In this book, bestselling author, Advantage player, Mitch Freeland shows how he beat the dice for over 30 years. You will learn: * An easy betting method that can give you as much as a 2 to 1 edge on certain bets* How to bird dog a table* How to benefit from superstitious players* How to have an odds bet without a Pass line or Come bet* How to manage your play for maximum profits* When to press it up and when to take a walk* Which type of players to play with that will practically guarantee you a profit* The simple yet profitable favors you get by asking fellow players the right questions There are three irrefutable plays at the craps table that if played over any period of time, and as instructed in this book, will make you a big winner for the rest of your life. Well, the numbers are correct and the math doesn't lie. The 3 irrefutable plays in this book work. In fact, by just practicing one of the plays in any casino will guarantee you a significant mathematical edge. Mitch has been playing winning craps for more than thirty years. He has seen a lot of players lose a lot of money over the years--and only a few win. The fact is, well over 99 percent of people who play craps are losing players. They lose for a number of reasons, but most lose because they are not serious about the game and even though they may feel they know what to do, they don't know how to do it correctly, consistently and with self-discipline. The casino has an edge. We know this. However, the casino does not have an edge when you exploit flaws from other players, thus giving you a noted advantage that can make you a consistent winner. The 3 irrefutable bets presented in this book are solid, tested, and irrefutable. They have worked for decades, perhaps even as far back as one hundred years ago when modern day craps evolved into the game it is today. The 3 irrefutable bets are the best bets you will ever get from any casino. The Wierd World of Casino Craps Louis Girifalco, 2016-07-15 This book is about the game of casino craps; its allure, its superstitions and its truths. It is about luck, chance and systems, about good bets, bad bets, good playing strategies and poor strategies. Smart craps is a fifty-fifty game and if everyone played smart, the casinos could not afford to run crap games. But most gamblers don't play smart craps and their losses make the game very profitable for the casinos. Bless the losers because without them there would be no craps games at your favorite casino. Here's how to play smart craps: Start with the right stake, establish a win goal and a loss limit, avoid all bets with a high house edge, and learn how to randomize the game without randomizing your bets. But this book is more than just a description of how to play a sensible craps game. It includes some fascinating history, an analysis of the house edge, and above all, it stresses the importance of mental discipline. It is a lack of discipline, as much as an ignorance of the game, that makes most players continual losers. Read my book and learn about the strange world of casino craps. Follow its lessons, and you will be a smart player with greatly increased chances of winning more than you lose.
