second day, a cryptic message, 'Infusion commencing', appeared in the corner of everyone's eyes. On the third day, the sick were healed and the crippled walked again. On the fourth day, celebration and joy spread across the globe. And on the fifth day, the warping began...There was no warning. A mist descended from the sky, disabling all technology and causing a weird message to appear at the corner of everyone's eye. The situation grew even worse as animals and people started to warp, transforming into terrible monsters that prey on the livings. Within months, human civilization had crumbled. Unable to fight the seemingly-indestructible beasts, the survivors are reduced to cowering in reinforced shelters. Waiting for the end to come. Helpless. All seemed lost until a few brave souls discovered the secret of their new reality: the Tec and how to use it to level up. Together they represent humanity's last best hope for salvation. But they first must find the answers to the mystery of their new existence. Their journey will require them to quickly adapt to alien technology, operate strange spaceships, and even befriend an extra-terrestrial merchant with an Inferiority Complex.

The Poetry Alarm Clock Jill Jennings, 2008-05 In *The Poetry Alarm Clock*, you will meet a drunk with smeared lipstick who shows up only at midnight; a lady enshrined forever on a restaurant wall; a little boy with Shaken Child Syndrome who just wants a home; a backyard with magical properties; a colonel in the Army who wears orange socks; and a factory worker in a drug plant who runs out of pills for herself. Images like these you won't be able to get out of your mind, and they are on every page of this volume. Poems set like jewels in a jester's crown of the ironic, the ridiculous and the tragic, *The Poetry Alarm Clock* brings you people you feel you already know as well as new ones you want to know more about. Coming from the mind of a woman who worked in television, newspapers, magazines and public relations, and then gave it all up to teach Latin in the public schools, this book of poetry will appeal to you, even if you hated poetry in high school.

My First Alarm Clock Rajeshwari Hiremath, Amit Bharti, 2020-03-29 Life is full of little comforts that we take for granted. When was the last time that you even thought about your alarm clock as a blessing? How would you feel if you couldn't keep track of time? What kind of difficulties would you run into? We often take the everyday comforts and simple things of life - the little tools and objects that we use on a regular basis - for granted. Unfortunately, for many people the vast majority of these things are not readily available. Amit's story is a testament to how life would be different without even one of these simple comforts. It's the year 2000. Amit is a 10-year-old boy in 5th grade, and despite his age he is very diligent and polite. However, Amit continuously loses track of the time because he doesn't have a watch or alarm clock. Because of this, he's often late getting to school, and he has to be awakened by his father in the morning. Amit's father is a very strict man when it comes to studies and school. He wakes up his son everyday at 4 a.m., places a candle on Amit's desk, and urges him to study before going to school. Sometimes, our young protagonist is so absorbed by his books that he doesn't even notice the sky turn from dark to light outside his window. One day at school, the principal announces that whoever gets the highest marks and comes first in the next exam will be given an alarm clock as a prize. Will Amit be able to come in first and finally get his own alarm clock? Or will he find difficulties along his path that may cause him to miss his goal? The only way to find out is by reading *My First Alarm Clock: Inspiration* Book by Amit Kumar Bharti, an inspirational short story based on the author's life experiences. What are you waiting for?
