The Expression of the Passions Jennifer Montagu,Charles Le Brun,1994-01-01 In 1688, Charles Le Brun, a French academician, delivered a lecture on expression that was so popular it was published in sixty-three separate editions and influenced all discussion of the subject throughout Europe for over a century. This book reconstructs and translates the text of the lecture (badly garbled in all previous versions), explores the context in which it was conceived, delivered, received, and finally rejected, and reproduces the images that accompanied the lecture.

Romanticism and Caricature Ian Haywood,2013-10-24 Ian Haywood explores the 'Golden Age' of caricature through the close reading of key, iconic prints by artists including James Gillray, George and Robert Cruikshank, and Thomas Rowlandson. This approach both illuminates the visual and ideological complexity of graphic satire and demonstrates how this art form transformed Romantic-era politics into a unique and compelling spectacle of corruption, monstrosity and resistance. New light is cast on major Romantic controversies including the 'revolution debate' of the 1790s, the impact of Thomas Paine's 'infidel' Age of Reason, the introduction of paper money and the resulting explosion of executions for forgery, the propaganda campaign against Napoleon, the revolution in Spain, the Peterloo massacre, the Queen Caroline scandal, and the Reform Bill crisis. Overall, the volume offers important new insights into the relationship between art, satire and politics in a key period of history.

Just Drawings Wagner Anarca ''Papis'',2013-05-10 My buddy Wagner is a nice friend... He loves so much to draw and sometimes even forget that I'm just there waiting for us to play together ... Sometimes whenever he stares at me, I think that he will throw a ball for me to grab in the air and show-off for him. But then he looks back and

go for his notebook, and stares back at me like a child scribbling ... Sometimes he talks to me with in a very strange and weird voice; I fell a little afraid of the way he does that. There are times I do not understand why after he wets me and he seem to regret it because he immediately dry me up with a nice smelling towel. He taught me many things of his little world like sit, stop, dance, run , pee in right places and to play ball - that I enjoy so much ! I can state here that he really loves his drawings much more than me because he is always there playing with his notebook....

British Art and the Seven Years' War Douglas Fordham,2010-09-10 Between the Jacobite Rebellion of 1745 and the American Declaration of Independence, London artists transformed themselves from loosely organized professionals into one of the most progressive schools of art in Europe. In *British Art and the Seven Years' War* Douglas Fordham argues that war and political dissent provided potent catalysts for the creation of a national school of art. Over the course of three tumultuous decades marked by foreign wars and domestic political dissent, metropolitan artists—especially the founding members of the Royal Academy, including Joshua Reynolds, Paul Sandby, Joseph Wilton, Francis Hayman, and Benjamin West—creatively and assiduously placed fine art on a solid footing within an expansive British state. London artists entered into a golden age of art as they established strategic alliances with the state, even while insisting on the autonomy of fine art. The active marginalization of William Hogarth's mercantile aesthetic reflects this sea change as a newer generation sought to represent the British state in a series of guises and genres, including monumental sculpture, history painting, graphic satire, and state portraiture. In these allegories of state formation, artists struggled to give form to shifting notions of national, religious, and political allegiance in the British Empire. These allegiances found provocative expression in the contemporary history paintings of the American-born artists Benjamin West and John Singleton Copley, who managed to carve a patriotic niche out of the apolitical mandate of the Royal Academy of Arts.

Binominal Quantifiers in Spanish Katrien Dora Verveckken,2015-07-24 Quantification is central to human experience (cf. Aristotle's *Organon*): the most basic aspects of human life and reasoning involve quantity assessment. This study sheds lights on a highly frequent way to express quantification in Spanish, viz. the binominal quantifier (e.g. un aluvión_{N1} de llamadas_{N2} 'a flood of calls') which assesses the quantity of N₂ in terms of N₁. This volume offers a corpus-based, cognitive-functional analysis of binominal quantifiers (BQ) in Spanish. The first part is dedicated to the development of BQs and starts from the assumption that BQs are cross-linguistically involved in grammaticalization. This monograph frames the history of BQs in Spanish in terms of constructional levels of change and highlights the complex interplay between analogical thinking and conceptual persistence. The second part motivates both the ample variation in the paradigm of quantifying nouns and their combinatorial pattern by the very same mechanism of conceptually-driven analogy. The study thus yields an innovative functional model of BQs in Spanish, in synchrony and in diachrony, with major implications for reference grammars and theory building.

Classics in the Modern World Lorna Hardwick, Stephen Harrison, S. J. Harrison, 2013-10 Classics in the Modern World explores the features and implications of a 'democratic turn' in modern perceptions of the ancient world. Exploring the relationship between Greek and Roman ways of thinking and modern definitions of democratic practices and approaches, it enables a wider re-evaluation of the role of classics in the modern world.
