I Like My Car Michael Robertson,2018-10-23 Cars, colors, and funny animals abound in this simple Level B I Like to Read book for young readers. The rhino loves his red car . . . which just happens to have a rhino-horn hood ornament. And the alligator loves her green car that has sharp teeth and spikes just like hers! The shark's car has a fin and a tail. The funny animals in this book match their equally funny cars as they all make their way to a party! With very simple text and detailed, cartoonish illustrations, this is a great read-aloud for kids who love cars-- and an ideal book for beginning readers just learning to read on their own. The award-winning I Like to Read® series focuses on guided reading levels A through G, based upon Fountas and Pinnell standards. Acclaimed author-illustrators--including winners of Caldecott, Theodor Seuss Geisel, and Coretta Scott King honors--create original, high-quality illustrations that support comprehension of simple text and are fun for kids to read again and again with their parents, teachers or on their own! Level B books, suitable for kindergarten readers, feature short sentences and high-frequency words. The illustrations provide clues to word meanings. When Level B is mastered, follow up with Level C.

Libby soon discovered female automotive enthusiastseverywhere-including one woman who loved her car so much that her family buried her in it! During formative years in Dangle, Wyoming, Henry becomes convinced that he possesses the power to orchestrate real world events by pure force of will. The maker of miracles at first exults in his power, but soon realizes there are rules to its exercise, some of which will be disclosed only after he breaks them. Having confabrilated his brother Robert's romance with a college co-ed, Henry infers that he is responsible for subsequent failure of the couple's marriage. As a consequence of willing his wife's pregnancy, he assumes blame for her miscarriage. Mother Otis dies in a car wreck because her younger son, at an unguarded moment, wishes she'd get lost. But what offense did Henry commit against the power beyond to cause the death of his best friend Jeffery, a peace officer, who takes a bullet to the chest while attempting to resolve a domestic dispute. Nearly catatonic from compounded grief, Henry loses his job as a police dispatcher, is committed to the psyche ward at the local hospital and, upon release, dutifully attends regular therapeutic sessions with a psychologist. One afternoon his therapist cancels an appointment, and he returns home unexpectedly to discover that brother Robert and wife Holly have become lovers. There follows a frantic chase to the Mexican border, with the betrayed husband racing to outdistance a team of insidious deceivers. In Mexico, Henry follows a

group of pilgrims into a cave, and there learns that he has been assigned a sacred mission, which is also his last chance at redemption. Aided by desert animals, ambulant campesino skeletons and a Downs-syndrome angel, he manages to save a holy golden cross from evil forces that conspire to cast the entire world in darkness. Is Henry Otis nuts? He'd say it's hard to tell, once you get rolling.

Thats Not My Car Fiona Watt, 2004 Synopsis coming soon.....

Where Is My Flying Car? J. Storrs Hall, 2021-11-30 From an engineer and futurist, an impassioned account of technological stagnation since the 1970s and an imaginative blueprint for a richer, more abundant future The science fiction of the 1960s promised us a future remade by technological innovation: we'd vacation in geodesic domes on Mars, have meaningful conversations with computers, and drop our children off at school in flying cars. Fast-forward 60 years, and we're still stuck in traffic in gas-guzzling sedans and boarding the same types of planes we flew in over half a century ago. What happened to the future we were promised? In *Where Is My Flying Car?*, J. Storrs Hall sets out to answer this deceptively simple question. What starts as an examination of the technical limitations of building flying cars evolves into an investigation of the scientific, technological, and social roots of the economic stagnation that started in the 1970s. From the failure to adopt nuclear energy and the suppression of cold fusion technology to the rise of a counterculture hostile to progress, Hall recounts how our collective ambitions for the future were derailed, with devastating consequences for global wealth creation and distribution. Hall then outlines a framework for a future powered by exponential progress—one in which we build as much in the world of atoms as we do in the world of bits, one rich in abundance and wonder. Drawing on years of original research and personal engineering experience, *Where Is My Flying Car?*, originally published in 2018, is an urgent, timely analysis of technological progress over the last 50 years and a bold vision for a better future.
