Me and My Cars Liesbet Slegers,2018-04 Come along on a ride to learn about all kinds of cars and trucks.

My Cars and My Life Phillip Leopold,2021-04 From age 14, Phil Leopold has owned, driven, and loved cars. Now, he's sharing that love with you. This humorous and reflective memoir walks readers through each of the 30 cars Phil has owned in his 78 years, from a Model A Ford that required 16 steps to start the engine to an Acura SUV that doesn't even need a key. Phil discusses the details of each car, the adventures they allowed him to take, and how his relationship with his cars has changed with the addition of new technology. Since Phil grew up in western Nebraska on a farm, there wasn't much to do other than work. When cars broke down out in the pasture, the farmer just left them where they died. Phil and two friends would resurrect old vehicles to get it running and play with them. This provided a lot of entertainment and learning about how a car or pickup works. Unfortunately most of them stayed dead. Growing up on the farm meant I drove a tractor, pickup, and truck from age 12. My first job was plowing a field for a neighbor with a John Deer tractor at age 12 1/2 for 25 cents an hour. A school permit for driving to and from school was available at 14 1/2 years old. The day I got my first car gave me freedom.

My First Forty Cars Nelson Bolan,2015-08-31 With a grandfather who drove a horse car in 1900 and who later had a 25-year career as a chauffeur for a wealthy family, Nelson Bolan has a unique viewpoint about the automotive industry during the first half of the 20th century. In later years, Bolan began his own car acquisitions. His first, a 1929 Chevrolet, was purchased for \$100 in celebration of his brother's safe return from World War II and his own high school graduation. It had an outside gasoline gauge, and if the driver forgot to read the gauge before getting into the driver's seat, he had no way of knowing how much fuel he had. (Chevrolet made the change to dashboard gauges in 1930.) The car also had actual wooden floor boards, which were removed and reinstalled easily when servicing was necessary. This automotive memoir includes a chapter for each of Bolan's first forty cars, including photographs of the actual vehicles where possible. Most were well aged at the time of purchase; the earliest was a 1917 Dodge Brothers. A nostalgic but factual recollection of each car in the order it was acquired, the book includes interesting information about each model and Bolan's mechanical adventures from the 1940s to the 1990s.

Cars Cars Cars Brian C. Laforest,2014-03-04 He had loved automobiles since his earliest memory. But when that special day arrived to have one of his very own, Brian never dreamed he would befriend so many; each with its own personality and bearing a curious, sometimes heart-wrenching story. To some people, their automobiles are more than mere transportation, and unshakeable

bond of friendship forms between them. And although a day may come when each will go their separate ways, this friendship will remain forever. In *Cars, Cars, Cars: The Vehicles that Drove My Life*, author Brian LaForest shares sixty-six personal stories of this kind of friendship. From tragedy to triumph and back again, the reader is along on a fascinating ride through each vehicle's story; from his first old-jalopy, to his most recent prize. But along this road too, in the middle of the journey, there is an even greater story being told. Book jacket.

It's hours upon hours of fun—and an effortless introduction to literacy to boot. About Wimmelbooks Wimmelbooks originated in Germany decades ago and have become a worldwide sensation with children (and adults!) everywhere. I Like My Car Michael Robertson, 2018-10-23 Cars, colors, and funny animals abound in this simple Level B I Like to Read book for young readers. The rhino loves his red car . . . which just happens to have a rhino-horn hood ornament. And the alligator loves her green car that has sharp teeth and spikes just like hers! The shark's car has a fin and a tail. The funny animals in this book match their equally funny cars as they all make their way to a party! With very simple text and detailed, cartoonish illustrations, this is a great read-aloud for kids who love cars-- and an ideal book for beginning readers just learning to read on their own. The award-winning I Like to Read® series focuses on guided reading levels A through G, based upon Fountas and Pinnell standards. Acclaimed author-illustrators—including winners of Caldecott, Theodor Seuss Geisel, and Coretta Scott King honors--create original, high-quality illustrations that support comprehension of simple text and are fun for kids to read again and again with their parents, teachers or on their own! Level B books, suitable for kindergarten readers, feature short sentences and high-frequency words. The illustrations provide clues to word meanings. When Level B is mastered, follow up with Level C.

Carroll Shelby Art Evans, 2016-09-15 Art Evans was a sports car racer in the 1950s on the West Coast who raced against, and became close friends with, Carroll Shelby. Their intense competition on the track became a lifelong friendship off the track. He and Shelby collaborated on many business projects over the years, including books, marketing projects, projects for the Shelby Foundation, and so on. In his later years, Shelby loved the books about his cars and similar topics, but his eyesight was failing to the point where he had difficulty reading, and really preferred the books that were heavy with photos. It was from that realization that Shelby and Evans decided to work on one last book together. They both combed through the Shelby archives and selected Shelby's favorite images from his racing career. That is almost the entirety of this book. It is packed with photos selected by Shelby himself, and the captions are quotes from Shelby's commentary on the action in the photo, as well as his memories. Unfortunately, Carroll Shelby passed away before the book was fully completed, but Evans, following Shelby's instructions, carried this final project through to completion. Filled with images that have never been seen in print, as well as images not published since the 1950s and 1960s, this final work from Shelby is a personally curated collection by the legend himself. If you are a sports car racing fan, Ford fan, Shelby fan, or any combination of the three, this book is a perfect addition to your automotive library.

Where Is My Flying Car? J. Storrs Hall, 2021-11-30 From an engineer and futurist, an impassioned account of technological stagnation since the 1970s and an imaginative blueprint for a richer, more abundant future The science fiction of the 1960s promised us a future remade by technological innovation: we'd vacation in geodesic domes on Mars, have meaningful conversations with computers, and drop our children off at school in flying cars. Fast-forward 60 years, and we're still stuck in traffic in gas-guzzling sedans and boarding the same types of planes we flew in over half a century ago. What happened to the future we were promised? In *Where Is My Flying Car?*, J. Storrs Hall sets out to answer this deceptively simple question. What starts as an examination of the technical limitations of building flying cars evolves into an investigation of the scientific, technological, and social roots of the economic stagnation that started in the 1970s. From the failure to adopt nuclear energy and the suppression of cold fusion technology to the rise of a counterculture hostile to progress, Hall recounts how our

collective ambitions for the future were derailed, with devastating consequences for global wealth creation and distribution. Hall then outlines a framework for a future powered by exponential progress—one in which we build as much in the world of atoms as we do in the world of bits, one rich in abundance and wonder. Drawing on years of original research and personal engineering experience, *Where Is My Flying Car?*, originally published in 2018, is an urgent, timely analysis of technological progress over the last 50 years and a bold vision for a better future.
