In the Company of Cars Sarah Redshaw,2017-09-29 It has long been accepted that the social and cultural meanings of the car far exceed the practical need for mobility. This book marks the first attempt to contribute to road safety, considering, in depth, these meanings and the cultures of driving that are shaped by them. *In the Company of Cars* examines the perspectives that young people have on cars, and explores the broader social and cultural meanings of the car, the potential it is supposed to fulfil, and the anticipated benefits it offers to young drivers. From focus-group research conducted in Australia, the book takes up the views of young people on a range of topics, from media to car use to gender performance. The author looks at the ways in which driving has been defined by articulations of the car that emphasize valued features of the car-driver, such as gender, youthfulness, status, age, power, raciness, sexiness, ruggedness and competitiveness. The book takes a global perspective on mobility, considering the impact of cars and road safety policy on quality of life, and the value and significance of other modes of travel, in a range of countries.

Never Stop Driving Larry Webster,2019-06-11 With glorious photography and sharp writing, *Never Stop Driving* presents the case for the mental and social benefits of driving and engaging with automobiles. It also shows you—from dreaming about a car to living with it—how to jump in and get the most from your machine. There's never been a better time to go for a drive. As a nation, we are chronically overstressed, overworked, and not sleeping enough. Worse yet, our digital devices are taking ever increasing chunks of what remaining free time we do have. Activities that force us to engage with ourselves and the environment around us are needed more than ever. Might I suggest a spin in a four-wheeled escape pod? The car—the act of driving, repairing, maintaining—drives out distraction and demands we be “present.” Making the car a pursuit invites not just the freedom of the road, but the potential to connect with thousands of like-minded individuals as well as the pleasure of simply caring for the machine. Further, there's the thrill of commanding an object that represents a high point of human ingenuity and design. Cars invite passion. The first step is embracing the itch and acting on it. Learn how to choose your perfect weekend car, hunt for it, and make the deal. Then, find peace in the wrenches

with tips on taking the plunge into maintaining your ride, including how your car can be an opportunity to tear your kids away from their screens and strengthen your bond with them. Next, explore the joy of driving, from scenic byways to taking your car to its performance limit. You'll also tour the various highlights of the driving life, like how to become an automotive archaeologist, the possibilities for those short on cash but high for adventure, the car as a social gathering point, and what the future with autonomous cars means for those who love to drive. *Never Stop Driving* shines some light on why we find these machines so captivating, offering some inspiration and validation, and finally inviting those who are curious but haven't made the leap to get in the car. O'Rourke, 2010-05-11 The #1 New York Times–bestselling humorist's tribute to car travel is “a ride worth taking, even for readers who don't know an oil pan from a frying pan” (The Washington Times). From a veteran of both *Car and Driver* and *National Lampoon* magazines, this hilarious book chronicles the golden age of the automobile in America—and takes us on a whirlwind tour of the world's most scenic and bumpiest roads in trouble-laden cross-country treks, from a 1978 Florida-to-California escapade in a 1956 special four-door Buick sedan, to a thousand-mile effort across Mexico in the Baja 1000 in 1983, to a journey through Kyrgyzstan in 2006 on the back of a Soviet army surplus six-wheel-drive truck. For longtime fans of the celebrated humorist, the collection features a host of O'Rourke's classic pieces on driving, including “How to Drive Fast on Drugs While Getting Your Wing-Wang Squeezed and Not Spill Your Drink,” about the potential misdeeds one might perform in the front (and back) seat of an automobile; “The Rolling Organ Donors Motorcycle Club,” which chronicles a seven-hundred-mile weekend trip through Michigan and Indiana that O'Rourke took on a Harley-Davidson; his brilliant and funny piece from *Rolling Stone* on NASCAR and its peculiar culture recorded during an alcohol-fueled weekend in Charlotte, North Carolina, in 1977; and an hilarious account of a ride from Islamabad to Calcutta in Land Rover's new Discovery Trek. “Never in neutral, O'Rourke offers laughter on wheels.” —Publishers Weekly “An insightful look not just at the American love affair with cars, but also at one man's changing outlook on life, all of it fast-paced and over the top . . . Even readers who know nothing about cars and motorcycles will appreciate the joy and hilarity of this book.” —Booklist

Driverthink Frank Miller,2009-06 Driverthink is not just another Go Slow Safe Driving guidebook. Within its pages are reality based driving tips, ideas and suggestions that can literally save your life For too long, the focus on safe driving has been to expound Politically Correct driving concepts that simply don't take into account the Reality of driving a vehicle at high speed on modern roads and highways. Otherwise responsible people don't suddenly shed their responsibility when they slip behind the wheel. But they don't often really think about their driving either. Thus the title Driverthink. In order to be responsible, safe drivers, we need to think about our driving. We need to know our machines, know our limitations, maximize our driving skills and gain driving experience as quickly as possible. Driverthink breaks new ground by exploring each of these areas in lively, entertaining detail. Drive Fast or Drive Slow - but Driverthink when you drive Driverthink is a collection of articles from the popular blog of the same name. Written in a lively and entertaining style, each of the articles explore specific driving situations or issues in detail, offering driving tips, ideas and suggestions on how to deal with the different situations. Driverthink is an excellent review for the seasoned driver and a must read for the newer, less experienced driver. Driverthink would suggest that Speed may kill, but unskilled driving can definitely kill. Does the average driver even know what over steer or under steer are? Do they know what kind of rear suspension they're driving on? Do they really understand how these most basic driving concepts will affect the handling of their vehicles - especially in an emergency situation? Driving on our roads and highways must be about reality. It is dealing with that reality that will keep us alive. Following standard issue, politically correct advice offered by those with limited skills and no appreciation for the realities of driving, simply doesn't create safer driving. Just Slow Down, might not be the best advice on a highway where even the slow lanes are doing limit plus ten. High speed rear end accidents can really ruin the day and excessively slow driving will most surely restrict traffic flow. Perhaps it's not the best advice after all Driverthink is a most serious effort by the author, to start really saving lives on our Highways and Byways. It will help you to become a much safer Driverthink driver It may even save your life.

Drive Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of When: The Scientific Secrets of Perfect Timing Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of To Sell Is Human: The Surprising Truth About Motivating Others). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction-at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose-and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Two novels Haruki Murakami,2006 Two of Murakami's early novels are brought together. Dark, dry and downright weird, 'A Wild Sheep Chase' is the story of a man, a girl, her ears and a very special sheep. 'Dance Dance Dance' is part murder-mystery, part metaphysical speculation.
