psychological foundations. With discussion and practical exercises, this volume suggests that an infusion of creative techniques can offer pathways through writing blocks in the academic environment. The case studies provide an in-depth consideration of varying experiences of writing blocks. The book is aimed at students with essays, projects or reports to write, or theses to tackle; as well as academics who are working on articles and books. It will also offer insights for supervisors who wish to support those who are writing and guidance for people running writing groups within academia.
