The Insiders' Guide to Becoming a Yacht Stewardess

Julie Perry, 2013-08-01 Part how-to guide, part travelogue, this book not only outlines the step-by-step process to getting a job on a luxury yacht, it also reveals what life is really like aboard these oceangoing toys.

DREAM CRUISES Imagine Media LLC, 2007-10-12 Tips for Booking Trips on All Budgets-from \$1,000 to \$1,000,000 Kevin compares cruise ships and yacht charters to showcase the biggest advantage of the latter: personalized comfort. -Soundings Charter cruising comes in many flavors, from fully crewed luxury megayachts to pilot-your-own bareboats, and Kim Kevin has sampled just about all of them. -Offshore Say good-bye to lengthy security lines, overpriced piña coladas, and jam-packed shore excursions. Never again will your cruise vacation include jostling with crowds, squishing into a kiddie-filled swimming pool, or rushing back from a land tour in time for a pre-assigned dinner seating on a massive, impersonal ship. Dream Cruises introduces you to the joys of private yacht charter vacations, a fast-growing and often surprisingly affordable alternative to cruise ships. With charters, you get the whole boat for your family and friends, with a crew catering only to you, and you go wherever you choose-from Alaska to the South Pacific. Based on first-hand experience as well as advice and information from sixty charter-industry experts worldwide, Dream Cruises explains which kinds of yachts are available, where to book them, how to find a trustworthy broker, what you can expect to pay, and much more. Why book another cabin when you can have the whole boat for yourself?

The Automatic 2nd Date Victorya Michaels Rogers, 2007-10-16

For women who long for serious commitment in a relationship, the harsh reality is that if they can't get a man to call them back for a second date, they will be doomed to a life of single-date relationships with no till death do us part. Dating expert, Victorya Michaels Rogers, author of *Finding a Man Worth Keeping*, tells how in this book she went from no dates to being pursued by an Academy Award winner, a rock star, a gospel singer, a preacher, an athlete, and more--until she found the man she decided was worth keeping. Rogers has dating down to a science, and shares her expertise in sure-fire, guaranteed-to-work secrets. And the best part is that these secrets work for any single woman at any age--secrets that will teach readers how to:

- Evaluate her own personal plusses and minuses and learn how to enhance her finest qualities while minimizing negatives.
- Find eligible men, even involving friends and family in her search
- Flirt just enough to get him to come over and ask her out
- Charm her way through her first phone call
- Dress for the first date
- Establish rapport and relax in the first fifteen minutes of her first date
- Keep the first-date conversation all about him so she can (1) see if he matches her wish list and (2) keep him interested in his favorite subject--himself.
- Use body language, gestures, and vocal tone to communicate just what she wants him to know
- Flatter a man with believable, genuine compliments
- Know how far to go on the first date
- Let him down easy if there's no spark
- Not to scare

him off by being too pushy Rogers has discovered the secrets to finding and keeping the man of your dreams and has proven that her methods work. She went on dates with more than one hundred men in eighteen months, 98 percent of whom asked her out for a second date. Written for women, by a woman who practiced what she preaches, this book is guaranteed to teach women how to transform their repeat-date ratio.

In the Service of Aeolus Peter Foerthmann,2022-09-12 Peter Foerthmann has spent his life in the service of Aeolus, the Keeper of the Winds. He learned to harness the power of the wind first as a sailor and then as the man behind the Windpilot windvane self-steering company. The winds of fortune have by turns favoured (his serendipitous meeting with Windpilot founder John Adam, for example) and tormented (numerous legal entanglements being the most prominent example) him without ever managing to blow him entirely off course - a course that stretches to the horizon and beyond, where sailing dreams become reality (at least for those with the right transom ornament). This book presents the recollections of a self-taught original who, heedless of convention and rely-ing strictly on his own internal compass, has developed a unique understanding of social interaction among sailors, who have rewarded him in turn by spreading the word about his products effectively enough to make Windpilot the world market leader for windvane self-steering systems. Building up the company and developing a product that enables sailors the world over to enjoy long passages freed from the need to steer continuously has given Peter an all but unparalleled insight into blue-water sailing and an expertise in various related areas that he has shared in several highly regarded specialist publications. A compulsive writer, Peter takes as much pleasure in choosing his words as he does in telling his story, the story of how he swapped a boat for the idea that became his life, how he went from a traditional workshop-based operation building everything by hand to

what must surely be one of the world's smallest state-of-the-art industrial manufacturing companies and, most importantly of all for him, how he has managed to defend and maintain his independence both commercially and socially by sticking to his principles - fairness, respect, empathy - and learning, not without incident, to choose his friends wisely. Above all, this is the story of half a century in the windvane self-steering business, a story that - Aeolus willing - still has a long way to run.

The American Sailboat Gregory O. Jones,2001-12-06 A

round the turn of the century, with steam power commonplace and the internal-combustion engine just emerging as a revolutionary development, the sailboat began to make the transition from work boat to pleasure boat. This definitive chronology of American sailboats from 1900 to 1970 provides an in-depth look at the evolution of recreational vessels created by such prominent boatmakers as Catalina, Hunter, Island Packet, Tartan, Morgan, Mason, Cabo, Rico, Dufour, Alden, Oday, Cambria and Herreshoff. Archival black-and-white and modern color photography details the evolution of sailboats and advances in boating technologies and hull designs. All of the key classes are featured, as are famous racing sailboats that influenced the design of production models.
