Downtown Chic Robert Novogratz, Cortney

Novogratz, 2009-05-05 Robert and Cortney Novogratz, stars of the hit Bravo series *9 BY DESIGN*, have been renovating and designing unique and hip homes for families for over ten years. Describing their signature style as a sophisticated but bohemian mix of high and low, new and old, they offer their realistic advice

on how to create original, warm interiors with ease. One part practical guide, one part inspirational volume on creating a look for the home, the book pairs humorous anecdotes about the pitfalls and pleasures of renovation with a treasure trove of decorating tips: how to use both boutique and flea-market finds; how to inject lots of personality into a room affordably; how to decorate kids' rooms so they appeal to children and adults; how to easily rehabilitate outdated furnishings; and many more. In each of the ten projects featured—which include a townhouse in New York City, a country house in Massachusetts, and a beach house in Brazil—before and after shots document the agony and ecstasy of any renovation project, as well as revealing the design duo's vision and remarkable ability to see through the most awful of spaces to the amazing home that lies within.

Get Your House Right Marianne Cusato, Ben

Pentreath, Richard Sammons, Leon Krier, 2011-08-09 “[A] much needed book both for homeowners who want a beautiful and well proportioned house and for the professionals who help them to realize that dream.” —Sarah Susanka, FAIA, architect and author of *The Not So Big* series and *Home by Design* Even as oversized McMansions continue to elbow their way into tiny lots nationwide, a much different trend has taken shape. This return to traditional architectural principles venerates qualities that once were taken for granted in home design: structural common sense, aesthetics of form, appropriateness to a neighborhood, and even sustainability. Marianne Cusato, creator of the award-winning Katrina Cottages,

has authored and illustrated this definitive guide to what makes houses look and feel right—to the eye and to the soul. She teaches us the language and grammar of classical architecture, revealing how balance, harmony, and detail all contribute to creating a home that will be loved rather than tolerated. And she takes us through the dos and don'ts of every element of home design, from dormers to doorways to columns. Integral to the book are its hundreds of elegant line drawings—clearly rendering the varieties of lintels and cornices, arches and eaves, and displaying “avoid” and “use” versions of the same elements side by side. “This ‘Rosetta stone’ of design will guarantee Cusato a place in the history of twenty-first century American architecture.” —The Philadelphia Inquirer

“[Cusato] provides a vision of how we live together and build on our planet, and points out the consequences of flawed building practices not only to our environment, but to our spirit and our soul.” —Michael Lykoudis, Dean, University of Notre Dame School of Architecture

The Encyclopedia of Trouble and Spaciousness Rebecca

Solnit, 2014-10-28 The incomparable Rebecca Solnit, author of more than a dozen acclaimed, prizewinning books of nonfiction, brings the same dazzling writing to the essays in *Encyclopedia of Trouble and Spaciousness*. As the title suggests, the territory of Solnit's concerns is vast, and in her signature alchemical style she combines commentary on history, justice, war and peace, and explorations of place, art, and community, all while writing with the lyricism of a poet to achieve incandescence and wisdom. Gathered here are celebrated iconic essays along with little-known pieces that create a powerful survey of the world we live in, from the jungles of the Zapatistas in Mexico to the splendors of the Arctic. This rich collection tours places as diverse as Haiti and Iceland; movements like Occupy Wall Street and the Arab Spring; an original take on the question of who did Henry David Thoreau's laundry; and a searching look at what the hatred of country music really means. Solnit moves nimbly from Orwell to Elvis, to contemporary urban gardening to 1970s California macramé and punk rock, and on to searing questions about the environment, freedom, family, class, work, and friendship. It's no wonder she's been compared in *Bookforum* to Susan Sontag and Annie Dillard and in the *San Francisco Chronicle* to Joan Didion. The

Encyclopedia of Trouble and Spaciousness proves Rebecca Solnit worthy of the accolades and honors she's received. Rarely can a reader find such penetrating critiques of our time and its failures leavened with such generous heapings of hope. Solnit looks back to history and the progress of political movements to find an antidote to despair in what many feel as lost causes. In its encyclopedic reach and its generous compassion, Solnit's collection charts a way through the thickets of our complex social and political worlds. Her essays are a beacon for readers looking for alternative ideas in these imperiled times.
