**The Map** Stef Tovar, 2021-10-15 The MAP: An Actor's Guide to On-Camera Acting teaches on-camera acting in a practical and technical way—helping new actors understand the rules of on-camera acting as if they are learning a foreign language and applying that language to their acting skill set. The book gives actors a step-by-step technique on how to audition for on-camera acting jobs and what to do on set after booking them. Many on-camera acting books are written by established movie stars and aren't geared toward actors in an undergraduate acting program or those who are just starting to audition for on-camera jobs for the first time. Stef Tovar teaches his proven on-camera acting technique, shows actors how to make the perfect self-tape, and prepares them for life on set—detailing the differences between working in the theater vs. working in television and film. The author peppers the text with his own stories from set as examples, including auditioning for Lee Daniels and working with Matt Damon, Steven Soderbergh, and many others. The MAP is a funny and encouraging perspective from a seasoned actor who shares with aspiring actors things no one tells you before booking your first on-camera acting job.

Partnering with HMS: A Guide for App Developers

Xihai Wang,Yue Wang,Hailiang Wu,2021-09-20

Partnering with HMS: A Guide for App Developers is the first book to introduce readers to the Huawei Mobile Services (HMS) ecosystem. It gives developers a fundamental understanding of the ecosystem and how to leverage kit and tool capabilities to make their apps better. This book is also a quick start guide for kit integration and practical environment setup, detailing the functions and principles behind each kit. By demonstrating how to integrate kits, the authors teach these kits by action: Account Kit, IAP, Push Kit, Location Kit, Map Kit, Site Kit, Safety Detect, and FIDO. Readers are fully introduced to how they can use HMS open capabilities to develop quality apps, acquire users, and monetize their hard work. In addition, the ecosystem background – the business model and value chain that underpin the entire ecosystem as well as its privacy compliance framework – is crucial to operations and illustrated in this book.

**Spy Dust** Antonio Mendez, Jonna Mendez, Bruce

Henderson, 2003-11-07 From the author of the Golden Globe winner and Oscar nominated *Argo*, a true-life thriller set against the backdrop of the Cold War, which unveils the life of an American spy from the inside and dramatically reveals how the CIA

reestablished the upper hand over the KGB in the intelligence war. From the author of the Golden Globe winner and Academy Award winner *Argo*... Moscow, 1988. The twilight of the Cold War. The KGB is at its most ruthless, and has now indisputably gained the upper hand over the CIA in the intelligence war. But no one knows how. Ten CIA agents and double-agents have gone missing in the last three years. They have either been executed or they are unaccounted for. At Langley, several theories circulate as to how the KGB seems suddenly to have become telepathic, predicting the CIA's every move. Some blame the defection of Edward Lee Howard three years before, and suspect that there are more high-placed moles to be unearthed. Others speculate that the KGB's surveillance successes have been heightened by the invention of an invisible electromagnetic powder that allows them to keep tabs on anyone who touches it: spy dust. CIA officers Tony Mendez and Jonna Goesser come together to head up a team of technical wizards and operational specialists, determined to solve the mystery that threatens to overshadow the Cold War's final act. Working against known and unknown hostile forces, as well as some unfriendly elements within the CIA, they devise controversial new operational methods and techniques to foil the KGB, and show the extraordinary lengths that US intelligence is willing to go to protect a source, then rescue him when his world starts to collapse. At the same time, Tony and Jonna find themselves falling deeply in love. During a fascinating odyssey that began in Indochina fifteen years before and ends

in a breathtakingly daring operation in the heart of the Kremlin's Palace of Congresses, Spy Dust catapults the reader from the Hindu Kush to Hollywood, from Havana to Moscow, but cannot truly conclude until its protagonists are safely wedded in rural Maryland.

*Moving-With & Moving-Through Homelands, Languages & Memory* ,2017-01-01 This book is a work of walkography: its central source is the use of walking as a mode of inquiry, which is shared through the 'ography' of an account or portrayal that is written, visual, performed. The 'walk' of this walkography is an embodied movement through space, as well as a performance 'drawing', of experience and encounter. This method of inquiry resonates with the fundamental premise of this work, that of migration and diaspora.

**Practical Dreamers** Mike Hoolboom,2004-04-14 'The streets are full of admirable craftsmen, but so few practical dreamers.' – Man Ray What if there were movies made the same way as suits, custom fitted, each one tailored for one person? Not broadcast, but narrowcast? Not theatres around the world showing the same globalized pictures, but instead a local circumstance, a movie so particular, so peculiar, it could cure night blindness or vertigo? Welcome to the world of fringe movies, where artists have been busy

putting queer shoulders to the wheels, or bending light to talk about First Nations rights (and making it funny at the same time), or demonstrating how a personality can be taken apart and put together again, all in the course of a ten-minute movie which might take years to make. Practical Dreamers takes us to this other side of the media plantation. In it, twenty-seven Canadian artists dish about how they get it done and why it matters. The conversations are personal, up close and jargon free, smart without smarting. The stellar cast includes smartbomb Steve Reinke; visionary Peter Mettler; Middle East specialist Jayce Salloum; queer Asian avatars Richard Fung, Midi Onodera, Ho Tam, and Wayne Yung; footage recyclers Aleesa Cohene and Jubal Brown; overhead projector king Daniel Barrow; First Nations vets Kent Monkman and Shelley Niro; international art presence Paulette Philips; and documentarian Donigan Cumming. These in-depth talks come lavishly illustrated in an oversized volume.
